

COLLEGE HOROSCOPES

By Linda C. Black

Monday, the sun in Libra squares the moon in Capricorn, which could cause interesting outbreaks of outrageousness between conservatives and liberals. Tuesday and Wednesday, the intellectuals will explain whatever just happened. It's not a good idea to gamble on Thursday or Friday, but if you must, Friday's better. All weekend, the moon's in Aries, the sign of daredevils. If a lovely Libra doesn't want to play hardball, leave that one home to read a book!

Aries (March 21-April 19). You'll have to act fast on Monday in order to meet everybody's demands. Get a treat for yourself and a few of your best friends on Tuesday and Wednesday. Those are your best study days this week, too. You'd better do that or Thursday and Friday will be rough. There will be a pop quiz. Saturday and Sunday could be superb. If you take a "beautiful person" along on a trip, expect complaints about the conditions.

Taurus (April 20-May 20). You could ace a test on Monday, if you review your answers before turning them in. Don't expect to make much progress with a iceberg of a professor on Tuesday or Wednesday. Don't take that cold demeanor as a rejection, either. Thursday and Friday should be much better for interpersonal contacts. Attend a club meeting and make friends in your career area. Work this weekend and you may finally finish a project you've been avoiding.

Gemini (May 21-June 21). Monday could get slightly stressful, as you figure out where you're going to get the money you need. Try something that worked before. Tuesday and Wednesday ought to be excellent. You're even more brilliant than usual then. You still have to check your data twice, though. A moody professor may require patience on Thursday or Friday. Don't argue; you'll make

it worse. Team sports and parties outdoors are perfect for the weekend.

Cancer (June 22-July 22). Clear up a misunderstanding with your partner on Monday before proceeding further. Fill out financial paperwork on Tuesday or Wednesday, if you really want the money. Thursday and Friday, you'll ace the test by applying what you've learned through experience. This may be a rather hectic weekend. There are lots of options, and lots of people vying for your attention. Be nice, but make sure your needs are met, too.

Leo (July 23-Aug. 22). Monday

thing that will grow in value. If you're having trouble on Tuesday and Wednesday, hire a tutor who thinks the subject is easy. You may never figure it out by yourself. A partner may be sending mixed messages on Thursday or Friday. Trust your experience. Somebody else's loss could be your gain this weekend. Attend garage sales to find the perfect item!

Libra (Sept. 23-Oct. 23). Don't let a roommate's rotten mood spoil your Monday. Be nice, and by Tuesday the problem may have solved itself. You're very lucky in love on Tuesday and Wednesday, so set up as many dates as possible. That

validated as soon as Thursday or Friday. The weekend might get hectic, however. Another person's lack of planning could cause an emergency. Watch out not only for yourself, but for others, too.

Sagittarius (Nov. 22-Dec. 21). Buy a practical item on Monday. You've done without it long enough. If you spend Tuesday and Wednesday surfing the 'Net, you may find the answer you've been seeking. Fuss over a roommate on Thursday and Friday and you'll make domestic conditions much nicer. Also, take home a funny video to share. Get out for some excitement over the weekend. You may find true love, or a reasonable facsimile, with a pioneering type.

Capricorn (Dec. 22-Jan. 19). You may win an argument with a goofy professor on Monday. Make sure your facts are accurate; somebody may check them! Consider your options on Tuesday and make a big purchase on Wednesday evening. Study on Thursday so you'll be ready for an exam on Friday. The stuff may finally start making sense. Stay home this weekend and you'll get a lot done. Well, you might take time out to comply with an attractive person's whims.

Aquarius (Jan. 20-Feb. 18). Don't argue on Monday; just do what you promised! Once that's handled, your life could get downright enjoyable. You might even fall in love again on Tuesday and/or Wednesday. Unfortunately, you may have to pay for past mistakes on Thursday and Friday. Saturday and Sunday are good days to practice what you've been studying lately. You've done enough reading and talking about it; now put what you've learned into action!

Pisces (Feb. 19-March 20). Attend a meeting in your major on Monday morning. You might make valuable contacts. Jump through bureaucratic hoops on Tuesday and Wednesday and

you could achieve your goals. Resist, and it will just take longer. Thursday and Friday should be pretty good, with the moon in your sign. Don't fall for a freeloader, though. You'll need all your spare change to get something over the weekend that you've deserved for a long time.
