

# Letters To The Editor

Correction: In the Monday, April 23 issue of the Gamecock the name of Dixon Lee was mistakenly left off his letter to the editor.

**TO THE EDITOR:**

I have read the letter to the editor by Frank Bowerman concerning the movie 'SOLENT GREEN'. I too would like to make few comments about the movie and its implications.

We as college students have a responsibility to ourselves, our children and our grandchildren. I do not make this statement lightly, or with any Utopian overtones. I mean in terms of actual reality. Right now, we are beginning to see the first signs of a bleak future: gasoline shortages and rationing, rising food costs, overpopulation, pollution and an unrestrained and climbing crime rate.

Right now maybe it doesn't seem so bad, well maybe that is right...but what about the future? What's all the noise about you say? Have you seen what the stark reality may be by the year 2022 A. D. in the movie 'SOLENT GREEN'? After seeing that movie, I shudder at its implications—what man will make of his cities, his society, and worst of all humanity itself.

It's really a fearful thought. This is why I say we have a responsibility here and now—we must stop this destruction of nature so we won't have a bleak future to look forward to, a future without any hope,

a future without any hope, a future without any resemblance of humanity as civilized human beings. Only through seeing the movie can one really understand.

**TO THE EDITOR:**

I would like to add my support to the letter (April 19, (Gamecock) criticizing the Education Dept. (Wardlaw). I will graduate in Dec. 1973 and I actually fear the day that I have to take the National Teacher's Examination. (NTE). I fear it because I honestly don't think I've learned enough in my education courses to waste the money thaking the NTE exam. Whoever wrote the letter right; where are many who feel their time and money are being wasted.

**NAME WITHHELD**

**TO THE EDITOR:**

Carolina should award Dixon Lee for his expert avoidance of the issues at hand concerning the creation of a campus food store.

Your attempted letter was followed by no name (probably a fault of THE GAMECOCK), but just the same, Dixon, your logic is as elusive to us as your identity.

I had already pointed out that Slater (the real name of what you call University Dining Service) is guaranteed a monopoly

on campus, so repeating it doesn't get you off the hook.

You still refuse to reveal what "special interests for the store" you represent. You voiced no regrets that Slater "get first crack" at the store. Instead, you use this as your defense.

Using your logic, one could drop a safe from the roof of a 42-story building onto an unsuspecting crowd below, and say, "Don't blame me, gravity gets first grab at it!"

**EDWARD C. FENNEL**

**TO THE EDITOR:**

I am writing this letter in praise of the party that was given last week-end by the Latin-American students. Not only was the food good but the entertainment was a refreshing change from the loudly mediocre to poor rock groups which we have all heard ad nauseum.

It seems that the definition of a party is a little beer and a lot of noise. In this case there was plenty of beer and the entertainment was quiet and appealing. I had the best time I have ever had at a university sanctioned party. Hostess, Maggie Martin, had the evening's events well organized. Certain forms of Spanish dancing were demonstrated by some of the girls but a somewhat inebriated but indominabel Pepe stole the show with his Mexican dancing.

The only thing wrong is that there were only around one hundred people there. The party was being given to raise

money for the Manguan earthquake victims and three hundred people were expected to show up. They don't know what they missed.
