COLLAR ATTACHED SHIRTS

\$1.25

Step aside Stiff Collars and Cuffs, and let
the Champions thru.

There are 15 dozen of the new collar at-
tached Shirts---to be exact---and if the 22
million young men in America could see
them we'd be exactly 21,998,820 shirts shy.

Good materials---and the kind of a collar
that goes thru a hot day like a trooper.

They'd be Peaches at \$2.00---they're the
whole orchard at \$1.25!

Toy Casualties

Bring Unique Protest

Washington, Aug. 23.—American
toy exporters must send enough dolls'
noses and cat's tails with their ship-
ments or suffer deductions for the
missing members, according to an
original letter of complaint from an
importer of Lucknow, India, made
public today by the Commerce De-
partment.

Honored Lits and Clients," the let-
ter said, "Hoping all's well, we apolo-
gize for undue procrastination in fur-
nishing necessary reply to your last
esteemed of bygone days. Peradven-
ture we are at fault be ours the blame
and burden also contrition Honored
Lits.

"The elephants is gone off instantly
and ditto the tigers. The leopards is
too much deficient in spots for our

climate so pray be watchful and we
will watch over you. The sample
wax dolls is running away owing to
equatorial heat of Indian summer.
So pray stay your hands. Eight
china dolls is to hand with six broken
noses per doll and nine cats is com-
ing with only seven tails. For which
our valued will make some necessary
deductions on fundamental basis of
one nose per biped and one tail per
animal. Admonishments of your hon-
ors packing department is our good
advice to you that the same may not
come to pass again."

It isn't only the blows a prize
fighter can give, it's the blows he
can take.

SUBSCRIPTIONS TO

\$20,000 CANNERY

NOTICE: All whose names appear
below with five stars may call upon
Paul E. Wilburn, Secretary-Treas-
urer, and get their stock certificate.
The certificates are ready for de-
livery.

On Monday, July 24, we put into
operation our canning factory. We
have a capacity of 20,000 cans, 833
cases, a day. We have growing and
ripening in the fields a fine crop of
tomatoes. There is but one factor
now that hinders an assured success:
Our capital is too limited. This leads
to two additional statements. Every
subscription should be paid up at once
and new subscriptions should come in.
Will you not help?

We need every dollar we can get to
make the first turnover. Remember:
We must can for 30 or 40 days before
we will be able to realize on our first
return from sales.
Help us to help Union county to a
new and better way.

Developing Philippine University Health Courses

Manila, P. I., Aug. 23.—(By the As-
sociated Press).—Bringing the col-
lege of medicine and surgery of the
University of the Philippines up to
the recognized standard of class A
colleges of this sort in the United
States by revision of the college cur-
riculum, and the establishment of a
central nursing school that will
double the number of trained nurses
graduated annually in the Philip-
pines, are two of the important mea-
sures regarding public health and the
control of disease that have come
about from the work of Dr. Victor G.
Heiser, Far Eastern representative
of the Rockefeller Foundation, since
his arrival here three months ago.
Dr. Heiser summarized what has
been done in a report to Governor
General Wood and the director of
health. He invited attention to the
fact that the health activities of the
Philippines are not centralized under
one department secretary, as he be-
lieves they should be, and he there-
fore recommends that the legislation
to do this, which failed of passage in
the last legislature, be brought up
again.
The International Health Board
has furnished the services of Dr.
Charles N. Leach to the Philippine
government for health work, of Dr.
W. S. Carter as assistant dean of the
college of medicine and surgery and
professor of physiology, of Miss Alice
Fitzgerald as consultant in nursing
and D. W. Tiedeman as sanitary en-
gineer in charge of field studies in
malaria which have been undertaken
in the province of Laguna.

Professional Classes in Russia are in Sore Straits

London, Aug. 23.—A committee under
the chairmanship of Professor
Sir Paul Vinogradoff has been formed
to help the professional classes in
Russia whose condition has been de-
scribed as most pitiable.
Since the soviet adopted their new
economic policy, thousands of pro-
fessional men and women have been
in the employ of the government at
a salary of half a pound a week have
lost even that pittance and are now
face to face with starvation.

Beetles in the East and West In-
dies are so brilliant in coloring that
they are beautiful as gems.

Approximately 100,000,000 bushels
of grain is exported from New York
every year.

The Virgin Islands were named by
Columbus in honor of the 11,000 Vir-
gins.
