IRONICALLY, THE TIME TO START SAVING FOR RETIREMENT IS WHEN IT LOOKS LIKE YOU CAN LEAST AFFORD IT.

Can't afford to save for retirement? The truth is, you can't afford not to. Not when you realize that your retirement can last 20 to 30 years or more. You'll want to live at least as comfortably then as you do now. And that takes planning.

By starting to save now, you can take advantage of tax deferral and give your money time to compound and grow. Consider this: Set aside just \$100 each month beginning at age 30 and you can accumulate over \$172,109* by the time you reach age 65. But wait ten years and you'll have to budget \$219 each month to reach the same goal.

Even if you're not counting the years to retirement, you can count on TIAA-CREF to help you build the future you deserve — with flexible retirement and tax-deferred annuity plans, a diverse portfolio of investment choices, and a record of personal service that spans 75 years.

Over 1.8 million people in education and research put TIAA-CREF at the top of their list for retirement planning. Why not join them?
