THE LINK TO A BETTER WORLD

Who cannot read?
• Twenty-three million American adults - about 1 in 5 - cannot read a medicine bottle, a menu or street signs; fill out a job application; write a check; or make correct change for a \$20 bill.

Illiteracy is a solvable problem.

• With 35 to 45 hours of tutoring, adults can improve their reading skills by one grade level.

All you need is time.

• A literacy program provides adults with all the training, materials and support they need.
