Deaths of James A. McCrorey.
Intelligence of the death of Mr. James A. McCrorey reached town on Sunday. Mr. McCrorey was in his ninety-second year and was probably the oldest citizen in the county. His death was not caused by an attack of sickness, but having lived his allotted time his life gently and quietly closed.

White Oak Dots.
White Oak, S. C., July 13.—White Oak has not seen among the lucky sections in getting rain. We have not had any for four weeks. Crops are suffering very much. Old corn will be a complete failure if we don't get rain in a few days.

Unclaimed Letters.—The following is a list of letters remaining unclaimed for in the postoffice for the week ending July 13:

THE MEETING OPENS THURSDAY.
In making mention of the opening of the evangelistic meeting at the Brick Church we made a slight error which we take this opportunity to correct. The meeting does not commence on Sunday next, but on Thursday the 20th inst. Mr. Orr will continue the meetings for some time, and we have no doubt that from time to time numbers of Winsboro people will be present.

WE HAVE A DISPENSER.
But There is Still Some Doubt About Our Having a Dispensary.
The Board of Control held its first important business meeting here Saturday, and the business transacted was of a nature very interesting to both friends and enemies of the dispensary system.

PERSONALS.
Mr. A. S. Gaillard is at home again. Mr. J. B. Crosby has returned home. Mr. J. E. O'Connell is in town on a visit to friends.

MR. KERR HAS SOMETHING TO SAY.
Messrs. Editors: Allow me space in the columns of your valuable paper for the following:
In your issue of the 13th inst. there appears in the proceedings of the meeting of the Fairfield Division of the 6th Regiment Association, a resolution, which is, in the least, very misleading and calculated to reflect on the honesty of the undersigned. I have also received, by letter a copy of the resolution from the secretary. In this letter he states that no charge of dereliction of duty on my part is intended, as no demand had ever been made upon me.

HERE IS ANOTHER TEST CASE.
Solicitor Hugh Southwell of the Violation of the Dispensary Act.
In our last issue we made mention of the fact that a Richmond firm had shipped to a gentleman in Winsboro a case of "Old Bourbon whiskey, and that no action in regard to this apparent violation of the Evans' law had been taken by Tillman's spies or any other officer of the law. Since the publication of that article, however, the matter has assumed a different aspect, and the Richmond and Danville Railroad will have another added to the list of cases by which the validity of the law, as far as it applies to the road as a common carrier, will be tested.

CONFEDERATE VETERANS REUNION POSTPONED.
The rates advertised by the Richmond & Danville Railroad on account of Confederate Veterans Reunion at Birmingham, Ala., July 19th and 20th are hereby withdrawn, the reunion having been indefinitely postponed. Ticket agents have been instructed accordingly.

Assistant Doorkeeper—H. E. Baschell

RESOLUTIONS.
Whereas, the National Democracy in its last platform, pledged itself to the free coinage of both gold and silver without any discrimination in favor of gold, and also to the repeal of the Sherman Act; and whereas, President Cleveland has called Congress together on the 7th of August for the avowed purpose of repealing the Sherman Act unconditionally; therefore,

Resolved, 1. That the County Alliance of Fairfield do protest against the repeal of the Sherman Act, unless accompanied with the free and unlimited coinage of silver to the extent of ten per cent.

Resolved, 2. That our representatives in Congress be and are hereby earnestly urged to labor unremittingly for the free coinage of silver, and to persistently oppose the repeal of the Sherman Act unless free coinage be at the same time granted.

Resolved, 3. That we are opposed to the repeal of the 10 per cent tax on State banks, and the organization of State banks, but that we demand that the general government exercise its constitutional prerogative of coining and issuing money and thus furnish to the people a sound national currency, and in sufficient volume to meet the necessities of an ever increasing population and a consequently large annual increase of production.

Resolved, 4. That we tender our many thanks and highest regards to the trustees, the Hon. Mr. Jennings, Dr. Quattlebaum and the Hon. Mr. Johnston, and to the white citizens of this town for the aid rendered and the interest manifested in our public schools.

Resolved, 5. That in the election of County and State officers, and that I thus offered to do so, I have been outstayed and sincere in their convictions on these demands.

Resolved, 6. That we tender our many thanks and highest regards to the trustees, the Hon. Mr. Jennings, Dr. Quattlebaum and the Hon. Mr. Johnston, and to the white citizens of this town for the aid rendered and the interest manifested in our public schools.

WOODWARD NEWS.

WOODWARD S. C., July 17.—We have had no rain since last Saturday week and are now suffering it badly. The rain on that day was only a local one, extending over an area of three or four miles square. Our crops were nevertheless greatly benefited by it, particularly cotton, which has grown considerably. There is now looking well. It will not, however, be something like a wet spell to materially benefit the corn, and even then we could scarcely hope for much over a half crop.

Services were held in the church here on the conclusion of the week of which Mr. Smith took occasion to thank, in a very touching manner, the congregation for their generous offerings. Mr. Smith will be assisted on Saturday by Rev. D. N. McLaughlin, of Chester.

PREAMBLE AND RESOLUTIONS.
Passed at a Meeting of Colored Citizens Monday Night.
Whereas, we, the patrons and friends of the colored public schools of Township No. 14, located in the County of Fairfield, in the town of Winsboro, are in mass meeting assembled to suggest and devise plans for the upbuilding of our schools, which will give better educational facilities to our children; and whereas, education—education which teaches religion, honesty, good citizenship, the dignity of labor and true womanhood and manhood, is not only the hope of our race, but the lever by which we must be raised from our present status, which great principles are to a very great degree instilled into our children, in the school room. And whereas, we are informed by the trustees that owing to the shortness of school funds, our school term and number of teachers must be decreased, all of which we very much regret; therefore,

Resolved, 1. That we tender our many thanks and highest regards to the trustees, the Hon. Mr. Jennings, Dr. Quattlebaum and the Hon. Mr. Johnston, and to the white citizens of this town for the aid rendered and the interest manifested in our public schools.

Resolved, 2. That we earnestly beg and pray that the trustees will, owing to the shortness of the school money, consolidate the 1st and 2nd divisions of the public school; that it may be taught at one place and under the supervision of one set of teachers, which would be a great benefit to the parents and children, and would allow the school to continue longer than six months; also allowing more assistance during the crowded months of the session.

Resolved, 3. That by consolidating both divisions of the public school, it will be an act of economy and benefit to the masses of the patrons—namely, since one teacher can easily manage both divisions the first and last months of the school session, as many pupils are engaged in the first months in gathering crops, and the last in planting crops.

Resolved, 4. That we tender our highest regards and our hearty cooperation to the teachers of the first division of our public school for the effective work they have done for our children and community; which work is evident from the fact that seven passed the county examination for teachers and have been awarded certificates by the County Board of Examiners.

Resolved, 5. That we again ask the trustees to give us their continued assistance, and also allow the money to be appropriated for the best interest of the masses by having the public school taught at the public school building and by one corps of teachers.
