ITCHING ECZEMA IS DRIED RIGHT UP WITH SULPHUR

Use like cold cream to subdue irritation and clear the skin.

Any breaking out or irritation on the face, arms, legs and body when accompanied by itching, or when the skin is dry and feverish, can be readily overcome by applying a little bold-sulphur, says a noted dermatologist. He informs us that bold-sulphur instantly allays the acrid itching and irritation and soothes and heals the Eczema right up leaving the skin clear and smooth. Bold-sulphur has occupied a secure position for many years in the treatment of cutaneous disorders because of its parasite-destroying property. Nothing has ever been found to take its place in treating the irritable and inflammatory skin affections. While not always establishing a permanent cure it never fails to subdue the itching irritation and drive the Eczema away and it is often years later before any eruption again appears.

MODERN PROGRESS A SHAM?

Writer in the Atlantic Disinclined to Believe That the Human Race is Advancing Rapidly.

After all, are frenzied motion and progress synonymous? Any kitten chasing its own tail might, if we were really observant, disprove for us much of our modern claim of great gain. Would any age of real progress talk so much about progress, and so loudly count its achievements? Is not much of this done to hide the inner sense of loss and lack? Perhaps it is from a far-off country childhood that I derive a persistent belief, not obscured by all the noise and dust and glamour of our time that real growth is silent. For many and many a day I have heard this flowing talk of progress, of widening intellectual horizons, and for many a day have watched the growing wastefulness of human faces. The more thoughtful become increasingly sad, while the number of the merely stolid increases apace, as do the restless ones with their apparent longing for distraction and change. Unfinished faces, unsatisfied faces, are familiar to us all. They lack the high record of experience greatly taken; expression that denotes profound inner life. Today we are so comfortable, so enlightened, and, with our widening philanthropy, so estimable, that we surely ought to be happy! Yet we see few satisfied faces, such as we can remember from long ago, full of inner content, faces "on which the dove of peace sat brooding," and we pause to ask what our boasted progress has to offer in compensation for the great loss that has come through the seeming gain of these later years?—From the Atlantic.

DON'T BOTTLE THE "WHYS"

Excellent Reasons Why Child Should Ever Be Encouraged to Ask Questions of All Sorts.

One father who has had some success in training his children to think and act for themselves well and wisely, declares that the secret lies in answering all their questions fully, frankly and sympathetically, says the Youth's Companion. He tells the child everything he knows on each question that is asked, and if his knowledge is not adequate, spares no pains to make it so. The method is not always convenient for the teacher, but it results in a surprisingly large fund of information for the pupil, an ever growing desire for more, a habit of going straight to his father for enlightenment and a sense of responsibility for his own conduct.

Added to the inconvenience, the reason why parents so commonly object to this way of dealing with the questioning habit is the fear that the child will never permit them to make any exceptions, but experience has proved that the fear is groundless. Instead of making himself disagreeable, the child usually acquiesces. He is willing for once to remain ignorant; for having learned that his father and mother are sympathetic and reasonable, he concludes that in this case it is impossible for them to explain, and so is content to obey without knowing why.

For Refreshing Sleep.

A common cause for restless sleep is a bed with sagging springs and cobbly mattress. For the victim of insomnia money spent for good springs and mattress is well invested. It is difficult to relax your head resting on a hill, your feet on another and a sleepless abyss between. There are countless schemes for forcing relaxation when sleep comes reluctantly. Sometimes it may help to count imaginary sheep filing through a breach in a stone wall, or just to count slowly until you forget yourself. But we imagine a better plan is to think away back and try to recall memories of childhood and the little incidents of childhood days.

A dark room, cold air, warm night clothing, warm feet, comfortably filled stomach, a good spring and mattress, and, above all, a clear conscience, will permit relaxation and refreshing sleep.

Testimonial as Proof.

"How do you like your typewriter?" asked a salesman of one of his customers. "It's most satisfactory," was the reply. "Wonder how I ever got along without it!" "That's fine! Would you be willing to give me a little testimonial to that effect?" "Why certainly I will," and accordingly in Everybody's Magazine, he gave out the following: "After using the automatic Backcheck, my typewriter for three months as a writer, I unhesitatingly pronounce it to be all an even more than these Manufacturer claims for it. During the time been in our possession, it has been in our possession for three months; it has more in it than I can find for myself in the saving of time and labor." John I. Smith.

What Baby Said. The good grocer calls at their house every day to get orders. He is good because he brings candy to the children. One morning or two ago he passed a few candy bits to the baby, who is just learning to talk. "What do you say to the man, mother?" another said to the recipient, who heard that on teaching her children politeness. The baby didn't get it for a moment, but burst: "Has you got any more?"

LEVI JOLLY KILLED NEGRO IN SELF-DEFENSE

HAD TROUBLE YESTERDAY MORNING ABOUT DOING SOME WORK.

BOND IS ARRANGED

Appeared Before Judge Sease Yesterday Afternoon and Bond Granted in Sum \$1,000.

Levil H. Jolly, a farmer living about six miles above the city, shot and killed George Cyrus, a negro, yesterday morning about 9 o'clock in order to save his own life. It seems that Mr. Jolly and the negro had been having some trouble along this year and that yesterday morning the negro became very insolent and when told to go to a certain spring and clean it out, he said that he was not going to do it and that he had worked as long as he was going to. Mr. Jolly then went back into the house and got the contract which had been signed by the negro for this year and tried to explain to him how much longer his time lasted. Finally the negro picked up a rock and threw at Mr. Jolly which hit him on the head. The two then clinched and the negro was about to get Mr. Jolly's pistol away from him when he (Mr. Jolly) fired, the shot taking effect just over the negro's heart and death coming almost instantly.

After the shooting Mr. Jolly telephoned the sheriff asking him to come after him. Deputy Sanders and Coroner Hardin went to the scene. Mr. Jolly was requested to come to town and give bond, which he did yesterday afternoon, bond having been granted by Judge Sease in the sum of \$1,000. Mr. Jolly stated yesterday that he regretted the affair very much and fired only to save his own life.

CHAUTAQUA AT IVA

Will Be On July 23, 24, 26 and Promises to Be Good.

The Booster's Club Chautauqua will be at Iva on July 23, 24, 26 and visitors in the city from that place yesterday stated that the people there were planning for a big time during these three days.

There will be two performances daily and the program consists of concerts, entertainments and lectures. The company carries some well known lecturers and doubtless these will be very good. Several hundred tickets have been sold, it was stated, and it is thought that the chautauqua will prove a great success.

TAKE SALTS FOR THE KIDNEYS IF YOUR BACK HURTS We Should Drink Lots of Water and Eat Less Meat, Says Noted Authority on Kidney Disorders Recommends a Spoonful of Jad Salts In Glass of Water Before Breakfast to Stimulate Kidneys and Eliminate the Uric Acid Uric acid in meat excites the kidneys, they become overworked, get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from headache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.
