

LONG TRIP BY AUTOMOBILE

Five Hundred Miles Without Even a Puncture—Fine Crops.

From The News and Courier:
York, June 28.—Dr. Jas. D. McDowell and family returned to their home here Saturday afternoon, after spending several days at Edisto Island, where they attended the marriage of a relative of Dr. McDowell. The 500-mile trip to and from Edisto Island was made by automobile and the best of luck accompanied the party, not even a puncture occurring on the trip. Dr. McDowell said that he used only 15 gallons of gasoline on the entire trip and that he was convinced that the cheapest way to travel was by automobile, since his actual expenses were only \$2.50 in addition to the gasoline. The doctor said that the roads in the lower section of the State were fine, although quite a good deal of sand was encountered. "The worst section of road we encountered on the whole trip was that between Chester and home," he said. "Farmers in the low country, especially in the Edisto Island section, are way ahead of those up here with their crops."

Carried Mail For Twenty Years

One of the oldest men in the service of Uncle Sam in this section is H. W. Ackerman, who for 20 years has been carrying the mail as star route carrier between Walterboro and Cottageville. Mr. Ackerman completed his 20th year Friday, of last week, and it is interesting to figure just how many miles he has travelled in this time. His route is 24 1-2 miles in length, and there are no holidays for star route carriers. Mr. Ackerman has been on the job continuously and faithfully. He has, therefore, carried the mail in this time 6,265 days, and has travelled a distance of 153,472 miles. This would have carried Mr. Ackerman around the earth six times with a trip across the continent thrown in. Mr. Ackerman leaves Cottageville in the morning, reaching Walterboro at 11 a. m., and leaves on his return at 12 o'clock. In addition to carrying the mail, Mr. Ackerman does errands for everybody at Cottageville and in Walterboro, and is one of the most accommodating of men. He often has his buggy loaded with all sorts of produce and merchandise. Here's hoping he may live to carry the mail another 20 years or longer if he wishes to continue at the job.

OBITUARY

Hendersonville, June 29.—Our dear little darling departed this life on the 8th inst., but oh, how hard to give the little angel up. She was so sweet and good. Too good for this sinful world of ours. Some day, perhaps, we'll understand. She stayed with us not quite eight years. How she did brighten our home with her smiles and sunshine. She had a smile for all she met, always thinking of others instead of self. But God saw fit to pluck the little bud where it may bloom at His right hand and be watered at His fount that never runs dry. Our home is so gloomy without her cherry laughter, but we have to bow to His will, for He never makes mistakes.

ENDORSED AT HOME

Such Proof as this Should Convince Any Walterboro Citizen.

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced of the worth of what he is saying. Telling one's experience when it is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Walterboro adds one more to the many cases of Home Endorsement which are being published about Doan's Kidney Pills. Read it:

J. R. Laurence, lumber dealer, Walterboro, says: "I keep Doan's Kidney Pills on hand all the time and I find them a mighty good medicine to have in the house. I have used them myself for weak kidneys and pain in my back and have always found them very satisfactory. Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Laurence had. Foster-Milburn Co., Props., Buffalo, N. Y."

SHOULD SLOAN'S LINIMENT GO ALONG

Of course it should! For after a strenuous day when your muscles have been exercised to the limit an application of Sloan's Liniment will take the soreness and stiffness away and get you in fine shape for the morrow. You should also use it for a sudden attack of toothache, stiff neck, backache, stings, bites and the many accidents that are incidental to a vacation. "We would as soon leave our baggage as go on a vacation or camp out without Sloan's Liniment." Writes one vacationist: "We use it for everything from cramps to toothache." Put a bottle in your bag, be prepared and have

Traveling Man's Experience.

"In the summer of 1888 I had a very severe attack of cholera morbus. Two physicians worked over me from four a. m. to 6 p. m. without giving me any relief and then told me they did not expect me to live; that I had best telegraph for my family. Instead of doing so, I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and take no substitute. I took a double dose according to the directions and went to sleep after the second dose. At five o'clock the next morning I was called by my order and took a train feeling rather shaky from the severity of the attack," writes H. W. Ireland, Louisville, Ky. For sale by all dealers.

WITH THE FARMERS

By F. W. Risher, Farm Demonstrator.

Saturday, June 24, the farmers of the Smoaks section gathered at the school building to hear a talk by Paul Calvin, animal husbandry man from Clemson College, on how the marketing association that was recently formed at Smoaks should benefit the farmers. His talk was very instructive. He showed how the people could improve the stock of the community, and also get better prices for those already there that were for sale this year. He said from what he saw there was an abundance of hogs and cattle in the community.

The people of the Round section are going to follow the example of Smoaks and arrange a live stock association. The Smoaks Marketing Live Stock Association is the first of its kind ever organized in South Carolina. This shows that the people of Colleton are coming to the front. The Westerners and North-easters have been made wealthy by organization—why not the South-easters as well?

Three men are now considering the building of silos: Dr. B. G. Willis, of Cottageville; W. S. Marvin, of Ashpool; and the Padgett Land & Mercantile Co., of Ruffin.

Hog cholera has broken out in several places. At each place the County Demonstrator has promptly responded to the call for help. Cholera can be controlled by having the hogs inoculated with serum, which is sold to the farmers at cost by Clemson and the work is done for nothing by the county demonstrator. Any one having cholera of who knows of any should promptly notify F. W. Risher, county agent, at Walterboro, or call The Press and Standard and they will notify him.

There are over 1,000 acres of velvet beans planted in Colleton and a few acres of soy beans.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."

I cannot tell you how I suffered with my head and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead, and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

At all druggists.

Monuments

When a loved one dies it is fitting that a memorial tombstone, or monument, be erected over the place where he or she sleeps, in order that future generations may know the sacredness of the place. When one wishes to place a memorial tablet over the grave of a loved one, it should be of the best material, and guaranteed to last.

Our work is all guaranteed.

Let me submit an estimate on what you wish.

WEAK, AILING CHILD

Made Strong By Delicious Vinol
Lakeport, N. H.—"Our little girl 8 years of age was in a debilitated, run-down condition and had a stubborn cough so she was weak and ailing all the time. Nothing helped her until we tried Vinol. Then her appetite increased and she is strong and well, and I wish other parents of weak, delicate children would try Vinol." Geo. A. Collins.

This is because Vinol contains the tissue building, strengthening cod liver elements and the tonic iron which a weak and run-down system needs.

THE GIRL AND THE GAME

The Colonial Theatre announces that the special picture, "The Girl and the Game," which was to have been shown recently but could not because the film was burned, has been duplicated and will be shown at this theatre for the first time Friday of this week. There was considerable disappointment over the failure to show this picture as advertised, and those who were so anxious to see it the first time will doubtless avail themselves of the opportunity to see it Friday and for the succeeding Friday's when it will be shown.
