

GRADS' GOSSIP

BY BOB HOPE

OLD VARSITY CAPTAIN MARRIES IN GASTONIA

Gastonia, N. C., Feb. 24.—Mr. and Mrs. John C. Moore announce the marriage of their daughter Virginia Martha to George Marion Vaughn originally of Columbia, S. C., but now of Shelby, N. C. The wedding, which took place February 16th at six o'clock at the home of the bride's grandmother, was marked by its beauty and simplicity. The bride was attired in her traveling suit which was a rust colored ensemble suit with accessories to match. Immediately after the ceremony the young couple left in their car for a trip to Florida after which they will be at home in Shelby, N. C. George M. Vaughn, known to his many friends as "Josh," attended the university from 1918 to 1922 and during that time was a mainstay on the Carolina Basketball quintet. He was captain of the team in 1922. George is now in the textile milling business in Shelby, N. C.

ACADEMY OF SCIENCE HOLD MEETING HERE

(Continued From Page 1)

the trip." In general the plans for this trip. The meeting of the Academy next month will be divided into two parts, the morning session will be a regular business session with the election of officers and the address of Dr. Nance the retiring president. The afternoon session will be devoted to the reading of papers on scientific subjects. A partial list of these papers is given below. It will be noted that 14 of these are being read by persons connected with the University of South Carolina and only eight by those of other interests.

The Program.

"Some Problems in Land Utilization in South Carolina," by Dr. G. C. Nance of Winthrop; "The Photo Electric Call," by Professor A. C. Carson of The University of South Carolina; "Some Aspects of the Composite Atom," by Professor B. O. Hutchinson of Converse; "South Carolina Grasses," by Dr. Philip Luginbill, State Etymologist; "The Value of High School Chemistry from a College Viewpoint," by Miss Gertrude Eastman of Winthrop; "The South Appalachian Earthquake on October 20, 1924," by Professor F. R. Neuman of the University of South Carolina; "Hopcalite," by Dr. W. A. Whitesell of the University of South Carolina; "Story of the Effect of Hydrogen and Nitrogen on the Life of the Cotton Seed," by T. I. Dowling of the University of South Carolina; "Correlation," by Professor J. B. Coleman of the University of South Carolina; "A Decade of Mine-rap production in South Carolina," by Dr. F. H. Calhoun of Clemson; "The Catalytic Oxidation of Organic Compounds in Mixed Oxides," by A. H. McKee of the University of South Carolina; "Some Results from the Recent Investigation in Vitamines," by Professor Alice Foote of Winthrop; "Fault Troughs," by Professor Taber of the University of South Carolina; "Application of Science in Southern Agriculture," by Dr. A. F. Conradi of the Conradi Chemical Company of Columbia; "The Evaluation of Intelligence Tests for College Examinations," by Dr. Duddle Jones of Presbyterian College; "The Recent Eclipse," by Professor E. C. Coker of the University of South Carolina; "The Salamanders of the Columbia, South Carolina Region," by Miss Xepha Alford, former Graduate Student of the University of South Carolina; "The Anura of the Columbia, South Carolina Region," by Miss M. I. McManus of the University of South Carolina; "The Muscular System of the Blacksnake," by Miss Lottie Mae Vaughn, former graduate student of the University of South Carolina; "Native South Carolina Plants Suitable for Use in Landscape Gardening," by Mrs. T. I. Weston, graduate student of the University of South Carolina; "A List of Trees Growing in Columbia, South Carolina," by W. T. McKinnon of the University of South Carolina. In addition to this Dr. H. W. Barre, head of research work at Clemson, has promised a paper on some phase of research work.

Plea for Members.

The Academy of Science needs members, anyone vitally interested in the development of scientific and research work is eligible for membership. The dues are \$2.00 for initiation and a yearly dues of \$1.00. Anyone joining before March 1st will be charged an initiation fee of only \$1.00 and will be considered a charter member.

U. S. C. ANNOUNCE SCHOOL IN FRANCE

(Continued from Page 1)

are being made under the direction of the Extension Division of the University in co-operation with the Summer School and other University officials, through agencies approved by the highest American and French educational and governmental authorities. Each year a member of the University faculty will accompany the Carolina summer school to France. This summer Professor O. L. Keith, who has had 20 years experience in foreign travel and study as well as in conducting travel parties, will accompany the group.

College Credits.

Credit for work done in this foreign summer school of the University will be given on presentation of a certificate of attendance on the same basis as regular summer school work, that is two term credits for each thirty hours of classes with maximum of eight credits allowed. There will be elementary courses as well as advanced courses for students according to their preparation.

The Preliminary Courses, covering French pronunciation, diction, reading, phonetics, grammar, practical exercises and essay writing will be offered at University of Poitiers, an institution of first rank, from July 15th, to August 7th. The finishing course will begin on August 10th and last through August 22nd and is to be held at Sorbonne College of the University of Paris. The most stress will be placed on French, Literature and Institutions. In all classes students will receive individual attention and coaching throughout.

Students of these courses will be accommodated in "Pensions" selected with the greatest care for comfort, atmosphere and surroundings, and here lectures and entertainments will be arranged by the professor in charge. Students may, if they insist, reside with private families. The widest possible territory will be covered in and about the regions visited by hikes and motor excursions and outstanding facts

bearing upon the life and history of the district from the social, scientific and literary point of view will be explained. In this manner each student is assured of an exceptional opportunity to review the past and present of some of France's most interesting provinces. These excursions are to take place during the first half of the voyage, the second half will be spent in and around Paris.

Editor's Note—We are very sorry that we are unable to announce the complete schedule of the Summer School in France this week but the next issue of THE GAMECOCK will contain complete details of the foreign tour.

—U.S.C.—

Cross word puzzles have been added to the curriculum of the Engineering course of the University of Kentucky.

The University of Chicago intramural department has introduced horseshoes as a regular sport, and is conducting a tournament between the fraternities.

Spura

Green theme paper is used in certain classes at Wisconsin U. as a relief for the eyes.

Love is like a trunk—if you don't check it in time you have to express it.

Speaking about "holding on" consider the postage stamp. It sticks to one thing till it gets there. Prof: "I take great pleasure in giving you 81 on math." Stude: "Aw, make it a hundred and have a merrie Christmas."

Why waste your time with her? There's one born every minute.

Matron—Oh, did I hear you say "Darn it?" Girl—No, damn it.

First Chorus Girl—"I'm thinking of marrying Jack." Second Chorus Girl—So am I. Do you know of anybody who's got it?"
