## MRS. MARGARET HINNANT.

An imitator is one who looks at someone else and tries to be like them.

Our departed "Mother in Israel" Mrs. Margaret Hinnant, imitated her Lord in a marked degree.

She had simple and common qualities given to all of us, if we would make the best of them. She had an everlasting patience in overcoming difficulties until they vanished, a self control not to be shaken by others' petulance, an infinite capacity for self-sacrifice and self forgetfulness. A living, loving Christian, true of tongue, honest of heart and pure of conduct in her daily life. She is missed, not only by the members of the Winnsboro Methodist Church, but by the entire town, for she felt that her life belonged to the community she was in, and was always alive to any opportunity for doing good.

Whereas, Mrs. Margaret Hinnant has left us to be in the joyful presence of her Lord, for "in Thy presence is fullness of joy, at Thy right hand there are pleasures forevermore."—Psalms 16:11, be it

Resolved that a copy of these resolutions be sent to the Southern Christian Advocate and The News and Herald, that a copy be spread on the minutes of this society, and one be sent to the family who should ever rejoice at her gain and daily follow her example that they might spend an eternity together.

Mrs. C. E. Strange,  
Mrs. T. M. Jordan,  
Committee.

## WHY SUFFER FROM RHEUMATISM.

Do you know that nine out of every ten cases of rheumatism are simply rheumatism of the muscles or chronic rheumatism, neither of which require any internal treatment? The pain may be relieved by applying Chamberlain's Liniment, which makes sleep and rest possible, that certainly means a great deal to any one afflicted with rheumatism.

## THE HOME OF THE SOUL.

In olden times it was believed that the seat of the soul was the stomach. Most likely for the reason that a man is never so completely used up as when his stomach is out of order. For the cure of ordinary stomach troubles, there is nothing quite so prompt and satisfactory as Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. Give them a trial. They only cost a quarter.

FOR SALE—2 good milk cows. Also Butter for sale each week.

## What Henry Ford Says About Machine Power Farming

"In the tractor the farmer now has a machine in which is harnessed one of the most adaptable, efficient, economical sources of power in the world—the internal combustion engine.

"The tractor will multiply the productive capacity of each individual farm worker from three to four times over.

"It will put the farmer on par with the city manufacturer. It will put his produce-producing factory---for that is what a farm is---on to an efficient production basis.

"It will enable each worker to earn so much more that he can be paid more and still leave a greater profit for the man who hires him. It will enable the farmer to work fewer hours in the day, giving him more time to enjoy life.

"I believe the tractor will make farming what it ought to be, the most pleasant, the most healthful, the most profitable business on earth."
