Garfield and Cleveland Shine in Athletics.

Newell Garfield. Richard Cleveland.

Newell Garfield, grandson of President Garfield, and Richard Cleveland, son of Grover Cleveland, are star athletes in their colleges this year. Young Garfield has made a name for himself as a pitcher for the Yale University baseball club, while the son of Grover Cleveland shines at Exeter Academy.

Dick Cleveland is a strapping young chap of eighteen, six feet high. He weighs 185 pounds. He is finishing a four year course at Exeter academy and is one of the few fellows who can blend athletics and study at the same time, and take honors in both. He is president of the Interscholastic Track association of New England and is best known as a shot putter. In this particular specialty he has achieved considerable success indoors and outdoors. He is to report for the Princeton freshman team in October.

NOTICE

"In order to encourage hog raising in Anderson county the Farmers and Merchants Bank will be pleased to loan money to young farmer boys to buy a pair of hogs of good strain of blood and in this way enable them to make a beginning in hog raising. We will also be glad to aid them in getting cattle of good stock to raise from. We will also aid them as far as we can in finding and purchasing the hogs and cattle. We will lend them this money at a very moderate rate of interest.

The business if properly looked after will be self-sustaining in a little while and will then become a source of profit."

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

Use it like a cold cream and dry Eczema eruptions right up.

The moment you apply bold-sulphur to an itching or broken out skin, the itching stops and healing begins, says a renowned dermatologist.

This remarkable sulphur made into a thick cream effects such prompt relief, even in aggravated Eczema, that it is a never-ending source of amazement to physicians.

For many years bold-sulphur has occupied a secure position in the treatment of cutaneous eruptions by reason of its cooling, parasite-destroying properties and nothing has ever been found to take its place in relieving irritable and inflammatory affections of the skin. While not always establishing a permanent cure, yet in every instance, it immediately subdues the itching irritation and heals the Eczema right up and it is often years later before any eruption again manifests itself.

Any good druggist will supply an ounce of bold-sulphur, which should be applied to the affected parts like the ordinary cold creams. It isn't unpleasant and the prompt relief afforded is very welcome, particularly when the Eczema is accompanied with torturous itching.
