

MANNING IS THE MAN FOR GOVERNOR Of South Carolina

When He is Elected
We Shall Have:

1. A Clean Business Administration
2. A State Government for all the People
3. Efficiency in the Executive Department
4. Co-operation Among the State Officials
5. A Progressive Program of Legislation Embodying Constructive Measures
6. Enforcement of the Laws in South Carolina
7. A Judicious Use of the Pardoning Power

DEMOCRATS OF SOUTH CAROLINA:

It is your duty to go to the polls on September 8th and vote in the second primary. So far only a partial victory has been gained. The election of a governor is the people's fight; he is in the State all the time; he can be reached by the humblest man; he is the governor, but the servant of every man in the State. Mr. Manning will be elected governor if the people go to the polls and vote on September 8th.

There will be many eleventh hour falsehoods spread and from past experience the voters of this State should know that these below-the-belt ought not be believed. Make up your minds now to vote for good government.

There will be attempts to cloud the issue but the people cannot be fooled. **DON'T STOP WORKING FOR LAW AND ORDER AND GOOD GOVERNMENT UNTIL THE LAST VOTE IS CAST.**

The farmers of the State are going to stand to Mr. Manning, a farmer himself, who knows the A. B. C. of farm conditions and who has been foremost in bettering rural conditions. He is working now to help in the fight to relieve the cotton situation and he has already done much to help the planters of his State at other times.

Card of Thanks.

Editor Union Times,
Union, S. C.

Dear Sir—Permit me, if you please, just enough of your most valuable space in your paper to say to you and the people of Union county, that I am profoundly grateful for the magnificent expression of your confidence given to me at the polls of this county on August 25, last. Never, till life is done will I cease to be grateful, and I can only say to you again what I have tried to show you by my life for the past twenty years, that it is a pleasure to serve my people anywhere, at any time and in any capacity that I may.

Just remember this, that whenever questions arise, whatever problems present themselves for solution in the days to come, the stand that I may take will always be such as I honestly believe to be for the benefit of the majority. Again thanking most sincerely every friend and supporter, I am gratefully and humbly the servant of all the people.

L. L. WAGNON.

Card of Thanks.

I am deeply grateful to the people of South Carolina for the magnificent vote given me on Tuesday. In making my race for Lieutenant Governor, I took an outspoken stand for clean politics and good government in South Carolina, and from every stump I proclaimed the gospel of law and order. I regard my handsome vote as an endorsement of that position.

Getting into the second race with a big vote and good lead, gives me much satisfaction of course, but I know that the principles for which I and others fought have triumphed gives me greatest joy. I am willing to trust the people, believing that on September 8th they will make the victory complete.

ANDREW J. BETHEA.

Card of Thanks.

I hereby express to the people of Santuc Township my appreciation for the splendid vote they gave me in the primary, August 25. I will strive to do my duty faithfully and thus show that the confidence was not misplaced.

J. P. Jeter.

IS FOURTH STATE IN COTTON YIELD

South Carolina Production is Large—Some Census Totals—Bales of Domestic Consumption Run Light.

(The State.)

South Carolina and Georgia are credited with a large part of the increase in production of cotton in recent years, in the census bulletin of cotton production in 1913, copies of which reached Columbia yesterday. The crop of 1913, as compared with that of 1912, shows a gain in each of the States with the exceptions of North Carolina, Oklahoma, Texas and Virginia. The production in Alabama, Georgia, South Carolina and Tennessee was the largest ever reported for these States, except for 1911.

Arkansas made its record crop in 1913 and Louisiana showed the largest amount ginned from a single crop since 1908. While the crop in Texas was nearly 1,000,000 bales short of the record crop of 1912, it was exceeded by that and only two others—those of 1905 and 1911. Great variations are shown in the crops of this State in the different years. In 1906, while the following year it amounted to only 2,300,179 bales. The production then rose to 3,814,485 bales in 1908, to 4,256,427 bales in 1911, and to 4,880,210 bales in 1912. The State produced 25.2 per cent of the total crop of the country in 1909, 26.3 per cent in 1910, 27.1 per cent in 1911, 35.6 per cent in 1912, and 27.9 per cent in 1913.

The production of cotton in Georgia in 1913, while showing an increase of more than 500,000 bales, as compared with the previous year, was still 452,026 bales short of the record crop of 1911. The crop of 1913, however, was, in this State, greater than that of 1906 by 724,029 bales, or 45.5 per cent, and in South Carolina by 501,633 bales, or 57.3 per cent.

The production of cotton in Louisiana decreased steadily from 1906 to 1910, though since then there has been some increase. In 1906 the production of the State amounted to 987,779 bales, while in 1910 the amount was only 245,648 bales. This rapid decline was due largely to the ravages of the boll weevil and to the consequent diversion of cotton lands to the cultivation of sugar cane, rice and other crops. There has been a tendency to return to the cultivation of cotton in some sections of the State, and it is expected that there will be a further increase in the production.

South Carolina ranked fourth among the States in cotton production in 1913, 1912 and 1911; fifth in 1910 and third in 1909. There were 189 counties which reported more than 25,000 bales each in 1913, compared with 166 in 1912 and 221 in 1911. There were 38 counties which reported more than 50,000 bales each in 1913, 11 of which—four in Mississippi and seven in Texas—reported more than 75,000 bales each and

more than 100,000 bales each were realized. The States which contributed the larger portion of the export of cotton are those which put up the heavy bales. The average weight of a bale for the States of Arkansas, Louisiana, Mississippi, Oklahoma, Tennessee and Texas, which furnish the larger part of the export, was 518.3 pounds, while the average for the States of Alabama, Georgia and North Carolina and South Carolina, which contributed most largely to the domestic consumption, was 491.4 pounds.

NEW CONFERENCE

WILL BE CALLED

Southern Cotton Men to Meet Again—Need Further Power—Result of Supposed Lack of Authority is Demand for Another Meeting.

New Orleans, Aug. 28.—Delegates to the Southern Cotton conference voted today that they were not empowered with authority necessary to sustain important actions they might take to relieve the present situation and decided to have another conference here September 29. Delegates to this conference will have power to enforce actions if plans laid today materialize.

Each State president of the Southern Cotton association under whom he presides this conference was being asked to have each county president call a meeting of the planters, bankers and merchants in his county on September 19. Representatives to the State convention will be selected and each State convention will meet September 22. These several State conventions will name delegates to the conference here September 29. If plans laid today do not materialize, the State delegates will come to the New Orleans conference with instructions, or empowered to represent their States in the proceedings as they see fit.

The decision to call such a conference came after the conference here became hopelessly divided on what was a minimum price for cotton should be decided upon and what that minimum should be. On resolution to make rule it 12-12 cents the vote was a tie. Southern Cotton association, who were presiding, said he did not believe the incumbent upon him to cast the deciding vote on such a question. The situation was relieved by J. W. Hardy, of Mississippi, who changed the vote from nay to aye and moved reconsideration. After extended discussion an amendment providing for the new conference was offered. Prof. J. W. Connell of Dallas, Texas, was unanimously carried.

At the final session this evening was decided to instruct State presidents of the Southern Cotton association to sound the business interests of their respective States upon a basis and general conditions that would accept bonded warehouse receipts as collateral. They were to report at the next conference.

NO PAPER FOR WAR NEWS.

That's the Possibility London Journals Face.

(From London Times, August 12.)—A problem of great public interest and importance is how far and how long paper manufacturers and newspaper proprietors will be able to provide the amount of paper necessary to satisfy the unprecedented demand for war news.

In this country there is ordinarily consumed and exported about 15,000 tons weekly of news and white paper in reel made from wood pulp. This includes paper used for magazines and the like. The consumption has risen 25 per cent owing to the demand for war news, and the increase would have much greater but for the fact that the size of newspapers has been rigorously cut down. A large percentage of this paper comes from Newfoundland and the Continent. From Newfoundland we get about 900 tons weekly and from the Continent 2,600 tons. The Continent supply comes from Scandinavia, Germany and Holland. The colonial supplies, though interrupted, have not been seriously interfered with, and it is hoped that this will continue to be the case. But the Continental consignments have for the moment ceased, so that the available supplies are diminished to that extent. One immediate result has been to raise the price of paper. A fortnight ago the price was about 1d (2 cents) now it is 1 1/2d (3 1/2 cents). Some 11,500 tons of paper are being manufactured in this country at the present time and to this amount has to be added the supply from Newfoundland.

It is obvious that the total supply is at present far short of the demand. The increase of 75 per cent in the cost of paper is a serious matter for the printing trade generally and for newspaper proprietors in particular, but a question of even more vital moment is the continued supply now that the Continental shipments of wood pulp have been stopped. According to the best informed sources of information stocks are being drawn upon to the extent of 19,000 tons. It is estimated that the reserves are normally equivalent to a week's supply, but that at the present rate of consumption these will last for about six weeks.

DOES & LaGRIPPE

6 doses 666 will break of Chills & Fever, Colds & Grippe; it acts on the liver & Calomel and does not harm. Price 25c.

at Meador.

severe electric storm neighborhood Thursday struck the rest of the day. Fant, but did not only slightly damaged.

DON'T DELAY!

That Cut in Your Casing

May look insignificant now—but if it isn't repaired AT ONCE it will lead to a loose tread, "sand blisters," and a blowout.

Let us repair the injury NOW—in our fully equipped tire repair shop where ONLY the latest STEAM VULCANIZING equipment and the very best materials are used.

Every kind of tire and tube repairing done promptly and perfectly.

Call 66 and we'll call.

Pleasure and Protection

"One of the best reasons why I would not be without telephone service," writes a Georgia farmer, "is the pleasure it gives my wife and the knowledge that while I am away, she has the protection that the telephone gives."

On the farm the telephone dispels loneliness and is the means of bringing help in any emergency that may arise.

If you haven't a telephone on your farm see the nearest Bell Telephone Manager or write for our free booklet and learn how little this service costs.

A. L. Ry. at Wilmington. For further information, Schedules, etc., phone 182. C. L. McEachern Agent.

A Good Thing.

One thing about these farmers' institutes, there's no politics mixed up in the speeches made there, for which we should be thankful.—Pickens Sentinel.

How To Give Quinine To Children.

FEBRILINE is the trade-mark name given to an improved Quinine. It is a Tasteless Syrup, pleasant to take and does not disturb the stomach. Children take it and never know it is Quinine. Also especially adapted to adults who cannot take ordinary Quinine. Does not nauseate nor cause nervousness nor ringing in the head. Try it the next time you need Quinine for any purpose. Ask for 2 ounce original package. The name FEBRILINE is blown in bottle. 25 cents.

No.

Don't count your chickens before they are hatched and don't pick your seat in the senate before you are elected.—Greenville Piedmont.

Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.
