

Book Examines Civil Liberties And Supreme Court Decisions

American civil liberties as interpreted by the U. S. Supreme Court is the subject of a new book by Dr. Glenn Abernathy, professor of political science at the University of South Carolina.

"Civil Liberties Under the Constitution" presents what Dr. Abernathy calls a "neutral overview" of Supreme Court decisions through the close of the 1967 session, together with his commentaries on their direction and significance to American legal inter-

pretation. It includes sweeping implications of the milestone 1954 school desegregation decision in addition to such recent issues as wiretapping, apportionment, miscegenation and administrative inspection. The book is written primarily for textbook use and its approach centers basically on civil liberties which have taken form in constitutional law. It has already been adopted by the University of Wisconsin and the University of

Missouri for use in separate courses in civil liberties.

In addition to reviewing decisions already handed down by the courts, Dr. Abernathy indicates in his book issues of immediate future concern to the American legal system.

Dr. Abernathy is the author of a number of articles on judicial action concerning human rights and a book, "The Right of Assembly and Association," published by USC Press.

Dr. Jensen

Physician Sees Infirmary Position As New Challenge

"A challenge" is how Dr. Nelson R. Jensen Jr., new USC infirmary doctor, describes his new job.

Dr. Jensen, born in Pawnee City, Nebraska, has enjoyed fishing and hunting "ever since I was old enough to handle the equipment." He also got "hooked" on golf, and began playing in local tournaments at the age of 14. He attended high school in Pawnee City, and established a new record for a four-year

grade average, which he believes still stands.

All four years he lettered in basketball, and, in 1953, averaged 20 points per game and was elected to the All-Conference and All-State teams. He won the Nebraska State High School Divisional Tournament in golf in 1952 and 1953, and during his senior year, he was president of the band, managing editor of the yearbook and senior class president.

Upon graduation from high school he attended the University of Nebraska in Lincoln. As a freshman he established the freshman scholarship record with 97.45% and was awarded the "Outstanding Freshman in Chemistry and Physics" award. He was a member of Phi Beta Kappa and

Theta Nu, scholastic honorary fraternities, and Phi Delta Theta. In 1956 he received his B.S. Degree with the highest upperclass average in the University.

Jensen finished medical school second in his class in 1960, his internship and residency training in Colorado and post-graduate work at the University of Kansas.

In the Army Jensen was assigned to the Department of Internal Medicine at Fort Jackson and served as Chief of the Department of Medicine in 1966 and part of 1967. He and his wife liked Columbia so well that Jensen resigned his commission with plans to settle here permanently. Jensen has a 2½-year-old daughter whom he admits he rarely sees anymore. "She's always in bed by the time I get home," he says.

Faculty Academic Footnotes

ART

Dr. John C. Benz, head of the Department of Art at the University of South Carolina, has been named to the steering committee of the International Center for the Creative Arts (ICCA) at Hilton Head Island, S. C.

The steering committee will have as its duty the planning for the first international symposium to be held at Hilton Head in June. Tentative topic for the symposium is "The Arts and A Changing World," and plans call for inviting participants from 20 countries.

BIOLOGY

Dr. Wade T. Batson, professor of biology at USC, has been appointed to Gov. Robert E. McNair's Beautification Community Improvement Board for a term expiring June 1, 1969.

Dr. Batson was notified of the appointment by Secretary of State O. Frank Thornton earlier this week.

BUSINESS ADMINISTRATION
The American Bankers Assn. has appointed Dr. Olin S. Pugh of the University of South Carolina to membership on its banking education committee. The committee consists of bankers and educators concerned with general problems in banking education in the United States.

Dr. Pugh is professor and holder of the Chair of Banking in USC's College of Business Administration.

An article by a University of South Carolina business professor on the concept of human capital in the history of economic thought has been published in the winter edition of the Indian Economic Journal, quarterly publication of the Indian Economic Association.

Dr. B. F. Kiker, an assistant professor in the USC College of Business Administration, has also written a monograph titled "Human Capital In Retrospect" which

will be published in March by the USC Bureau of Business and Economic Research.

ENGLISH

Dr. Claude Henry Neuffer, editor of "Names in South Carolina," will be guest speaker next Monday, Feb. 12, at the meeting of the Darlington County Historical Society at St. Bartholomew Episcopal Church in Hartsville.

His discussion of "Place-Name Research Aided by Historical Societies" will be based on his experiences as editor of the first state place-name journal in the nation.

Dr. Neuffer is an associate professor of English at USC, where he co-founded and has edited this nationally-acclaimed journal for the past 15 years.

GRADUATE SCHOOL

Dr. James A. Morris, dean of the Graduate School at USC, has again been elected chairman of the Board of Directors of the Federal Reserve Bank of Richmond, Charlotte Branch. This marks the third time that he has been elected chairman in the five years he has served on the board.

INTERNATIONAL STUDIES

Dr. Richard L. Walker, head of the Department of International Studies at USC, delivered address on Chinese Communist foreign policy Thursday, Jan. 18, at the National War College in

Washington, D. C.

Prof. Walker, James F. Byrnes Professor of International Relations at USC, was invited to the War College by Lt. Gen. Andrew Jackson Goodpaster, commandant of the college.

MUSIC

John Kenneth Adams, assistant professor of piano at USC, will perform and lecture for the National Music Teachers Association during its southern and central regional convention Feb. 11 through 14 in New Orleans, La. He will play a program of compositions by Schubert.

Feb. 8 he and John Bauer, USC assistant professor of violin, gave a joint recital at Morris College and will repeat the program in Columbia Feb. 19 for the Evening Music Club.

PSYCHOLOGY

Dr. Roger W. Black, associate professor of psychology at the University of South Carolina, is author of two articles appearing in recent issues of two professional journals.

"Resistance to Extinction Following Shifts in Reward Magnitude" is the title of an article appearing in the December issue of Psychonomic Science and "Shifts in Magnitude of Reward and Contrast Effects in Instrumental and Selective Learning: A Reinterpretation," is the subject of Dr. Black's theoretical

paper in the January issue of Psychological Review.

Dr. Black is involved in a series of studies concerned with the effects of altered conditions of reward on performance in simple learning situations, of which the Psychonomic Science article is one.

Growth idea:
Wouldn't you
rather be
with No. 1?

SHOULD A GRADUATE IN ENGINEERING OR THE SCIENCES EXPECT...

- ✓ AN OUTSTANDING PROFESSIONAL CLIMATE?
- ✓ GUARANTEED JOB STABILITY?
- ✓ RAPID CAREER ADVANCEMENT?
- ✓ EXCELLENT GRADUATE STUDY PROGRAMS?
- ✓ A TOTAL "FRINGE" PACKAGE?
- ✓ AN UNLIMITED RANGE OF ASSIGNMENTS?
- ✓ THE BEST IN FACILITIES AND EQUIPMENT?
- ✓ AN OPPORTUNITY TO CONTRIBUTE?

SO DO WE!

CONSIDER THE UNUSUAL CAREER-START OPPORTUNITY TO JOIN THE OUTSTANDING PROFESSIONAL CIVILIAN STAFF OF THE ARMY MATERIEL COMMAND

The Army Materiel Command is an unusual technical organization of great size and scope, with some 150,000 civilians employed in laboratories and installations throughout the United States.

YOU ARE INVITED TO APPLY!

AMC has many entrance-level positions, ideal as a career-start for you, with outstanding developmental opportunities — as you will see when you join this highly qualified staff. Projects are vital, interesting, so absorbing many scientists choose to pursue a lifetime career here. As you advance, salaries and benefits accrue to make your AMC career rewarding, highly lucrative as well as important! AMC is concerned with research, development, design and production, testing and evaluation of all equipment developed and used by the modern Army.

HERE ARE A FEW DISCIPLINES OF THE MANY IN WHICH THERE ARE OPENINGS NOW FOR YOU!

Electronic & Electrical Engineering	Chemistry & Chemical Engineering
Aerospace Engineering	Mechanical Engineering
Biology & Related Fields	Industrial Engineering
Mathematics/Statistics	Metrology & Calibration
Physics	

AMC will be interviewing on campus on

If you want a career with all the growing room in the world, we have a suggestion.

Start with Humble and you start with the company that supplies more petroleum energy than any other U.S. oil company. We're literally No. 1 — America's Leading Energy Company.

Start with Humble and you start with the principal U.S. affiliate of Standard Oil Company (New Jersey) with its 300 worldwide affiliates. So your advancement can be intercompany as well as intra-company, worldwide as well as domestic.

Look into Humble's wide-scope careers in exploration, production, transportation, manufacturing, marketing and research — and the management of all these. We have immediate openings for people in practically all disciplines and at all degree levels.

We'll stretch your capabilities. Put you on your own a little too soon. Get the best you can give. But you'll always be glad you didn't settle for anything less than No. 1. See us on campus soon.
