Rice's Bridge Rebuilt.

The Rice's bridge over the Forest has just been completed and the road is now open. Mr. J. E. Fowler was the contractor to do this work.

LOCKHART JUNCTION

Lockhart Junction, Mar. 1.—The rain fall the past two or three weeks has not been so often; the weather seems more like spring time. The land is getting in good ploughing order but the farmers don't seem to be in any hurry. It does not seem that they hardly know what to do first. I see no preparation for guano in this section. At this time last year there was several car loads shipped to this place, now as some say, we have not smelled any, and to make it plain that is about all there is to some of it—a smell. There is only 32 per cent of guano to the sack, and the balance is filling of dirt or ashes or ground rock. I will tell you the kind that I have been using: I use the cotton seed meal and acid and do my own mixing. That is the best guano that I have ever used.

There was a farmers meeting in Jonesville last Saturday evening, the 28th, and several talks were made on guano and cotton. Every one seemed to be against using guano unless the prices get better, and if they did only use one half what they have been using they would be better off. This thing has come to be a habit anyway. I sometimes think we cannot do without guano now, but this is all a notion, farmers use to farm without it and they made cotton and got a good price for it.

Many thanks to those who complimented my last letter. I always try to write what I know to be so and according to the dictates of my own conscience, and I never dodge a question—that is one I am interested in.

Mr. B. F. Greigert had an accident at his home last Saturday night which came near being a bad one. This was a fire, which was thought caught from a chunk that rolled down from the fireplace in the corner and caught to the ceiling inside and burned through to the outside of the house on one side of the chimney

through the weather boarding and doing more damage to the outside than the inside. The roaring of the fire and the smoke in the house woke Mr. and Mrs. Gregory and they got to the flames in time to extinguish them. It was hard work and if the wind had been blowing it could not have been done.

Mr. B. F. Miller, who is well known in this section as a veterinary doctor by practice and experience, tells me he had treated 21 cows lately and has not lost one. Mr. Miller has had long experience with cows, for his father before him was a cow trader and handled many of them.

The Hee Haw Minstrel, Jonesville local talent, will give a performance in the Jonesville school auditorium, Friday, March the 5th, for the benefit of the U. D. C. Everybody cordially invited to come out and help a good cause.

We forgot to mention last week that Mr. Victor Gallman and Miss Eva Porter were married at Lockhart on the 20th of February. These two young people lived near Kelly's station, but now are living at Lockhart. They have our congratulations. Moxy.

In Memory of Mrs. Emslie Nicholson

The Missionary Society of the Presbyterian church of Union, South Carolina, wishes to place on record the great loss it has sustained in the death of one of its most dearly loved and valuable members, Mrs. Emslie Nicholson, who passed to her eternal rest on February 2, 1915.

It is generally recognized that not only will the loss of her life be keenly felt by the church, but by the entire community, where her gracious manner and strong personality had won for her the kindest regard among people of all classes.

Her sympathy, which she extended with a gentleness and tact, born only of fine natures, was dear to many. None knew better than she how to enhance the value of kindly deeds

by their manner of performing them. In all her relations in life she was conscientious in the performance of her duty, and having served others faithfully and well, so great will be the vacancy made by the ending of her unselfish, christian life.

The Society feels grateful for the influence of such a life, and grieves with the family, to whom it would offer consolation, and wishes for it in this time of sorrow, the peace of God, which passeth all understanding.

This little tribute of love to her memory, the Society wishes entered in its minutes, a copy sent to the family, and that it be published in our city papers.

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate. Children and grow folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.
