## ALLIES MAKE GAINS IN BALKAN CAMPAIGN; RUSSIANS TO STRIKE

**BELIEVED SLAVS WILL DIRECT OFFENSIVE AGAINST TURKS**

**ITALIAN FLEET TO HELP ALLIES**

**Austro-German Invaders Meeting With Stubborn Opposition.**

London, Oct. 18.—With the capture of Strumitsa, Bulgaria, a point of real strategic value as it's occupation permits defense of the southern end of the Saloniki-Nish railway and compels the Bulgarians to keep a force there, the allies' campaign in the Balkans is well under way.

The occupation of Enos by Anglo-French troops also reported threatens the Bulgarian port Dodegatcheh on Aegean Sea.

While the Italians, according to latest reports, will not send an army to co-operate in the Balkans, an Italian fleet will add British and French squadrons in the Aegean.

The point at which Russia will strike has not been disclosed, but expectations are that a plan is afoot to bring Turkey to her knees before help reaches her.

The Austro-German army pushing the near Serbian campaign is meeting with greater resistance than was expected. All along the line the Serbians and Montenegrins offered a stubborn front. With the Bulgarians forced to divide their army to meet the allies' invasion, the Serbians are hopeful of checking Van Mackensen in the mountains.

Fighting on both the eastern and western fronts still heavy, but neither side has attempted a general offensive.

## SUIT AGAINST SHOE MACHINERY TRUST STARTED

**IS FIRST IMPORTANT ACTION UNDER CLAYTON ANTI-TRUST ACT**

**ALLEGE COMPANY IS MONOPOLY**

**Government Declares United Company Controlled Practically Entire Trade.**

St. Louis, Oct. 18.—The first important suit under the Clayton anti-trust act begun here today when United States Attorney General Gregory sought temporary and permanent injunctions against the United Shoe Machinery company, charging that concern with unlawful practices which substantially lessen competition and tend to monopoly. A temporary order was granted and the hearing set for October 27.

The government's petition asserts that the company is a monopoly controlling ninety-eight and a half per cent of the trade in shoe machinery in the United States; that in certain instances it is fixing prices on machinery on the condition that the purchaser does not use the machinery of competing manufacturers and that it also grants rebates on fixed prices in some instances.

The suit says fifteen hundred shoe manufacturers in the United States are producing annually three hundred million and with all but a few of these the defendants have business relations. The shoe company, it is said, is the result of fifteen years growth and has consolidated fifty-six firms.

A suit to dissolve the company under the Sherman act is pending in United States supreme court.

## INQUEST FAILS TO PLACE BLAME FOR CHARLESTON AFFAIR

**SHOOTING SEEMS TO HAVE BEEN STARTED BY HENRY BROWN—CHIEF OF POLICE AND COMMITTEEMAN McDONALD ALSO FIRED REVOLVERS IN MELEE.**

Charleston, Oct. 18.—Examination by the coroner today of eight witnesses cleared up but slightly the question in what manner Sidney J. Cohen received a mortal wound in the lungs during the riot which broke up the meeting last Friday of the city Democratic executive committee, a meeting called to declare the result of the hotly contested municipal primary of Tuesday and which meeting Mr. Cohen attended as a reporter of the Charleston Evening Post.

About all that was accomplished was to set up the likelihood that the young newspaper man was laid low by a bullet proceeding from one of three distinct directions of gunfire.

The consensus of the testimony so far adduced seems to be that in the center of the room was a man whose name is Henry Brown, shooting several times, more or less promiscuously while also struggling for possession of revolvers held by committee men. Evidence developed up to now leaves the possibility open that Mr. Cohen may have been killed by a bullet from any one of these three sources.

That, today, only the statements from the Grace side, among the several brands given publicity, and some uncorroborated suspicion, play upon Brown and McDonald, who had been

held by the police as principals in the Cohen homicide and who this morning were transferred by Judge Smith to the custody of the sheriff, to await the verdict from the inquest, pending, leave to move for bail, but on the resumption today of the inquest, testimony regarding these men come from the Hyde faction also.

Eight witnesses were examined, four being Hyde men and four Grace men. All of whom are members of the executive committee.

Absent, Black Barnwell and Paul, not Hyde men, said that a man standing in the center of the room fired a pistol. This man, Mr. Barnwell said, was Brown. Mr. Nichols, a Grace partisan said Brown fired four times.

Mr. Robson, a Hyde man, said that a man in the center of the room whose forehead and hand only were visible to him fired rapidly several times at William Wingate, a Grace supporter. Mr. Hancock, a Grace man, said he saw Brown shoot at Wingate but when Brown was produced before him admitted he "couldn't say" that was the man who shot the shooting.

Mr. Cosgrove, a Grace man, said he saw Brown fire upon Wingate. He identified Brown before the coroner's jury.

Mr. Riddick, a Grace man, said Brown came in pistol in hand saying "let's start it now," and began firing.

He also identified Brown at the inquest today.

Some forty witnesses, under subpoena are yet unexamined, but the coroner has hopes of concluding his inquiry tomorrow.

Andrew J. Geer, wholesale druggist, concerning whose partisan affiliation in the recent campaign reports differ, is foreman of the jury and takes an active part in the conduct of the inquest. The jury consists of E. G. Gairard, Samuel G. Stoney, John E. Gibbs, Edward Ochsman and T. Grange Simons, Jr.

The sessions are being held in the courtroom in the county court house rather than in the hall of records across Meeting street, known as the fireproof building, where it was first announced the inquest would be resumed. Judge Mendel Smith presiding in the court of general sessions adjourned his court for the day in order that the court room might be available for the inquest and that William H. Grimball, acting solicitor, might be free to appear for the state at the inquest. Presumably, he will again declare a recess for the same reasons on the reconvening of the court tomorrow morning at 10 o'clock.

Coroner Mansfield, in an expedition, has fixed 10:15 o'clock at the hour for re-opening his inquest.

Wade Hampton Cobb of Columbia.

## WILSON TO ADVOCATE PROGRAM OF DEFENSE IN NEW YORK SPEECH

**CHARGE MANY IRREGULARITIES TO N. H. MOGULS**

**GOVERNMENT OFFICIALS OUTLINE ALLEGED UNLAWFUL METHODS**

**COULD HAVE RUN ROAD LEGALLY**

**Attorney Batts Describes Many Illegal Deals Made By Directorate.**

New York, Oct. 18.—In the opening of the government's case against the eleven directors of the New Haven railroad accused of conspiracy to get a monopoly of the New England transportation traffic, Robert L. Batts, a United States official, outlined the alleged unlawful methods of the railroad company. He charged the company with bringing suits to force foreclosures of competing railroads; incorporating dummy companies to conceal the ownership of railroad and steamship lines absorbed; fictitious sales of securities to deceive the Massachusetts authorities; the use of money to buy a newspaper to secure favorable legislation; the transfer of records to Canada to dodge the United States and the sacrifice of millions of stockholders money in buying competing lines.

New York, Oct. 18.—R. L. Batts, government attorney was to address the jury this morning at the opening trial of eleven directors and former directors of the New Haven railroad. This is expected to take all of today and probably tomorrow. The men are charged with a conspiracy to monopolize interstate commerce under the Sherman law.

Batts explained the indictment and said a combination of the New Haven lines could be operated without violation of the law, and the government had no idea of trying to force a dissolution into component parts. He described various transactions, in which lines were acquired through receiverships and by other means. Stock transaction which were disclosed in a congressional investigation last year were also gone over by Batts.

## FRENCH SHIP SUNK WITHOUT WARNING

**Shelled By Austrian Submarines While Passengers Were Entering Boats.**

Paris, Oct. 18.—A Marseilles correspondent of the Petit Journal telegraphs that the mail boat Eugenie Perier arrived there with 33 members of the crew of the French steamer Admiral Hamelle, sunk by a submarine. A previous report by a Havas correspondent said that 71 on board the steamer perished.

The Admiral Hamelle was under government requisition and the Petit Journal says it was torpedoed by an Austrian submarine without notice. While the passengers and crew were being transferred to life boats the submarine fired 40 shells into the steamer. A French torpedo boat and an English hospital ship were attracted by the firing and the submarine sank. Six of the crew of the steamer were wounded.

**PLANS CALL FOR PRACTICALLY A NEW MILITARY ORGANIZATION**

**ON EXPENDITURE OF \$842,000,000**

**Contracts Let for Six Destroyers and Sixteen Submarines Yesterday.**

Washington, Oct. 18.—The national defense program for the next six years, carrying expenditures of eight hundred and forty-two millions will be advocated publicly by President Wilson in an address at New York November fourth.

The expenditures planned are as follows: Navy—Now ships in the next five years, a half billion. Army—Reserve arms and ammunition a hundred and fifty millions. Coast defense, eighty-one millions. Increase in the regular army and a new continental army in the next six years, a hundred and fifty-six millions.

These expenditures are to produce by the year nineteen twenty-five a first line of dreadnaughts and battle cruisers numbering forty-nine, a couple of interior lines of coast defense, a fleet of submarines and destroyers for the navy and six years trained forces of a million two hundred thousand men including the regular army of hundred and forty thousand, the proposed continental army and reserves being fully manned for coast defense.

The contracts for six destroyers and sixteen submarines were let today.
