A Girl's Composition.

"Boys are men that have not got as big as their papas, and girls are women that will be ladies by and by. Man was made before woman. When God looked at Adam He said to Himself: 'Well, I think I can do better if I try again.' And He made Eve so much better than Adam that there have been more women than men ever since."

"Boys are a trouble. They wear out everything but soap. If I had my way half the world would be girls and the rest dollars. My papa is so nice he must have been a little girl when he was a little boy."—Kind Words.
