

## Student Senate Minutes

October 24, 1961

The regular meeting of the Student Senate was called to order by President Chappell. Chaplain Todd Walter opened the meeting with the following prayer:

Most kind and gracious God, We would ask that you instill in us an atmosphere of responsibility to Thee and to our fellow students, and that we might act in such a way that will make you proud of us.  
In His name we ask, Amen

### COMMITTEE REPORTS:

**Homecoming Committee:** Jack Wilson, chairman, announced the winners of the fraternity homecoming displays. He commended the effort of all the fraternities in the contest.

He announced that Barbara King was crowned Homecoming Queen at half-time at the USC-UNC game. Garnet Doggett was maid of honor.

### OLD BUSINESS:

President Chappell announced that he had visited the infirmary and that he had talked with Dr. McNulty about the hours that the infirmary would be open for treatment of minor illnesses. Dr. McNulty told him that the infirmary would be open during the lunch hour for cases of absolute necessity, but that it would close at 5:00 p.m., except for cases of serious illness. Those people who want nose drops, cold pills, and aspirin should try to stop by the infirmary before 5:00 p.m.

The President also announced that he and five of the Student Senators had met with the President and other representatives of the Clemson Student Body Thursday, October 19, to discuss the promotion of good relationships between the Carolina and the Clemson Student Bodies. He said that plans have been made to make "Solid Saturday" a day of rivalry on the football field but good feeling among the students. He requested that any student who would like to have a friend from Clemson stay overnight should get in touch with him.

### NEW BUSINESS:

Marty Shehen was appointed Secretary of the State Student Legislature delegation. She was accepted unanimously by the members of Student Senate.

The Student Senate was then called into Executive Session.

After Student Senate had resumed its regular session, Jimmy Truesdale moved that a committee be set up to discuss off-campus dances with members of the faculty. The motion was seconded and passed.

President Chappell appointed Charlie Bradshaw, Jimmy Truesdale, and Bill Wilson to this committee.

Jimmy Truesdale then moved that President Chappell serve as chairman of this committee. The motion was seconded and passed unanimously.

A discussion of who operated and received the benefits of the concession stand and hat check stand at Township Auditorium during the Homecoming Dance was held. Bill Wilson suggested that the profits from these stands could be used by USC groups for scholarships or projects. Charlie Bradshaw, chairman of the Dance Committee, announced that these places were operated by the manager of Township Auditorium. This matter will be discussed further at a later date.

There being no further business, the meeting was adjourned.

Respectfully submitted,  
Brenda Williams  
Secretary

## Business Courses Offered

Columbia-area businessmen who want to increase their profits will be interested in a special course offered this fall by the Extension Division of Carolina.

An eight-week course in "Personnel Management as a Guide to Cost Reduction" began Oct. 26 at the university, co-sponsored by the Extension Division and the Columbia Personnel Club.

Covering several of the major functions of personnel management and their relation to the profit picture of a business, the course offers businessmen an opportunity to review tested methods and technique now in use by profit-making organizations and to compare those methods with their own operations.

Classes meet 7:30-9 p.m. each Thursday through Dec. 21, in Flinn Hall at the University. Participants attending the entire series of classes will be awarded certificates by the Extension Division.

Subjects to be covered and instructors for the course are:

Oct. 26 — "Field of Personnel Management," W. B. Coffin and Rod Hull, Allied Chemical Co.

Nov. 2 — "Employment," Phil Chick, General Electric Co.

Nov. 9 — "Job Evaluation," Larry Hill, Argus Camera Co. (first session).

Nov. 16 — "Job Evaluation," (second session).

Nov. 30 — "Building Employee Morale," John E. Hills, Richland Mall and USC.

Dec. 7 — "Maintaining Employee Morale," John E. Hills.

Dec. 14 — "Governmental Regulations," John G. Forsythe, Federal Issuing Officer, Wage and Hour and Public Contracts Division; Sam Burns, U. S. Fidelity & Guaranty Co.

Dec. 21 — "A Union in Your Plant," (debate) Marvin C. Whitehead, president, Teamsters Local No. 509; Noel E. Williams, personnel director, Pacific Mills.

Enrollment fee is \$15, and further information on the course and registration procedures may be obtained from the Extension Division, Flinn Hall, University of South Carolina, Columbia.

## Campus Briefs

**"The Gamecock"**  
There will be a meeting of the "Gamecock" staff at 2 p.m. today in Room 208, Russell House.

**WUSC-AM**  
The WUSC staff meeting will be held today at 5 p.m. in Room 204, Russell House.

**Press Club**  
The Press Club will meet today at 1 o'clock in the Azalea Room of the Russell House.

**"Y" Luncheons**  
Freshman "Y" luncheon will be held Monday at 1 p.m. in the Russell House Assembly Room. Jr.-Sr. and Sophomore "Y" luncheons will be held Wednesday and Thursday, respectively, at 1 p.m.

**Student Union**  
The Student Union will meet on Wednesday at 5:15 p.m. in the Student Union Office.

**Newman Club**  
The Newman Club will meet on Wednesday at 7 p.m. in Room 204, Russell House.

**B. S. U.**  
The Baptist Student Union luncheon will be held Tuesday at 1 p.m. at the B.S.U. Center. Vespers are held at 7 o'clock on Wednesdays.

**Wesley Foundation**  
Sunday morning worship services are held at 10:15 followed by classes and coffee. Tuesday luncheons are at 1:00 in the Palmetto Room, Russell House. Communion is at 7 a.m. Wednesday in Leiber College. Vespers are held Wednesday night at 7 p.m. Be sure to attend!

**Canterbury**  
Canterbury will meet on Sunday night at 5:30 for supper and worship. Afterwards the picture for Garnet and Black will be taken. The topic to be discussed at the Inquirer's Class at 7:00 p.m. on Wednesday is "Why Jesus Christ?"

**Westminster Fellowship**  
Breakfast will be served Sunday from 9:30-10:30 a.m., followed by a

study group. Sunday night after supper at 6:00 p.m. a program will be given by Dr. D. G. Miller on "Faith of Protestantism."

On Wednesday at 6:00 p.m. supper will be served and a program will be given on "Communication in Personal Relations."

**The Crucible**  
The Crucible Staff will meet Wednesday at 1 p.m. in Room 209 of the Russell House. All persons interested in contributing or helping with Carolina's literary magazine are invited to attend.

**Clariosophic Society**  
The Clariosophic Society will meet at 7 p.m. Tuesday evening in Legare College. A declamation contest will be held in the hall.

**USC Young Democrats**  
The USC Young Democrats will meet Thursday evening, November 2, in Harper College.

**Law School Democrats**  
The Law School Young Democrats will meet this week, and the time and location will be announced at a later date.

## Alumni Day Scheduled For May 30

Alumni Day at the University of South Carolina will be held May 30 next year, the day before commencement and the first time in many years that the two events have been separated.

The Alumni Council approved the change in order to provide a more comprehensive program for Alumni Day without conflicting with the events of graduation.

Added to the Alumni Day program on Thursday, May 30, will be a dinner meeting of the USC Alumni Assn. At the meeting a new program of awards will be instituted in recognition of outstanding alumni. The Alumni Council established an Awards Committee.

During the Alumni Council meeting at the University Saturday, the council stood silently in memory of Ralph Lewis, former alumni secretary, who died this month.

**International Students Club** will meet Tuesday, October 31 at 7 p.m. in room 102, Russell House.

New officers of the group are Anthony Eman, chairman; David Shakih, vice-chairman; Kitty Gold, secretary; Hamid Ejlali, treasurer; and Spyros Master, program chairman.

## Times Issued For Job Interviews

Placement interviews have been scheduled for the week beginning Monday, November 6. Interested seniors may schedule appointments through the offices listed. Definite interview appointments must be arranged in advance by each student who wishes to be included in the schedule of interviews.

**Monday, November 6**  
The United States Coast Guard will have a representative on campus to interview seniors who are interested in Officer Candidate School. Interviews will be held in Russell House, Room 301, and appointments may be scheduled through the Placement Bureau, Room 211, Russell House.

A recruiter from Haskins & Sells will be on campus to interview seniors in accounting. Interviews will be held in Russell House, Room 304. Arrangements for interviews must be made through the School of Business Administration, Dean Morris' Office.

**Tuesday, November 7**  
Aetna Casualty and Surety Company's representative will interview seniors in banking and finance, business economics, management, and marketing. Interviews will be held in the School of Business Administration, Room 128. Appointments may be scheduled through the School of Business Administration, Dean's Office.

A representative of Tennessee

Eastman Company will conduct interviews in Russell House, Room 204. He is interested in talking with seniors majoring in secretarial science, chemistry, chemical and mechanical engineering. Appointments may be arranged through the School of Engineering, Dean's Office.

Five divisions of the Bell System (Southern Bell, Long Lines, Bell Laboratories, Western Electric Manufacturing, Western Electric Field Engineering) will interview engineering seniors on the third floor of Russell House. Appointments may be scheduled through the School of Engineering, Dean's Office.

**Wednesday, November 8**  
The Bell System (five divisions) will continue interviewing engineers on the third floor of Russell House. Appointments may be arranged through the School of Engineering, Dean's Office.

**Thursday, November 9**  
The Bell System (two divisions — Southern Bell and Long Lines) will interview seniors in business administration, law, English, fine arts, foreign language, geography and geology, history, international studies, mathematics, philosophy and psychology, physics, political science and public administration, and sociology. Appointments may be scheduled through the School of Business Administration, Dean Morris' Office, and interviews will be held on the third floor of Russell House.

## IN THE COLLEGE BRAND ROUND-UP

**PRIZES:**  
1st Prize—Philco Stereophonic High Fidelity Console  
2nd Prize—Home Movie Outfit (Camera, Magnascope Projector w/cass)  
3rd Prize—Polaroid Camera (Model 800)

**WHO WINS:**  
1st Prize to the individual accumulating the highest number of points.  
2nd Prize to the individual accumulating the second highest number of points.  
3rd Prize to the individual accumulating the third highest number of points.

**RULES:**  
1. Contest open to all students.  
2. Each empty package submitted on Marlboro, Parliament or Alpine will have a value of 5 points. Each empty package submitted on Phillip Morris Regular or Commander will have a value of 10 points.  
3. Contest starts October 23 and ends November 29, 1961. All packages must be turned in to Student Representative by 3 P.M. on closing date, November 29. Place will be announced later — watch your Bulletin Boards and Campus Newspaper.  
4. Entries will not be accepted after closing time. Empty packages must be submitted in bundles of 100. Separate your 5 and 10-point packages.

Get on the BRANDWAGON ... it's lots of fun!

## Nuclear War Would Not End World

By J. Crawford Cook

Today's tension-racked world has created a situation that is fast producing an ocean of hysteria with waves of fear and potential panic that is, in the light of factual information, unnecessary.

No one can say that a total war involving the use of nuclear weapons will not be an almost indescribable holocaust but it will not be the end of the world nor the United States nor Russia if even minimum precautions are taken.

Two arguments generally proffered when a discussion of nuclear war occurs are first, it won't do any good to build bomb shelters because the weapons will be of such magnitude as to render them useless and secondly, the earth and everything on it will be so completely destroyed in the event of such a war that one would be better off dead.

### Third View

Fortunately a third, more realistic view of nuclear war has begun to show itself. Students of the new super bombs and their power and effect offer more hope for survival in atomic war today than ever before.

These new arguments are based on a realistic appraisal of the bomb's effect. There are basically two threats the nuclear weapons present. The heat and blast destruction that occurs at the time of detonation, and secondly the fallout problem, both immediately after the bomb detonates and over an extended period of time running even to several years.

Construction of a shelter to offset the blast effect in the impact area is beyond the feasible realm of possibility as a mass project. The cost would be prohibitive, unattainable for the vast majority of private citizens and close to the same for the federal government, increased tax dollars, et al.

This, however, is not the primary cause of life loss. Fallout will be the major contributor here, and about this there is a great deal that can be done for a very nominal monetary outlay. Many existing cellars reinforced with such small things as sand bags or more earth, will provide, in an incalculable number of instances, sufficient protection to insure the saving of lives.

### Fallout Shelter Info

Civil Defense Agencies in every state and in almost every major city offer plans for constructing fallout shelters that are within the reach of practically every citizen. It may

mean buying a year older automobile, or not getting a new family wardrobe, but both of these are a small price to pay for saving a family's lives. After all, the biggest car and the finest clothes won't mean a thing if you're not here to use them.

Estimates compiled in 1960 show that if all-out nuclear war occurred and no precautions were taken, less than 36 per cent of the population would be killed from blast effects and radiation.

Now in any language one-third of the population is a tremendous loss but remember this is without any precautions at all. It is felt that with a modest effort on the part of the government and private citizens, this figure could probably be cut in half. Still not a happy thought but certainly a long way from the end of the world.

### Healthy Sign

The current public awakening to the dangers of fallout, what can be done to minimize its effect, and the government's present program of continually driving home these facts to the populace is a healthy sign. It makes one feel that maybe the American people haven't completely lost their backbone and resigned themselves to an unhappy doom. Now if we can only spread this to our international policy and decision-making officials, well . . . maybe we'll get out of this mess yet.

Generally considered to be the prime evil of a nuclear war, assuming there will be survivors, is the genetic damage that will result. It is known that in the U. S. alone, if every citizen receives to his or her reproductive organs a 10 roentgen (standard measure of X-ray exposure) dose of radiation during the first thirty years of his or her life and no more than another 10 roentgens in each subsequent ten years there would be 65,000 defective children born in the first generation following the dosage and 650,000 defective children in every generation when new levels of stability are reached.

### Unacceptable?

These figures at first sound almost unacceptable but their horror diminishes somewhat when you consider that the average citizen in the U. S. now receives about one-half this amount from X-rays alone. This damage is just part of the normal price we are apparently willing to

pay to live in today's modern civilization.

In a war where every citizen received a dosage of some 250 roentgens the total number of defectives born would increase by something less than 25 per cent or than one in four. In short, a maximum genetic horror likely would be an increase in the number of children born defective from four in a hundred to five in a hundred.

There is no reason to feel that nuclear war will result in the end of the world. Realistic predictions, considering as we must that for the next decade Russia and the U. S. will remain the prime possessors of the large stockpile of super weapons, indicate that immense destruction will be wrought upon the United States, the Soviet Union and Europe. Canada is likely to suffer tremendous damage and possibly some limited attacks upon China will occur.

This is not, however, likely to lead to the end of the world. If you hap-

pen to live in one of the areas mentioned above it could very well be the end of your world but not of the planet earth.

### China Safe

In China alone 20 per cent of the earth's population resides, some 701 million people. The vast majority of these are, considering the complexion of the picture today, likely to survive. Australia, Africa and most of South America probably will go undamaged. I think it is safe to assume that the vast majority of these people will not consider that the world has ended just because those nations that have conquered, dominated and exploited them have suffered heavy nuclear damage.

It goes without saying that if the nuclear "balance of terror" is permitted to run on and on, and more and more nations develop the super weapons, the probability of an ever-widening circle of destruction will increase in a more or less direct proportion to the number of countries securing the weapons.

We all make mistakes...

### ERASE WITHOUT A TRACE ON EATON'S CORRASABLE BOND

Touch-type, hunt-and-peck, type with one hand tied behind your back—it's easy to turn out perfect papers on Corrasable. Because you can erase without a trace. Typing errors disappear like magic with just the flick of an ordinary pencil eraser. There's never a telltale erasure mark on Corrasable's special surface.

Corrasable is available in light, medium, heavy weights and Onion Skin. In convenient 100-sheet packets and 500-sheet ream boxes. Only Eaton makes Corrasable.
