NEXT DOOR TO PEOPLES BANK.

ONE PRICE FOR EVERYBODY

A Memorable Day.

One of the days we remember with pleasure, as well as with profit to our health, is the one on which we became acquainted with Dr. King's New Life Pills, the painless purifiers that cure headache and biliousness, and keep the bowels right. 25c at all druggists.

William J. Harley, of Harleyville, was shot and killed by C. C. Parler Saturday night. Harley went to Parler's house and was going into the front door threatening to kill Parler. It is said that Harley had been terrorizing the community for several years.

Why Suffer From Rheumatism.

Do you know that rheumatism can be relieved? If you doubt this just try one application of Chamberlain's Pain Balm. It will make rest and sleep possible, and that certainly means a great deal to any one afflicted with rheumatism. For sale by Union Drug Co.

Policeman Woodhurst, of Abbeville, was shot in the arm about 11 o'clock Saturday night. The attempted assassination was at close range and came near being successful.

The Charming Woman

is not necessarily one of perfect form and features. Many a plain woman who could never serve as an artist's model possesses those rare qualities that all the world admires: neatness, clear eyes, clean smooth skin and that sprightliness of step and action that accompany good health. A physically weak woman is never attractive, not even to herself. Electric Bitters restore weak women, give strong nerves, bright eyes, smooth, velvety skin, beautiful complexion. Guaranteed at all drug stores; 50c.

Bad Stomach Trouble Cured.

Having been sick for the past two years with a bad stomach trouble, a friend gave me a dose of Chamberlain's Stomach and Liver Tablets. They did me so much good that I bought a bottle of them and have used twelve bottles in all. Today I am well of a bad stomach trouble.—Mrs. John Lowe, Cooper, Maine. These tablets are for sale by Union Drug Co.

Transportation Exhibits.

Norfolk, Va., Jan. 24.—The word "transportation" has in late years gained such a wide significance that under its caption volumes might be written. Until recently it referred principally to railroad and steamboat service, but now it reaches from the upper depths of aerial navigation to the bottom of the sea, where the submarine boats disport with the denizens of the deep; from the flying locomotive to the trolley car, the automobile or the auto-cycle. Or from the handsomest equipage in carriage or trap to the broad-tired or ox cart of the burden-bearing type.

There was a time when the question of rapid transportation was only discussed in the great centers of civilization or between those centers, but now it is a question of deep interest to everybody, and as the canal and the national pike have given way to the modern steamer, the railway and the automobile, so even the more recent means and modes of transportation will give place to the latest motive power that really constitutes the master-wheel to the mechanism of moving passengers and freight.

The incalculable value of an exhibit at the Jamestown exposition is becoming more manifest every day as the call for space continues to increase, and more particularly is this true in the motive power department of transportation.

When the manufacturer of motive power devices or mechanism begins to realize the vast territory along the Atlantic coast that by reason of the last few years of special prosperity is looking for better means of transportation both on land, river and sea, he more readily notes the vast importance of properly displaying that for which the people are clamoring and which they will have. The oar and the sail must give way to a surer and more rapid mode of propelling.

That the hundreds and thousands of people who visit the exposition next year will have an opportunity to compare the various modes of transportation in the past with the perfected modes of the present is evidenced by the fact that such vast concerns as the American Locomotive Works, the Baldwin Locomotive Works and the Climax, as well as other locomotive works and companies interested in the motive power for various modes of transportation, as well as vehicles and other adjuncts, will have complete exhibits at the exposition showing the old time means of transportation and of applied motive power, side by side with the most modern vehicles and modes of propelling them. Not only will these extremes separated by three hundred years be on exhibition, but every step taken from them till now will be shown and fully demonstrated.
