

LOCAL BRIEFS.

Read executor's notice elsewhere. Mr. Longstreet Gaunt advertises his residence for sale in this morning's issue.

A meeting of the stockholders of the Winstboro Granite Company was held in Charleston last week but no business of special importance was transacted.

The Governor offers a reward for the person or persons who burned the barn and stables of J. F. Brown, near Blythehood. Read the proclamation elsewhere.

Rheumatism is a thorough, permanent, constitutional cure for rheumatism. The acids in the blood which cause the disease are thoroughly eradicated. It is also the best blood purifier, laxative and tonic.

Halt, Union's new pitcher, is a new Rube come out of Winstboro. He's from a Fairfield, but his curves are of the most deceptive kind, and his delivery most graceful. His future as a pitcher is a bright one.—Union Vindicator.

McMaster Co., in their advertisement to-day, have a list of things, all of which are necessary in this hot weather—fly fans, thermometers, ice cream flavorings, &c. If you need any of the things included in their list give them a call.

We are requested to announce that ice cream will be served in the Beatty building on the afternoon of Thursday, June 22nd, by the Home Missionary Society. The friends of the members of this society are requested to bear this in mind.

W. M. Gallagher, of Bryan, Pa., says: "For forty years I have tried various cough medicines. One Minute Cough Cure is best of all." It relieves instantly and cures all throat and lung troubles. McMaster Co.

Cards are out announcing the approaching marriage of Mr. Thos. Bryson to Miss Mattie Mills, of Blackstock. The wedding will take place on Wednesday, June 28th. To Mr. Bryson, THE NEWS AND HERALD extends best wishes and congratulations.

The cadets of the South Carolina Military Academy have left Charleston and are now in Orangeburg on an encampment. They will remain in camp for about two weeks and will be employed by the citizens of Orangeburg and will then disperse for the summer to their various homes.

Kodol Dyspepsia Cure completely digests food within the stomach and intestines and renders all classes of food capable of being assimilated and converted into strength giving and tissue building substances. McMaster Co.

D. Theodore Quattlebaum has opened a branch office at Mr. Ben Yarborough's, at Long Run, where he may be found every Wednesday. This young physician is just starting in the practice of his profession, but we predict for him a successful career as he is not lacking in energy and enterprise and has other qualities which go to make a successful doctor.

Mr. Thos. Robertson is critically ill at his home near town. He has been sick for some time and as he is quite old his family have grave doubts as to whether he can recover. Mr. Robertson had a stroke of paralysis several months ago and since that time his health has not been good. It is hoped that a change for the better will soon take place and that his recovery will be speedy.

J. A. Schear, of Sedalia, Mo., saved his child from death by croup by using One Minute Cough Cure. It cures coughs, colds, pneumonia, grippe and all throat and lung troubles. McMaster Co.

Miss Annie Bell Stewart entertained a number of her friends on Friday night at her home. The young people amused themselves in various ways and a delightful evening was spent. Delicious refreshments were served during the evening. The invitations stated that the guests were invited from 9 to 12 but they had such a nice time that it was quite late when the young folks reached their homes.

A circulating library has recently been established here. An agent for this library spent several days here several weeks ago and succeeded in getting quite a number of subscribers. Mr. J. Scott McCarty was appointed librarian. About fifty volumes are kept on hand, and while the very newest books are not to be found in the library, yet the collection is good, and those who subscribed can never want for something to read.

There is a time for all things. The time to take DeWitt's Little Early Risers is when you are suffering from constipation, biliousness, sick headache, indigestion or other stomach or liver troubles. McMaster Co.

Several cotton blooms have been brought to our office. Mr. J. C. Willingham brought a bloom and boll which were picked on the 12th, and Mr. A. Willford brought in a bloom from his cotton field. Mr. Willingham is almost every year the first of the farmers to have a cotton bloom, and as has been seen is keeping up his reputation this year for being one of the most enterprising of our farmers. Several of our colored farmers have also sent us blooms.

On Sunday night a fight took place on the streets at about 12 o'clock which resulted in a severe injury to one of the negroes. The fight was between a negro boy named William Young and a negro girl, Lou Green. The boy struck the girl over the head with a piece of railroad iron and it was thought at first that she was seriously hurt, but Dr. Lindsay who was called in pronounced it only a severe scalp wound which he sewed up.

The chaignang was several miles from town when the robbery occurred. The graduating class of the South Carolina College is led this year by a young man who is blind, Mr. Swearingen, of Edgefield, and a co-ed follows him closely. This young lady, who during her entire college course has made a brilliant record, is Miss Annie F. Davis of this place. During the four years of their college course Miss Davis and Mr. Swearingen have led their class, always distinguishing themselves in their examinations. Miss Annie is the co-ed in the class of '99 and her friends congratulate her upon her splendid record in college.

DeWitt's Little Early Risers act as a failproof pill should, cleansing and reviving the system instead of weakening it. They are mild and sure, small and pleasant to take, and entirely free from objectionable drugs. They assist rather than compel. McMaster Co.

At a meeting of the Chester veterans, says the Lantern, it was decided to invite Bishop Capers to deliver the address at the reunion July 27th. The good people of Chester have taken time by the forelock and are making all of the necessary arrangements for the entertaining of the veterans. Ice water will be placed in barrels along the streets and everything will be done for the comfort of the visitors. The homes of the people will be taxed to their utmost capacity to accommodate the veterans, but the hearts of the citizens of Chester will be in the work and they will do it willingly.

There was a great drop in the temperature on Saturday and the cool change was most welcome after the intense heat of the preceding days. The change was greater than was altogether agreeable, however, as winter clothing had to be called into service, and most people found fires necessary. The cool weather continued through Sunday, but it moderated by Monday. The rain which fell on Saturday did much good, but was not as much as is needed. The rains have been general throughout the country, but Winstboro has not been as fortunate as other places.

The teachers are pouring into Rock Hill in crowds to attend the summer school which begins to-day. The teachers throughout the State are aware of the advantage that attending this school will be to them, and the special railroad rates and cheap board enable many to attend. The faculty is composed of the most competent men and women that could be secured, and Superintendent McMan has been working hard for months getting everything ready. Messrs. Frank Fooshe and Carl S. Matthews were among those who left on Wednesday for Rock Hill. Mr. Matthews will, after the close of the summer school, deliver lectures at the various county institutes to be held during the summer.

The members of the Baptist Church intend building a chapel near the factory, and the lumber for the building has been ordered. They have two lots under consideration, but have not yet decided which of the two will be the most desirable. This denomination has a number of members among the factory operatives and have long realized the advisability of building a house of worship for them, as the distance from the factory to the Baptist Church is so great. In spite of the fact, that the Baptist congregation is small one, they have gone earnestly to work and have raised sufficient money to erect a chapel. The building will not be entirely finished, but will be used as soon as it can be, and the finishing off will be done by degrees. The chapel will be in charge of Rev. Mr. Freeman, and will be under the control of the Winstboro Baptist Church.

Mr. Thomas Glenn, locomotive engineer on the Southern Railway, met with a very serious and painful accident at the freight depot on Tuesday night about half-past nine o'clock. Mr. Glenn was the engineer on a north-bound train, which was at the time standing on the main line. Another freight train was at the same time at the depot bound for the North. It appears that Mr. Glenn's train was to leave after the other pulled out. He came out of his engine, and lay down between the main line and the western side-track, possibly seeking a cool place, and had his arm resting on the rail of the side-track. On this side-track were some cars. Mr. Glenn thought the northbound freight was not on the side-track and was watching for it to pull out or leave, but it backed on the side-track and before he could get out of danger, the wheel of a car mentioned as standing on the side-track ran over his right arm, crushing the bones between the hand and elbow. Dr. Hanshan, the local railroad surgeon, was summoned and dressed the wound. Mr. Glenn displayed remarkable nerve and fortitude. Although his arm was fearfully crushed and the pain excruciating, he talked to those around him calmly directing them what to do. He stated what he wanted taken out of his pockets, making special mention of a train order. He was taken to Columbia, at his own request, on the southbound passenger train the same night. His fears that his arm will have to be amputated.

Mr. Glenn is a son of the late Mr. Hargrove Glenn, of this county, and is a young man of high character and integrity. He is popular with his fellow employees, and has the full confidence of the railroad officials. Mr. Glenn has a wife and one child, and the breaking of the news to his wife seemed to distress him more than anything else.

The physician in attendance upon Engineer Glenn, who had his arm badly mangled by the train here on Tuesday night, thinks that he will be able to save the arm, and that amputation will not be necessary as far as the arm is saved. Mr. Glenn will not be able to resume his duties for several months. The encouraging report from the injured man is most gladly received by his friends, as the loss of his right arm would have been a terrible affliction.

That Throbbing Headache World quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their value. They are not food, but medicine, and the best in use to put a horse in prime condition. Price 25 cents per package. For sale by McMaster Co.

DR. CADY'S CONDITION POWDERS, are just what a horse needs when in bad condition. Tonic, blood purifier and vermifuge. They are not food, but medicine, and the best in use to put a horse in prime condition. Price 25 cents per package. For sale by McMaster Co.

Prevention better than cure. Tutt's Liver Pills will not only cure, but if taken in time will prevent Sick Headache, dyspepsia, biliousness, malaria, constipation, jaundice, torpid liver and kindred diseases. TUTT'S Liver PILLS ABSOLUTELY CURE.

BUCKHEAD BRIEFS. We had a good rain this morning, the third in the last four weeks. Grain is looking very well. Cotton and corn are looking tolerably well. The farmers are kept very busy cleaning their crops of the Egyptian and other grasses.

Considering the price of cotton, taxes are twice too high. The Confederates volunteered their lives for the good and fair name of this State and the Confederacy, and now what is our State doing for the surviving veterans and their citizens generally? Our State is giving special privileges to some and not equal rights to all. She is speculating and monopolizing the liquor traffic, spending her hundreds of thousands of dollars for liquor to speculate with and letting the Confederate veterans, to some extent, take care of themselves. Why has our State forgotten her greatest hero of our age, Gen. Hampton? There is good room for our State to reform.

DR. CADY'S CONDITION POWDERS, are just what a horse needs when in bad condition. Tonic, blood purifier and vermifuge. They are not food, but medicine, and the best in use to put a horse in prime condition. Price 25 cents per package. For sale by McMaster Co.

is a wonderful aid in the maintenance of health; it is an easily assimilable form of nourishment in illness, and is invaluable in restoring shattered nerves and in convalescence. A doctor writes: "I have found it especially valuable for persons convalescing from fever, and for nursing mothers. I am highly pleased with it and my patients could not do without it."

ROBT. S. NICHOLS NO MORE. Robt. Sandifer Nichols of the Rocky Mount section died June 16, 1899, of paralysis in the seventy-third year of his age. He was a member of Co. B, 4th S. C. C. from his organization until the surrender. His record as a soldier was good, he was always ready and willing for any duty that might fall to his lot. His duties as a citizen were cheerfully met, as a neighbor he was well liked. The golden rule was his guide and practice in his intercourse with all. He was the soul of truth and honesty. He was never married and he will be sadly missed by his neighbors and especially by his beloved sisters. One by one the old soldiers pass away. L. M. F.

Mrs. WINSLOW'S SOOTHING SYRUP has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. 1-1-17

ANOTHER CHAPEL AT THE FACTORY. The members of the Baptist Church intend building a chapel near the factory, and the lumber for the building has been ordered. They have two lots under consideration, but have not yet decided which of the two will be the most desirable. This denomination has a number of members among the factory operatives and have long realized the advisability of building a house of worship for them, as the distance from the factory to the Baptist Church is so great. In spite of the fact, that the Baptist congregation is small one, they have gone earnestly to work and have raised sufficient money to erect a chapel. The building will not be entirely finished, but will be used as soon as it can be, and the finishing off will be done by degrees. The chapel will be in charge of Rev. Mr. Freeman, and will be under the control of the Winstboro Baptist Church.

Mr. Glenn thought the northbound freight was not on the side-track and was watching for it to pull out or leave, but it backed on the side-track and before he could get out of danger, the wheel of a card mentioned as standing on the side-track ran over his right arm, crushing the bones between the hand and elbow. Dr. Hanshan, the local railroad surgeon, was summoned and dressed the wound. Mr. Glenn displayed remarkable nerve and fortitude. Although his arm was fearfully crushed and the pain excruciating, he talked to those around him calmly directing them what to do. He stated what he wanted taken out of his pockets, making special mention of a train order. He was taken to Columbia, at his own request, on the southbound passenger train the same night. His fears that his arm will have to be amputated.

GOMING AND GOING.

Mr. James Beatty is at home for the holidays. Mrs. Thos. Rembert was in town on Monday. Mr. Nelson B. Jennings is visiting in Columbia. Mrs. K. H. Jennings has returned from London. Mr. J. A. Brice left on Thursday for New West. Miss Rachel B. McMaster is at home from Newberry. Mrs. Isabelle Douglass is at home for the holidays. Mr. S. S. Gibson is confined to his home by sickness. Miss T. J. Elliott has returned from a visit to friends in Chester. Miss Jessie Dent, of Columbia, is visiting Miss Jessie Jennings. Mr. Jos. Cummings returned on Wednesday from Clemson College. Mrs. W. C. Beatty and Miss Clara Beatty have returned from Columbia. Miss Nora Hamilton is visiting friends in Fairfield.—Rock Hill Herald.

Mr. G. E. McDonald and children returned on Monday from Pileville, N. C. Mr. and Mrs. T. K. Elliott have returned from a visit to Washington, D. C. Miss Bessie McMaster left on Monday for Rock Hill to attend the summer school. Mr. William Roche has accepted a position in Anderson and left on Wednesday for his new home. Mr. S. H. Lumpkin, who has been attending college at Clemson, is now at home to spend his vacation. Mrs. John McAlpine and children, of Pineville, N. C., are expected this week on a visit to relatives. Messrs. Edgar Matthews, Tom McMaster and Gregg McMaster have returned from Clemson College. Mrs. H. N. Obar returned on Friday night from Washington, D. C., where she has been visiting several weeks. Mrs. B. H. Ellis returned Tuesday to her home in Lexington County after spending several weeks with friends in town. Miss Nannie Cummings left on Wednesday for Rock Hill where she will be assistant art teacher at the State normal school. Miss Mamie Brice is sick with typhoid fever at Due West Female College. It is hoped that she will shortly be completely better. Miss Clara Beatty left on Thursday for Asheville where she goes as a delegate to a convention of the Young Women's Christian Association to be held in that city. Mrs. Saunders, of Charleston, who has been attending the Federation of Women's Clubs in Chester, spent a day in town last week. Mrs. Saunders was here during the war with her parents who were refugees. She returned on Sunday to Charleston.

SWAMP. Is not recommended for everything; but if you have kidney, liver or bladder trouble it will be found just the remedy you need. At druggists fifty cents and dollar sizes. You may have a sample bottle of this wonderful new discovery by mail free, also pamphlet telling all about it. Address, Dr. Kilmer & Co., Birmingham, N. Y.

MR. GLENN'S ARM CRUSHED. Mr. Thomas Glenn, locomotive engineer on the Southern Railway, met with a very serious and painful accident at the freight depot on Tuesday night about half-past nine o'clock. Mr. Glenn was the engineer on a north-bound train, which was at the time standing on the main line. Another freight train was at the same time at the depot bound for the North. It appears that Mr. Glenn's train was to leave after the other pulled out. He came out of his engine, and lay down between the main line and the western side-track, possibly seeking a cool place, and had his arm resting on the rail of the side-track. On this side-track were some cars. Mr. Glenn thought the northbound freight was not on the side-track and was watching for it to pull out or leave, but it backed on the side-track and before he could get out of danger, the wheel of a card mentioned as standing on the side-track ran over his right arm, crushing the bones between the hand and elbow. Dr. Hanshan, the local railroad surgeon, was summoned and dressed the wound. Mr. Glenn displayed remarkable nerve and fortitude.
