# What's The Fastest Way To Get From Point A To B?

If your first instinct was to avoid diving headlong into a maze of dead ends, walls, and false starts, you should be talking to Microsoft. Like you, we'd rather see around obstacles. And help others overcome problems as well.

Right now, we're looking for individuals who have the insight to find their way through uncharted territory. And enjoy helping customers discover new and better ways to reach their goals. With Microsoft® products. Products that are changing the world.

If you're intrigued by the idea of guiding

others in their quest for answers, see us about your future at Microsoft. You'll discover we appreciate talented people who know that solutions don't always come with instructions.

If you are pursuing a Bachelor's degree in Computer Science, Business, Information Systems, Mathematics, Physics or related discipline we want to talk with you at our On-Campus Interviews.

Microsoft is an Equal Opportunity Employer and supports workforce diversity.
