Two Merry-go-rounds. There are two merry-go-rounds in town this week, due to a blunder on the part of some one, of course, a third party causing the error. One machine came in Wednesday and is owned by Rafael Denofy of Lancaster. He has the Stevenson lot and is carefully looking after the little fellows.

The other machine is that of J. B. Napier, who was here last year, and won many friends by his care in looking after all who rode. He has set up on the power house lot, the concession for the same having been granted as a compromise to relieve the awkward situation arising from the blunder of the third party.

A Destructive Fire. The home of Jane Woodward was discovered on fire Wednesday and before the fire company could check the flames the adjoining warehouse of J. O. Boag was in flames. Both houses were completely destroyed together with all building materials on Boag's lot. The big water tank belonging to the railroad company was also destroyed. The passenger station was saved with great difficulty, and several times during the fire buildings in adjoining blocks caught.

Jane Woodward carried \$700 insurance on her house and contents. Mr. Boag had only \$1000 insurance, his loss being at least three times that amount.
