Senator Tillman is so thorough a democrat that he is going to increase the opportunities for the enlightenment of the people on public questions by arranging special campaign meetings for the glorification of himself and the defense of his child. Broad platform this.

If the town council is going to license the pool room, there should at least be an age limit. This thing of allowing boys of 10 to 15 years of age to visit this place should be stopped by the authorities at once. Justice to the boys demands that this be done.

This is the time for getting busy with cleaning up back yards, lots and premises, so as to prevent being eaten up by the mosquitoes later in the summer. Drain off all pools of water, and remove all old tin cans and other rubbish, anything and everything that will tend to develop mosquitoes or disease germs. The board of health can get in some good work for the town now by seeing that these necessary sanitary provisions are put into effect.

The Lancaster Cotton Association is without a president or secretary, these officers having resigned to enter politics. President Strait for Congress and Secretary Jones, for the legislature. Fairfields association is not likely to suffer the loss of its officers in this way, as there is very little probability of President Cathcart's going into politics and as for the secretary we feel fully warranted in saying that, if he does ever enter the political field at any time, it will certainly not be this summer.

George McDuffie Estes.

The subject of this notice, Geo. McD. Estes, was born near Cross Keys, in Union county, about sixty-two years ago, and passed quietly away on the 18th of June, 1906, at the home of his sister, Mrs. W. J. Keller, being at that time her only surviving brother, and also the third brother she has lost within the year; R. Thomas Estes, who was a gallant soldier in the late Capt. James P. Macfie's company of cavalry, and well known to many of Fairfield's old veterans, was the first to go, then Andrew Estes followed soon after.

McD. Estes was a Confederate veteran, a brave, quiet man, was a member of the 18th South Carolina regiment. He was in ranks with his company at the explosion of Grant's mine at Petersburg, Va., and was covered up with the immense volume of earth thrown out, but was rescued without having sustained any very serious injury. After the war he retired to the quiet walks of life as a farmer. About four years ago he had a severe stroke of paralysis from which he never recovered and which was the immediate cause of his death.

He was ever true to his State and her calls to duty, never flinching from nor failing to perform his full part whenever called upon. He was a member of Padgett's Creek Baptist church, near Cross Keys, and a consistent Christian. He spent most of his time during the past year with his only sister, Mrs. W. J. Keller, his wife having died about eight years ago, leaving him with five daughters and two sons to care for.

His remains were carried to Padgett's Creek church cemetery and laid away to rest till the final resurrection, many of his relatives and friends being present to attest their esteem and sorrow for the death of the gallant soldier, the upright citizen, the true friend, the loving father and brother, and the patient Christian, who suffered so long and never murmured against Him under whose rod he suffered.

The sympathy of the entire community is extended to Mrs. Keller in her triple bereavement in so short a time, and to the children of the deceased. K.

Not as Rich as Rockefeller.

If you had all the wealth of Rockefeller, the Standard Oil magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The most eminent physician can not prescribe a better preparation for colic and diarrhoea, both for children and adults. The uniform success of this remedy has shown it to be superior to all others. It never fails, and when reduced with water and sweetened, is pleasant to take. Every family should be supplied with it. Sold by Obeur Drug Co. and all medicine dealers.

In and Around Blackstock.

Messrs Luns. and Vest Craig, sons of Mr. J. E. Craig, have been at home for a few days. The former is in business at Richmond, Va., and the latter is preparing to enter the Louisville Medical College at the opening of its next session. He is in Rock Hill for the summer.

Mr. Robert Brice has gone to Nashville to visit his brother, Joe, who has been sick for some time.

Misses Katie and Annie Mobley went to Asheville Monday.

Miss Lila Thorn is spending a few months with her parents. She goes to California to enter upon her work as a trained nurse. She has just graduated from a training school at Washington.

The Douglass family will leave in a few days to spend the summer in the mountains.

Mr. J. M. Mills recently placed on the market here some of the finest cabbage we have seen in many a day.

Mr. Wm. James of Cheraw was here some days ago to see his little daughter, Grace Douglass James.

For Over Sixty Years.

MRS. WINSLOW'S SOOTHING SYRUP has been used for over 60 years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain; cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

Rabb and Union Dots.

Miss Grace Chappell has returned from Winthrop College, and is visiting her sister, Mrs. W. J. Lemmon.

Mrs. R. R. Park, who has been quite sick, is now convalescent.

Mr. Howe Lemmon of Clemson College is at home.

Prof. James McNaull of Rowesville is visiting his brother, Mr. E. M. McNaull.

Mr. L. Haves had quite a pleasant visit to Columbia last week.

Mr. A. M. Park was in Columbia for a short while a few days ago.

Mr. Wm. J. H. Crawford of Macon, Ga., is at his mother's.

Misses Lizzie and Etta Park have returned from Columbia.

Amicus.

It Is Dangerous to Neglect a Cold.

How often do we hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cure of this most common ailment. It always cures and is pleasant to take. For sale by Obeur Drug Co. and all medicine dealers.

Permanent vs. Prominent.

Mr. T. C. Leitner has called our attention to the fact that in the publication of his card last week that there was a serious error in putting it prominent improvements, when the word that he phoned in was permanent. His platform is not so much the undertaking of great or prominent improvements, but that of making all work of a permanent nature. The correction is duly made.

Miss Douglas Goes to Brazil.

Miss Margaret Douglas, daughter of the Rev. James Douglas, of Blackstock, who has been teaching at Winthrop for a few years, has been accepted as a missionary to Brazil by the Foreign Missionary Board of the Southern Presbyterian church and will leave Blackstock Friday for Baltimore. After spending a week with her brother, Rev. Davidson Douglas, she will go to New York and sail the 2nd of July for Brazil. Miss Douglas is a thoroughly consecrated young woman and is well fitted for the work.—Chester Lantern.

Death of A Young Wife.

Mrs. Sadie Robinson Whiteside, wife of Mr. Jos. W. Whiteside, of Lewisville, and daughter of Mrs. Frances E. Robinson, of Edgemoor, died at Johns Hopkins Hospital, Baltimore, at 3 o'clock Thursday morning, 14th inst., aged 24 years. She had been in hospital but few days; her health had been feeble for three or four months. Besides her sorely bereaved husband and deeply afflicted mother, she leaves an infant of fourteen months. For these the tenderest sympathy is felt. The remains of the young wife and mother arrived at Edgemoor station early Friday morning, and at noon were buried in the cemetery at Union A. R. P. church, funeral by the pastor, Rev. R. A. Lummis.—Chester Reporter.

Mrs. Whiteside was a sister of Mrs. Addie J. Williford, and had made many friends here in Winnsboro during her visit to her sister.

There Must be Virtue in Stag Brand.

New Market, Va.

Messrs. Hirschberg, Hollander & Co.

Dear Sirs—Stag Brand has given satisfaction every place I used it. I like it myself very much, on account of the body and covering qualities. I do not know of any paint I would sooner recommend than Stag Paint.

Yours truly,

Isaac J. Phillips.

Stag Brand Semi-Paste Paint always gives satisfaction. The three features of this paint which stand out boldly, viz.: Economy of cost, durability and brilliancy of color, have made it superior to any other brand on the market. "One gallon makes two."

ONE OF NATURE'S TOOLS.

How Teazels Are Used in Finishing Different Cloths.

Growing by the wayside you will often see that stately, spiny looking plant, the teal, but I wonder how many know that it has helped to finish many a piece of cloth they wear.

We are apt to think of a tool as something of man's make, yet here is one of nature's own, and nothing has ever been manufactured to successfully take its place. For ages the teal has been used for fulling cloth—that is, raising the "nap"—and the manufacturers refer to "nap goods" thus treated as "gigged."

When ripe, the dried spike heads are gathered, packed carefully in bundles and shipped in all directions to factories. The variety mostly used have the extreme end of the spikes hooked or curved backward. This is called "fullers' teal." These heads form a sort of brush and are attached to a wheel or cylinder which revolves against the surface of the cloth, and these curved spikes catch part of the threads and pull them up, making a fuzzy nap. This is trimmed down and leaves that soft, velvety finish to the cloth. The spikes have strength enough and elasticity, but when they come in contact with a rough place in the cloth they break and so avoid tearing the material. Try as they may, no one has ever been able to invent a tool possessing all of these qualities, so the teal stands unrivaled for that use. The plant as we see it growing wild looks perhaps at first glance somewhat like a thistle, but it really has a dignity and character all its own. The heads in flower are covered with a fluffy down, lavender or white, and as the blossoms drop spikes appear until later it fairly bristles. The leaves, pointed and spiked, shooting out each side of the stem, meet at the base and form a little basin in which is usually water. So we have the name of the plant from the Greek "dipsacus," meaning thirsty, and many other fanciful ones, such as Venus' cup, Venus' bath, wood or church brooms, gypsy combs, clothier's brush, etc.—St. Nicholas.

ODDITIES.

Bees never store up honey where it is light.

The moth has a fur jacket and the butterfly none.

A squirrel comes down a tree head first and a cat tail first.

Leaves will attract dew when boards, sticks and stones will not.

Corn on the ear is never found with an uneven number of rows.

The dragon fly can devour its own body and the head still live.

A horsefly will live for hours after the head has been pinched off.

Fish, flies and caterpillars may be frozen solid and still retain life.

A horse always gets up fore parts first and a cow directly the opposite.

Some flies thrust their eggs into the bodies of caterpillars, but always in such parts of the body that when the larvae are feeding on the flesh of the foster parent they will not eat into any vital part.

Puns on People's Names.

A little while ago a popular form of social amusement was found in punning on people's names—"Why did So-and-so?" "Because Such-and-such." The game ran riot for a time, and echoes of it are still heard in the outer suburbs. Before those echoes die away a correspondent suggests that we should put it on record that the originator of the fashion was no less notable a person than the Quaker poet, John Greenleaf Whittier. On an anti-slavery lecturer named Mary Grew, visiting Boston in 1871, Whittier wrote a poem, "How Mary Grew," each stanza ending on a variation of the pun—

The world were safe if but a few Could grow in grace as Mary Grew.

—London Chronicle.

Not In Any County.

The city of St. Louis is not in any county. It is an independent municipality equipped with all the machinery of county and city government. It has its own circuit and criminal courts, its own grand jury, jail, etc. The circuit attorney is the prosecuting officer of St. Louis. Until 1878 St. Louis was the county seat of St. Louis county, but in that year the city was completely separated from the county, so that it is now an independent subdivision of the state. Clayton, a few miles west of the city, is now the courthouse town of St. Louis county.—St. Louis Republic.

The Jersey Cow.

The Jersey cow is a small animal, and therefore her maintenance ration is small, while a relatively large part of her food goes to profit. She is a persistent milker, often a perpetual milker, and ordinarily not dry more than six or eight weeks in a year. She has an extremely long period of usefulness in the dairy. Five years cover the profitable work of the average cow. The Jersey produces until fifteen years old. Many are profitable when eighteen to twenty-one years of age.—Farmer.

The Other Way.

"Aren't you afraid that horse will run away with somebody?"

"Friend," said Broncho Bob, "It ain't nothin' in Crimson gold for a boss to run away with a man. It's when a man tries to run away with a boss that there's danger."—Washington Star.

A Living Monument.

If we were to assemble all those who have been cured of heart disease by Dr. Miles' Heart Cure, and who would to-day be in their graves had not Dr. Miles' been successful in perfecting this wonderful heart specific, they would populate a large city.

What a remarkable record—a breathing, thinking, moving monument, composed of human lives,—that for which every other earthly possession is sacrificed.

The Miles Medical Co. receive thousands of letters from these people like the following: "I feel indebted to the Dr. Miles' Heart Cure for my life. I desire to call the attention of others suffering as I did to this remarkable remedy for the heart. For a long time I had suffered from shortness of breath after any little exertion, palpitation of the heart; and at times terrible pain in the region of the heart, so serious that I feared that I would some time drop dead upon
