An Open Letter TO OUR BOYS In the Armed Forces

You can Count on the People in This Community 100%

BOYS . . . yours is a tough job. Fighting this war is no fun. We know that . . . and this letter is to tell you that the people in this community are back of you to the limit . . . with everything they've got.

Here at home there is a serious pulpwood shortage. More pulpwood is needed and needed urgently for blood plasma containers, rayon for parachutes, smokeless powder, food cases and a thousand and one other things you boys need.

Well, we're starting a drive right now in this community to cut more pulpwood.

If we can't shoulder a gun the least we can do is shoulder an axe or a saw.

Our government says that it would take only 3 extra days of work this year for each

able-bodied man to do the job that's needed. This is little enough to ask of any of us.

Well, if 3 extra work days will bring you boys home sooner . . . or even save one boy's life . . . we will put in the 3 extra days . . . and gladly.

We know our people and know the stuff they are made of. They have been fighting this War on the home front every day—buying War Bonds, working in war factories, on farms, and cutting pulpwood. But, if more pulpwood is needed, you will get it. This town and its people when called on always come through . . . and they won't fail you now.

We will back you up with Blood, Sweat and Trees.

WOODCUTTERS, FARMERS, CITIZENS:

This pulpwood shortage is acute. The situation is serious. We must act quickly. Uncle Sam is asking for only 3 extra days of work of regular pay. **Today . . . it's your patriotic duty. Get your button that shows you are in the Victory Pulpwood Drive. Don't let anyone say, "some boy died because you failed."**
