MAKE UP YOUR OWN MIND. AMIGA.

MEET THE FUTURE OF CREATIVE THINKING.

Amiga doesn't just improve your work. It improves your thinking. Just working hard isn't enough anymore. Creative thinking is what sets winners apart.

The Amiga computer was designed precisely with that thought in mind. It handles routine tasks, then lets you go all the way to innovation and invention.

Whatever you can imagine, Amiga has the power to produce. Easily.

Its built-in technology is a major advancement in a computer of this size and price range.

With a mouse and simple icons, Amiga combines a full color display, full stereo sound, graphics, 3-D animation, video capability and text as no other computer can.

It has the power to run software sophisticated enough to manipulate vast amounts of data, as well as the creative genius to create the complete score for an orchestral composition.

We deliver today, what others promise tomorrow.

Amiga was designed to keep up with you, from schoolwork demands through career needs.

You'll find standard what other people make optional. As well as sophisticated technology that doesn't exist on comparably powered and priced computers.

Creative educational discounts make Amiga an easy decision.

The Amiga Education Purchase Program for college and university students, faculty and administrators, offers a wide range of fully loaded, specially bundled hardware systems, with a complete system starting under \$700.* All include a one year limited warranty and AmigaVision™.

The best way to make up your own mind is to try Amiga.

Stop by your Campus Authorized Amiga Dealer and get your hands

on the future of computing. Sure, some people buy what's standard. But we think you can make up your own mind, and choose your own best course for the future. After all, isn't that what college is all about?
