IBM student discounts to the rescue!

Special prices and financing for USC students

IBM PS/2 Model 50Z (1.44 MB 3.5" floppy drive, 30 MB hard disk, 1MB active memory, Intel 80286 chip, Microchannel architecture, Zero wait states, VGA color monitor, Mouse) **List price: \$4099.00, USC students: \$2679.25**

COLUMBIA, S.C.

IBM offers a substantial discount for USC students, faculty and staff on its PS/2 line of computers. IBM also offers a Loan-for-Learning program with low interest rates and a fast and simple application process.

IBM is by far the most widely accepted name in computing among businesses and professions around the world. More software is designed to run on the IBM PS/2 family of computers than for any other brand: word processing, spreadsheets, database, graphics, telecommunications, desktop publishing (this ad was type-set using an IBM PS/2), and more.

Buying an IBM PS/2 gives you the advantage of access to the world of IBM service and support. Each PS/2 comes with a one-year warranty and a low-cost on-site service option.

Advanced technology, value, compatibility, and reliability make buying an IBM PS/2 a wise investment, satisfying your needs today, and giving you an extra advantage in your career.

Call us. We'll help you select the PS/2 that's right for your needs today and tomorrow.

We're located on the third floor of the Computer Services Division building at the corner of Blossom and Sumter Streets.

To arrange a demonstration or for additional information, call 748-5328.

IBM, Personal System/2, and PS/2 are registered trademarks of International Business Machines Corporation.
