...CHEAP STOVES AND RANGES...

ARE OUT OF DATE.

People are beginning to learn that a cheap stove is the most expensive article that they can buy.

WHY?

BECAUSE THE VALUE OF A STOVE IS IN THE WEIGHT AND A THIN CASTING HOLDS LESS HEAT AND TAKES MORE FUEL THAN A THICK HEAVY STOVE. . . .

You use your stove more than any one article in your home: three times a day and three hundred and sixty-five days, makes one thousand and ninety-five times a year you heat your stove. A good heavy stove or range will save you one-third of your wood bill. This alone is a big item to consider, to say nothing of the comfort and time saved in getting your meals. It is a pleasure to cook on one of our MAJESTIC RANGES, almost like playing on a piano. If your cook gets sick and don't come in the morning, a match and a few shingles will almost do the work on a Majestic, and you can feel independent. Now we do not sell CHEAP STOVES, but we sell STOVES CHEAP, and you can always do a little better with us when you want a GOOD STOVE or RANGE.

Even our lowest price stove at \$7.50 carries our guarantee just the same as our \$47.00 Majestic Range. Come in and let us show what a good stove is.
