

# PRINCE ALBERT

the national joy smoke

## is such good tobacco you feel like you could just eat the smoke!

Yes, sir, P. A. puts a razor edge on your smoke-appetite-division that's nobby enough to be photographed! No other pipe and cigarette tobacco can be like Prince Albert, because no other tobacco can be made like Prince Albert. The patented process fixes that—and removes the tongue-bite and throat parch! Let that digest!

The tippy red bag, 5c

And that line of conversation is 24 kt., whether you play P. A. in your old jimmy pipe or roll it into a makin's cigarette. For you can put your little old blue-pencil O. K. right here that Prince Albert is a regular double-header for a single admission—as joy'us to your tongue and taste one way as the other!

Will the "rollers" kindly step forward for a spell and get some of this listen into their systems? Because Prince Albert certain and sure jams more joy into a makin's paper than ever before was figured up on two hands!

In the plain language of the hills, you can't any more resist such makin's tobacco than a bullfrog can pass up a piece of red flannel! Because P. A. hands to you everything any cigarette roller ever dreamed-out—rare flavor, and aroma, and mildness, and body; absolutely the best bet—the best smoke

you or any other man ever did roll and put the fire to! Men, we tell you to wise up.

P. A. is crimp cut and stays put—which means rolling P. A. is as easy as falling off a log. And it's good to remember P. A. is put up in the tippy red bag especially for you "rollers." Sells for the price of a jitney ride, 5c.

Now, will the "pipers" kindly open both ears? Here's tobacco that has made it possible for three men to smoke pipes where one smoked before!

Any way you hook it up, Prince Albert is tobacco insurance! Yes, sir, it guarantees your future as well as your present smokings! And just makes your tongue so jimmy pipe joy'us thā. your smoke appetite grows whopping big. You men who "dassn't," we say you go to P. A., natural-like! Because there isn't a bite in a barrel of this national joy smoke.

Unlimber your old jimmy pipe! Dig it out of the dark corner, jam it brimful of P. A. And make fire with a match! Me-o-my!

Yes, get acquainted with Prince Albert in the tippy red bag, 5c; or tidy red tin, 10c, but for the double-back-action-joy, you buy a crystal-glass pound humidor. And then you're set! You see, it has the sponge-moistener top and keeps P. A. at the highest top-notch point of perfection. Prince Albert is also sold in pound and half-pound tin humidors.

The tidy red tin, 10c

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

**Georgia Farm Facts.**  
Atlanta, Ga., July 19.—Georgia has 291,027 farms, of which 100,047 are operated by owners and managers and 190,980 by tenants, according to figures presented this week by Jonathan B. Frost in his magazine, "The Call of the South." Mr. Frost comments on the tenant question after giving a number of statistics on Georgia agriculture, and says:

"A country never reaches its highest possibilities when most of its land is cultivated by tenants. We all know it is not in human nature for men to take as much interest in a home and in land that is not their own as they do in their own home and farm."

"What Georgia needs now more than anything else in the way of better business conditions is more small farms operated by their owners."

Mr. Frost has been making rather an exhaustive study of general conditions in Georgia and has compiled many facts of unusual interest and value.

**Good Rules for Girls.**  
In the August Woman's Home Companion, Alice Farnham Leader, a New York physician, writes an extremely sensible and helpful article entitled "Health and Good Looks" in which she lays down simple rules for the girl who wants to keep her good looks. She says that health depends upon food, sleep, and fresh air, and not upon pills and prescriptions. She tells girls what to eat and how to exercise. On the subject of sleep she writes in pertinent detail the rules for healthful eating are those which should govern your sleeping. Don't dismiss the subject with the thought that you sleep eight hours out of every twenty-four and in so doing meet the demands of nature. The length of time you spend in slumber is secondary in importance to the way you sleep. Nowadays few women need to be told of the advantages of sleeping in a well-ventilated room. That is one of the chief requisites of healthful sleep. Another is to wear loose-fitting, comfortable sleeping garments."

**Traveling Man's Experience.**  
"In the summer of 1888 I had a very severe attack of cholera morbus. Two physicians worked over me from four a. m. to 6 p. m. without giving me any relief and then told me they did not expect me to live; that I had best telegraph for my family. Instead of doing so, I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and take no substitute. I took a double dose according to directions and went to sleep after the second dose. At five o'clock the next morning I was called by my order and took a train for my next stopping point, a well man, but feeling rather shaky from the severity of the attack," writes H. W. Ireland, Louisville, Ky. Obtainable everywhere.

**IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR**  
Use it like a cold cream and dry Eczema eruptions right up.  
The moment you apply bold-sulphur to an itching or broken out skin, the itching stops and healing begins, says a renowned dermatologist.  
This remarkable sulphur made into a thick cream effects such prompt relief, even in aggravated Eczema, that it is a never-ending source of amazement to physicians.  
For many years bold-sulphur has occupied a secure position in the treatment of cutaneous eruptions by reason of its cooling, parasitic-destroying properties and nothing has ever been found to take its place in relieving irritable and inflammatory affections of the skin. While not always establishing a permanent cure, yet in every instance, it immediately subdues the itching irritation and heals the Eczema right up and it is often years later before any eruption again manifests itself.  
Any good druggist will supply an ounce of bold-sulphur, which should be applied to the affected parts like the ordinary cold creams. It isn't unpleasant and the prompt relief afforded is very welcome, particularly when the Eczema is accompanied with torturous itching.

The clerk was droning out a bill, and at last reached the repealing clause, which closes every such document, but which seldom is read by the clerk. Mr. Wheatley was listening, for some odd reason. He rose and addressed the chair.  
"Mr. Speaker, if the clerk will read that clause again you will observe that it repeals every law in Georgia," he said. The clerk read the repealing clause again. By the accidental insertion of the little word "not" it read: "Be it further enacted that all laws and parts of laws NOT in conflict with this act be hereby repealed."  
The "NOT" was quickly extracted and the house proceeded with its business.

### Conqueror of Mexico City, and Defeated Leader.

Mexico City has been taken again in a battle which lasted several days between the Carranza and the Zapata factions. General Gonzalez marched into the city Monday, according to despatches he had sent out. The Zapata troops evacuated Friday.  
General Zapata, who, until he took Mexico City, was rated as a bandit, and his troops were in possession of the capital for many months. General Villa left it to them when he moved north. Stirrings of the evacuation say the Zapata officers looted the banks and private houses as they left.

**Municipal Fly Swatting.**  
Atlanta, Ga., July 19.—Fifty million house flies, to be paid for by Atlanta at 25 cents per quart, is the contract signed with the city by two Arizona men this week, and the work of rounding up the flies will begin at once.  
Richardson and White, the two westerners, says they will catch 500 gallons of the pests within a few weeks, thereby netting \$500 at the market price. They do not expect to use a swatter, however, but about 500 traps of a newly patented kind, placed in all parts of the city.  
Dr. Claude A. Smith, city bacteriologist and fly expert, says there are 25,000 flies in a quart, which would make fifty million in the 500 gallons contracted for. When caught they will go to feed the ant eater at the Grant Park Zoo.

**Value of Words.**  
Atlanta, Ga., July 19.—If Crawford Wheatley, representative from Americus, didn't have a good ear, and if the new house reading clerk, J. E. T. Bowden, didn't read every little word in the bills (because he hasn't been there long) there would not be a law on the Georgia statutes today. They would all be repealed.

**The Chewiest Chewing Gum ever Chewed 5¢**  
Chew "BOBS"  
5c. the packet or two "BOBS" for a cent at all the better stands and stores.  
"BOBS" is the boy for everybody. Candied over with peppery peppermint—the heart of the heart is the gum. It gets better with every chew.  
"BOBS" is One Good Get!
