up?" he asked another officer. "I just got here with 300 Kuwaitis."

American specialists will work with Kuwaitis to restore basic services. Military police are to help keep order, replacing the ad hoc volunteer force now patrolling the streets.

Already, however, the larger questions loom.

What role is there for the resistance activists who risked their lives to defend Kuwait for a government forced to flee in disarray?

What voice will there be for a political opposition that wants to steer Kuwait toward the democratic principles espoused by its

Western defenders?

Can Kuwaitis again afford to leave their means of production and vital services in the hands of contracted foreigners who have no desire to stay when the going gets tough?

In the short term, the politics must wait. After a symbolic arrival of the emir, Sheik Jaber al-Ahmad al-Sabah, an emergency government is to take charge for at least six months.

"We're looking for a nicer term than martial law," joked one American public relations consultant, "but that's what it is."

and visiting when conditions stabilize," she said.

Willer said Arab students at USC have gone through a tough time, even though there has been no harassment.

"It's very difficult to be separated from your family for an extended period of time, with only sporadic communications. It's been a tough time for them. I think they've handled themselves with a lot of maturity," Willer said.
