

Still going...

The Garnet and Black Quarterly Magazine is going strong after one year. In fact, the magazine was named best magazine in the state in the South Carolina Press Association's Collegiate Division. You can be a part of the magazine next year. Just come to an informational meeting at the GBQ office, Russell House Room 344, on Monday at 6 p.m. We're still going and going and going and...

FINAL AVERAGE GMAT SCORES

THE PRINCETON REVIEW	KAPLAN	NATIONAL AVERAGE
~350	~250	~150

Maybe our students are smarter, or maybe they're just better prepared. The Princeton Review is the nation's fastest growing GMAT course. And for good reason.

We keep our classes small (10 to 15 students) so you're guaranteed plenty of personal attention. If there's a concept that you don't understand, our teachers will work with you until you do. And four practice exams given under actual test-taking conditions will help get you ready for the real thing.

MAYBE PRINCETON REVIEW STUDENTS ARE JUST SMARTER.

Look at our students' average final test scores, and you'll see how we measure up against the competition.

Give us a call if you'd like your score to climb off the charts.

Take the only test you dont have to study for.

The person you're sleeping with could have a sexually-transmitted disease. Even AIDS. If you haven't been studying about how to protect yourself, you might not like the results of this biology exam.

It's not our intention to scare you. What we want to do is help. We sincerely care about you. We're sensitive, understanding and professional. We're also very affordable and everything is confidential.

You can talk to us about anything and get straight answers. We offer HIV testing, conseling and referral services and more.

Abstinence is the only sure protection. But we're not going to tell you how to lead your life. Just learn to be safe. Get tested. Come to Planned Parenthood.

Unfortunately, our competitor is struggling with this simple test:

True
 False

Now we're not saying anyone's lying, you understand.

It's just The Princeton Review can't seem to figure out exactly what's true. Their advertised average LSAT score improvement dropped from "10+ points" in 1993 to 7.5 last year. Now an arbitration panel has ruled that their "study" really only supported an average improvement of 6.9 points. That same arbitration panel ruled similarly for their MCAT, GRE and GMAT studies.

In fact, Princeton Review has been forced to abandon or lower every score claim that has ever been legally challenged and resolved.

It's no wonder **more than twice as many students take Kaplan**, the acknowledged leader in LSAT, MCAT, GMAT and GRE preparation. Our expert instructors know the tests inside out, so they can help you get your highest possible score. And our score improvements are backed by rock-solid Price Waterhouse studies.

Honest.
