Information Resource Assistant Program  
Computer Services is starting an Information Resource Assistant Program to help provide computer workstation support for the Columbia Campus. This will be an excellent opportunity to gain invaluable experience working with computers connected to our fiber backbone with access to the Internet, the mainframe, and various network environments.

Responsibilities will include installing network adapters (cards), setting up workstations, configuring workstations to connect to the campus backbone, installing and configuring software, technical support for some hardware and software, and other various computer related tasks. Comprehensive training will be provided by Computer Services. We are looking for ambitious, motivated students with a background or working knowledge of computers.

Requirements include graduate or undergraduate student, a working knowledge of PC's including DOS, Windows, and various software packages-MAC knowledge helpful.

For application information contact:

Tina Scott  
5th Floor  
Computer Services
