AGRICULTURE.

SEEK MORE LIGHT.—Farmers, inasmuch as their interests and employments are more varied than any other industry or profession, require a greater fund of practical knowledge. That farmer who hoots at the idea of "book farming" is in the most hopeless condition. When a man is too wise in his own conceit to learn, he is generally too ignorant and too full of prejudice to comprehend the plainest and most important precept. These self important farmers are generally on the down grade, and no ordinary check will have the least effect on them for the better. A farmer must, to a great extent, learn of others, and this must necessarily be mainly done by reading. Theories and instructions on agricultural subjects are more reliable when printed than those which are merely verbal. Public declarations of facts and theories are subject to criticism, and thus the truth on almost any subject can be elicted. Hence articles in newspapers are prepared with mose care than the mere declaration of opinions in a verbal way. And it would be difficult to find a farmer who is now pursuing the advanced system of agriculture but what takes and carefully reads from one to five papers on the subject of his greatestt interest. He does not always greedily adopt all he reads. He compares investigates, criticises, and thus awakens and strengthens his own mind. In this way truth is developed. Light is thrown on dark or doubtful subjects. There is no doubt that the great advance which has been made in agriculture in the past 25 years, is mainly indebted to the invigorating and inspiring influence of the agricultural literature of these later days. And it is about a settled question that the farmer who is not supplied with reading on the subjects of his business and interest is yet in darkness.

No other domestic animal gives as full, quick and easy a return for grain feed as the pig. When rationed for the sbambles the experienced eye of the feeder can almost measure the ratio of grain per day. The healthy porker is so well regulated a machine for the conversion of corn into flesh that the former who feeds by a regular system can generally tell about how much pork a given quantity of grain will produce. It is comparatively easy, therefore, as compared with other stock, to tell just when and to what degree pork production is profitable. These things, coupled with the fact that a crop of hogs can be bred, raised and marketed almost while the feeder is laying his plans for growing and ripening cattle and sheep, have rendered hogs more popular as a market product than any other class of domestic animals: and there are vastly more producers of hogs in this country to day than of cattle and sheep combined, while it is perhaps true that three-fourths of the meat producers prefer beef to pork as an article of food.

A GOOD WEEDER.—Get your blacksmith to cut out a piece of piece of plow steel 3 inches wide and six inches long for the blade. By drilling two holes in the centre he can fasten on the shank for the handle, which should be forked and provided with a socket for the insertion of the handle, and should be set at an angle of forty-five degrees to the plane of the blade. The 2 long edges should be drawn thin and sharpened. You have now one of the most effective weeding hoes ever invented, and it is not patented. It has a double edge, and can be worked equally well by pulling or pushing. It passes along just under or on the surface and effectually cuts off every weed between the young plants in the row without too much disturbance of the surface. It is not intended as a cultivator of course, but as a weeder is hard to beat.

THE fact that corn possesses deep roots may offer an explanation as to why corn in a certain measure seems a renovating crop, and it is believed by some to obtain nitrogen from the atmosphere or some source of supply not furnished by our ferulizers, because these roots very probably bring nitrogen from the lower areas of the soil as well as the water. The facts of culture add some support to this view. Upon pasture land in New England which has become run down and which seems incapable of growing grasses any longer in luxuriance, corn may be planted without fertilizer with the almost certainty of a more than average crop, while the reports from many parts of the country upon the use of fertilizer indicates that less nitrogen needs to be applied than theory would seem to indicate as necessary.

A MEMBER of the Oxford (Ohio) Farmers Club claims that it is no trick to raise five hundred bushels and even one thousand bushels per acre of mangold wurtzels, in a good season on good land, with the same labor needed to raise an acre of potatoes. The roots should be pitted just as winter closes up the ground, and kept in the pit until March. Then they are ripe, the saccacharine matter is abundant and the fibre tender, and the cows ready to appreciate the change from any feed, He thinks mangold wurtzels the cheapest green food for that season that can be produced, but feeds ground feed and hay with them. He prefers to pit them till March and remove them, a cart-load at a time, to his bank barn, and has no trouble about freezing.

CUTTING THE CULLS.—Milch cows are greatly benefitted and will increase and maintain the flow of milk if fed upon the little potatoes, Irish or sweet, which are left over from the crop, and are too small to sell or use at home. But they should be cut fine. A good plan is to have a trough or stout box in which, after washing, the potatoes can be cut with a common spade; but a better plan is to take an old spade or hoe or fire shovel, and by attaching a stout short handle, provide an implement expressly for the purpose and save the wear and tear and rust of the spade.

FORMIC acid, which is the acid obtained from ants, is identical in kind with the acid of wasp and bee springs. Professor Redway, of California, has discovered that it is valuable to prevent fermentation. If wanted for this purpose in quantities it can be cheaply obtained by heating oxalic acid. In refining honey the formic acid, which it always contains is expelled, and it has been found that refined honey is very difficult to preserve, while natural honey keeps without fermentation a long time.

IN France when poultry are dressed, the waste products are scrupulously saved. The feathers are carefully collected and sorted, and when well dried are sold to dealers. The intestines are boiled, the fat skimmed off, minced as food for poultry, and the liquor fed to pigs. The combs and kidneys are sold to pastry cooks, the first for decorating and the latter for pies. The head, neck and feet are sold to hotels, restaurants, etc., for flavoring sauces, or boiled down to make chicken jelly.

FREQUENTLY the British farmer expends in a single year as much in making a crop as would by an equal number of acres in the cultivated and older portions of this country.

THE culture of Indian corn is increasing in Australia. It is said that 15 cents per bushel covers the cost of cultivation and harvesting.

DOMESTIC.

PREPARED BEEF.—People who become tired of the ordinary meat diet who are not well and find it difficult to digest meats cooked in the usual way, will, perhaps, be interested in a new method of preparing beef. It is especially recommended for invalids, particularly consumptives. The theory is that a majority of diseases arise from improvished blood, and that a continued diet of the digestible part of beef is most effectual in enriching the blood, and thereby improving the general health. The meat should be chosen with care, selecting the best beef, and taking about the third cut of the round. For the daily use of one person, when it is used as the entire diet, about three pounds is required. This should be relieved of all the fat and bone, and then cut into pieces some three inches square. These are placed in the pail of a patent beef chopper, and chopped for five or ten minutes vigorously. At the end of that time the muscles pulp which has collected on the top should be scraped off with a spoon, and the same process continued until nothing but fibres remain at the bottom of the pail. The pulp which has been collected is then pressed into round, flat cakes and broiled over a quick fire. It should be seasoned with salt, and for a relish, butter, pepper, lemon, or any sauce may be used. Enough beef will remain on the fibres to make quite a little soup or beef tea.

ALL ABOUT BRAISED BEEF: Take from four to six pounds of beef from the round or the face of the rump. Trim and tie in shape. Rub the meat well with salt, pepper and flour. Cut two onions, one-half of a small carrot, one-half a small turnip very fine and fry them until a light brown in salt pork fat or drippings. Skim them out in a braising pan, then brown the meat all in the seasoned fat, adding more fat if necessary. Put the meat, when browned, into the pan, add one quart of boiling water and a tablespoonful of mixed herbs. Cover closely and cook in the oven four hours, basting every twenty minutes. Turn over after two hours. When tender take up the meat, remove the fat from the gravy, add more salt and pepper and thicken with flour cooked in butter. Cook ten minutes and strain over the meat, or serve with horse-radish sauce.

MILK SOUP.—Wash, pare, slice and parboil one pound of potatoes, pour away the water; skin and scald two onions, chop them; place the potatoes, onions, one teaspoonful of salt and half a teaspoonful of pepper in a stewpan, with one quart of cold water; bring to a boil and boil till quite soft (about a half-hour); crush the potatoes and onions with a spoon till smooth, add one quart of new milk and one ounce of crushed sago; stir continually till it boils, then boil for ten minutes. This soup may be made richer by adding one ounce of butter or dripping to the quart of cold water; also by putting a yolk of an egg, well beaten, into the tureen, and mixing the cooked soup slowly with it. The soup must be off the boil, or the egg will curdle.

RECIPE FOR LIMING EGGS.—For liming eggs a pickle is made of pure stone lime, fine, clean salt and pure water in the following proportions; Six to eight quarts of salt, sixty to sixty-five gallons of water and one bushel of lime. The stronger the lime water and the more free from sediment the better. Slack the lime with a portion of the water, then add the remainder of the water and salt. Stir well three or four times at intervals and then let it stand until well settled and cold. Either dip or draw off the clear pickle into the cask or vat intended to preserve the eggs. This is on a large scale, but may be proportioned according to judgement for family use.

DIRECTIONS FOR MAKING BREAD SAUCE: Dry and roll one cup of stale bread crumbs; then sift them. Boil the fine crumbs, which will measure one-third of a cup, with one pint of milk and one tablespoonful of chopped onion, for fifteen minutes. Add one tablespoonful of butter, one-half a teaspoonful of salt and one-half a saltspoonful of pepper. Fry the coarse crumbs in a tablespoonful of hot browned butter, stirring with a fork until they absorb all moisture. Put the white sauce in the platter with the grouse or other birds and sprinkle the brown crumbs over all.

TO COOK BRAISED CALF'S-HEART: Wipe the heart well and stuff it with cracker crumbs seasoned highly with salt, pepper, thyme and onion and moistened with melted butter; lard, dredge with salt and pepper, put it in a small braising pan and half cover with brown gravy. Bake one hour or until tender, basting often. Serve with sauce piquant, made as for any brown gravy and seasoned with lemon or vinegar and chopped pickles,

A RECIPE for larded grouse: Singe and clean the birds, then wash and wipe dry. Lard the breast and legs; truss them, then dredge with salt and pepper, rub with soft butter and dredge with flour. Bake in a very quick oven, twenty minutes, if liked rare, thirty if they are to be served well done, Serve hot, with bread sauce, garnish with parsley.

HOW TO MAKE HORSE-RADISH SAUCE: Four tablespoonfuls of grated horseradish, four tablespoonfuls of powdered cracker, half a cup of cream, one teaspoonful of powdered sugar, one teaspoonful of salt, half a saltspoonful of pepper, one teaspoonful of made mustard, one tablespoonful of vinegar or enough to give it a good sharp taste. Mix all together and heat over hot water.

AN excellent shampoo is made of salts of tartar, white castile soap, bay rum and lukewarm water. The salts will remove all dandruff, the soap will soften the hair and clean it thoroughly, and the bay rum will prevent taking cold.

SOME kinds of stains may be removed from silk by the application of essence of lemon, one part; spirits of turpentine, five parts. Mix, and apply to the spot by means of a linen rag.

IN purchasing honey avoid that which has white specks, as they destroy the flavor of any comb in which they are found.

To clean diamonds nicely, wash in soapsuds, rinse in alcohol and dry in sawdust; then brush with a soft brush and polish with fine tissue paper.

To remove stains from table linen hold up the soiled spot and pour through it boiling hot water.

THE quality and juices of meats are far better preserved if the meat is wiped with a towel instead of washed.

To iron embroidery nicely press it on the wrong side between two flannels.

HUMOROUS.

ALL'S well that ends well: "I wish I was the trapper and was tied to the stake, going to be burned alive by the Indians," said little Johnny Fizzletop, who was reading a dime novel on the sofa. "Why do you wish to be in such a horrible predicament?" asked his mother. "Because, in the last chapter, the trapper scalps Jeewhillikins Jim, the Jumping Jackass of Juniper Jungle, and his Indian allies, and carries off White Fawn, the lovely maiden, in triumph to his mountain fastness." "I think there is too much fastness, anyhow, about the boys of Austin," remarked his mother, thoughtfully.

Harrassing Dreams.—An unnatural excitement of the brain and nervous system is the direct cause of sleeplessness, as also of harrassing nocturnal dreams. Vegetine has a peculiarly soothing effect in all such cases, when taken just before going to bed.

A LUCKY man: "Nothing exasperates me so much as to hold a lottery ticket and find that the very next number has won a prize," remarked Pete Freer to Harry Andrews. "I came closer than that to winning the big prize in the Louisiana Lottery." "How was that possible?" "Well, you see, there was a raffle here in Austin for a clock and I threw the identical same number that won the big prize in the Louisiana Lottery." "Did you win the clock?" "No; how much good luck do you suppose a man can have all at once?"

Those who use Carboline, as now improved and perfected, the great petroleum hair renewer, are always distinguished by the beautiful soft texture of the hair produced by the use of that most exquisite of all toilet preparations.

MARY JANE and Dickey: "Mary Jane," said Dickey, "why would Lot have been a better captain for the ark than Noah?" "Why," said Mary Jane. "Because," said Dickey, "Mrs. Lot was an old salt." "Dickey," said Mary Jane, "you are a very fresh young woman."

SOMETHING awful: They were talking about the Frizzle girls and the efforts they make to keep up with the fashion with very little cash help from their parents. "Why," said one of the gossips, "Fannie Frizzle actually paints dinner cards for money! isn't it awful!"

Rheumatism quickly cured! Send stamp for free prescription. R. K. Helphenstine, Washington, D. C.

TALES after papa: A visitor at the Percy Yerger mansion, on Austin Avenue, remarked, as he caressed little Mollie Yerger: "She takes after her papa and has got his hair." "No," said the little cherub, "it's not me that takes after papa and gets his hair. It's mamma who does that when he comes home tight."

Ladies and children's boots and shoes cannot run over if Lyon's Patent Heel Stiffeners are used.

GIRL'S shouldn't whistle: "If," says the *Phrenological Journal*, "whistling will drive away the blues, why shouldn't the girls whistle?" Pshaw! if they did, the puppies would run after them more than ever.

SPELLING it with a "que:" The fashion journal says: "Checks are now in style." Not by the looks of our subscription lists.

Vegetine.

Kidney Complaints.

DISEASE OF THE KIDNEYS.

The symptoms of an acute attack of inflammation of the kidneys are as follows: Fever, pain in the small of the back, and thence shooting downward; numbness of the thighs, vomiting, usually at first a deep red color of the urine, which becomes pale and colorless as the disease increases, and is discharged very often with pain and difficulty; costiveness, and some degree of colic. In chronic diseases of the kidneys the symptoms are pain in the back and limbs, dryness of the skin, frequent urinations (especially at night), general dropsy, headache, dizziness of sight, indigestion, and palpitation of the heart, gradual loss of strength, paleness and puffiness of the face, cough and shortness of breath.

In diseases of the kidneys the VEGETINE gives immediate relief. It has never failed to cure when it is taken regularly and directions followed. In many cases it may take several bottles, especially cases of long standing. It acts directly upon the secretions, cleansing and strengthening, removing all obstructions and impurities.—A great many can testify to cases of long standing having been perfectly cured by the VEGETINE, even after trying many of the known remedies which are said to be expressly for this disease.

Kidney Complaints.

CURED ME.

ROCHESTER, Nov. 22, 1876.

H. R. STEVENS, ESQ.:

Dear Sir—I have suffered for the last three or four years with Liver Complaint and kidney troubles. Previous to taking the VEGETINE I was under the doctor's care for a long time but he did not help me. My friends all thought I would not recover. I began using the VEGETINE, and realized good effect from it right away. I had taken but three bottles before I was much better. I continued taking a few bottles more, and can now truly say I am enjoying the best of health. I have given it to my little daughter with great success. Since it has done me so much good, I have recommended it to several, and they have all been greatly benefitted by its use.

Respectfully,
J. C. SMITH, 24 S. Francis street,
Place of business, 73 West avenue.

Mr. Smith is a well-known dealer in stoves and tinware, for many years in business in Rochester.

VEGETINE—"The life of all flesh is the blood thereof." And no one can possibly be healthy when the blood is diseased. VEGETINE is composed of substances identical with healthy blood; and when taken into the system for the cure of disease, it is absorbed, and replaces the deficiency which caused the disease.

Vegetine is Sold by all Druggists.

Dr BULL'S COUGH SYRUP

PILES

ANAKESIS

Dr. S. Silsbee's External Pile Remedy

Gives instant relief and is an infallible

CURE FOR ALL KINDS OF PILES.

Sold by Druggists everywhere. Price, $1.00 per box prepaid by mail. Samples sent free to Physicians and all sufferers, by F. Neustaedter & Co., Box 3945, New York City. Sole manufacturers of "*Anakesis*."

HE was a pretty close man, without doubt. At breakfast he cut an egg in two and gave the new hired man one-half of it. The help ate it, and held out his plate for more.

"What!" gasped the host. "Want a hull egg?"

"Ot course I do," said the man.

The boss stared blankly at him a moment, and then pushing the half egg across the table, snappishly cried—

"Take it, eat it, and kill yourself!"

The man ate it, and is still alive.

We can, without hesitation, say that Dr. Bull's Cough Syrup has given the best satisfaction. We have sold an immense amount of it during the past winter. WALLACE, HILTON & CO., Druggists, Lock Haven, Pa.

No time to lose: "Every time I have seen you lately you have been in an intoxicated condition. You seem to have become quite dissipated." "No, it's not that, but I've got some disease of the kidneys that I am going to see a doctor about, as soon as he returns to Austin from the north." "What has that got to do with your being intoxicated?" "Well, you see, the doctor is going to forbid me drinking anything strong, and he is expected to return every day, so I have no time to lose."

Cure that Cold.

Do not suffer your lungs to become diseased by allowing a cold to continue without an effort to cure it. Thousands have died premature deaths, the victims of Consumption, by simply neglecting a cold.

Dr. Wm. Hall's Balsam for the lungs will cure colds, coughs and consumption surer and quicker than any other remedy. Though slow, is sure if persisted in according to directions.

Henry's Carbolic Salve.

Is the best Salve for cuts, bruises, sores, ulcers, salt rheum, tetter, chapped hands, chilblains, corns and all kinds of skin eruptions, freckles and pimples. Get Henry's Carbolic salve, as all others are counterfeits. Price 25 cents.

CAMPAIGN echoes: An Austin gentleman who went out hunting near Mount Bonnell was surprised to hear somebody calling out: "Thieves—scoundrels—lost cause—kept down by Federal bayonets!" "What in the mischief is that?" asked the hunter. "It is nobody. There was a lawyer out here a week ago, practicing to take the stump for Ireland, and the echoes haven't been able to calm down yet. But they are much weaker than they were three or four days ago."

"Humanity's great hope for the future is alone to be realized in improved conditions of matrimony. What a profound obligation does this fact involve! Those who realize the responsibility can hardly do better than take advice from Mrs. Lydia E. Pinkham whose wonderful remedies for the cure of all diseases peculiar to women are so justly celebrated. Send for pamphlet.

WHY Saul threw his Javelin: An old Scotch lady from the country was visiting some friends in the city last Sunday, and went with them to church. After returning from service she expressed her dislike to the music and especially to an anthem. "Why, that is a very old anthem; David sang it to Saul," said her host. "Weel, weel, I now for the first time understan' why Saul threw his javelin at David when the lad sang for him," was the old lady's reply.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this receipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. Noyes, 149 *Power's Block, Rochester, N. Y.*

A DISTINGUISHING mark: A well-known member of the Governor's Council, at a late public dinner, overheard one of the colored attendants ask another: "Who's dat gemmen, Sam?" And Sam responded: "Dat's Purfessor F." Then the other queried: "How did ye know he was a professor?" To which Sam replied with dignity: "Oh, all dese yere purfessors is polished off on top!"

Mensman's Peptonized beef tonic, the only preparation of beef containing its entire nutritious properties. It contains blood-making, force generating and life-sustaining properties; invaluable for indigestion, dyspepsia, nervous prostration, and all forms of general debility; also, in all enfeebled conditions, whether the result of exhaustion, nervous prostration, overwork or acute disease, particularly if resulting from pulmonary complaints. Caswell, Hazard & Co., proprietors, New York. Sold by all druggists.

AN unreliable man: "Look out for him," said Hostetter McGinnis, referring to a prominent Austin gentleman, "he is a hypocrite and will play you a bad trick some day, just like he did me." "What did he do to you?" "What did he do? I borrowed ten dollars of him and the double-dyed scoundrel tried to make me pay it back. Look out for him. I tell you, you can't rely on him."

To allow Virtle Power to ebb slowly, imperceptibly away, is madness; check it with that never failing remedy, Allen's Brain Food. $1; 6 for $5.—At druggists and at Allen's Pharmacy, 315 1st Av., N.Y.

LET concealment, like a worm in the bud, etc.: "Yes," he said; "that setter dog of mine is mighty smart and does lots of cute things. But I never tell of them, never. You see, no matter how closely I stuck to the truth folks would think I lied."

Skinny Men. "Wells' Health Renewer" restores health, cures dyspepsia, impotence. $1. "Wells' Rough on Corns." 15c. Ask for it. Quick, complete cure. Corns, warts, bunions.

SOFT and heavy, you see: "Your father tells me, Tom, that you are taking soft courses this year. What are they?" "Well, you see, mother, it's a term borrowed from the turf. A soft course is a heavy course, and a heavy course is a hard course. See?"

Dr. Kline's Great Nerve Restorer is the marvel of the age for all nerve diseases. All fits stopped free. Send to 931 Arch Street, Philadelphia, Pa.

THE vegetarian's dilemma: "If I drink water they will say I'm using ox-ygen. If I drink something stronger they will accuse me of taking a horn. Must I perish from thirst?"

FORCE of habit: Stranger (to a waiter standing in front of a restaurant): "Can you tell me where Dr. Mayer lives?" Waiter: "Very sorry—but if you care to wait about fifteen minutes we shall have some fresh sausage with sauer kraut."

SAFE KIDNEY AND LIVER CURE

☞ For all Diseases of the Kidneys, Liver, Urinary Organs, Malaria and Bright's Disease. The Best Blood Purifier. ☜

The black engraved portion of this cast is a fac-simile of the end of the wrapper of WARNER'S SAFE CURE.

Beware of Fraud.

Unscrupulous parties have tried to imitate our Remedy and deceive the public by using SIMILAR NAMES, but do not be deceived; see that the word SAFE with picture of an Iron Safe, on a black wrapper and white letters is on every package. Also, see that it is on the label and stamp, and take no other.

H. H. WARNER & CO.
ROCHESTER, N.Y.

A NOTED BUT UNTITLED WOMAN.

[From the Boston *Globe*.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1 per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (2) MRS. A. M. D.

A Skin of Beauty is a Joy Forever.
DR. T. FELIX GOURAUD'S
Oriental Cream, or Magical Beautifier.

PURIFIES AND Beautifies the Skin

Removes Tan Pimples, Freckles, Moth-Patches and every blemish on beauty, and defies detection. It has stood the test of thirty years, and is so harmless we taste it to be sure the preparation is properly made. Accept no counterfeit of similar name. The distinguished Dr. L. A. Sayre, said to a lady of the HAUT TON (a patient:)—"As you ladies will use them, I recommend 'Gouraud's Cream' as the least harmful of all the Skin preparations." One bottle will last six months, using it every day. Also Poudre Subtile removes superfluous hair without injury to the skin.
MME. M. B. T. GOURAUD, Sole Prop., 48 Bond st., N.Y.
For sale by all druggists and Fancy Goods Dealers throughout the U. S., Canadas and Europe. ☞ Beware of base imitations. $1,000 Reward for arrest and proof of any one selling the same.

HEALTH IS WEALTH

Health of Body is Wealth of Mind

DR. RADWAY'S Sarsaparillian Resolvent

THE GREAT BLOOD PURIFIER.

Pure blood makes sound flesh, strong bone and a clear skin. If you would have your flesh firm your bones sound without caries, and your complexion fair, use

Radway's Sarsaparillian Resolvent.

A remedy composed of ingredients of extraordinary medical properties, essential to purify, heal, repair and invigorate the broken-down and wasted body—QUICK, PLEASANT, SAFE and PERMANENT in its treatment and cure.

No matter by what name the complaint may be designated, whether it be scrofula, consumption, syphilis, ulcers, sores, tumors, boils, erysipelas, old sait rheum, diseases of the lungs, kidneys, bladder, womb, skin, liver, stomach or bowels, either chronic or constitutional, the virus is in the **Blood** which supplies the waste and builds and repairs these organs and wasted tissues of the system. If the blood is unhealthy, the process of repair must be unsound.

The Sarsaparillian Resolvent

Not only is a compensating remedy, but secures the harmonious action of each of the organs. It establishes throughout the entire system functional harmony and supplies the blood vessels with a pure and healthy current of new life. THE SKIN, after a few days' use of the Sarsaparillian, becomes clear and beautiful. Pimples, blotches, black spots and skin eruptions are removed; sores and ulcers soon cured. Persons suffering from scrofula, eruptive diseases of the eyes, mouth, ears, legs, throat and glands, that have accumulated and spread, either from uncured diseases or mercury, or from the use of corrosive sublimate, may rely upon a cure if the Sarsaparillian is continued a sufficient time to make its impression on the system.

One bottle contains more of the active principles of Medicines than any other Preparation. Taken in teaspoonful doses, while others require five or six times as much.

One Dollar a Bottle.
