## HOROSCOPES

- Aries (March 21-April 19):** Listening to advice gets you further today than following your headstrong ways. Others are capable of coming up with good ideas, too. Friends have a big influence on your day.
- Leo (July 23-Aug. 22):** Your chances for success are excellent, but so is the possibility of sabotaging your own efforts. Competition may lead to your downfall. Be satisfied with what you get today.
- Sagittarius (Nov. 22-Dec. 21):** Once you get started on a topic close to your heart, you have a lot more to say than you realize. Your sudden expertise makes a positive impression on others. Everyone is an optimist today.
- Taurus (April 20-May 20):** You may be faced with disillusion or disappointment today. Even though you have been working hard, it is still insufficient. It is too easy to become impatient with others who do not understand your problem.
- Virgo (Aug. 23-Sept. 22):** If you are stuck today, this may be a good time to help others. A change in the weather finds you improperly dressed. Take extra vitamins to keep up your resistance.
- Capricorn (Dec. 22-Jan. 19):** Not everyone shares your sense of responsibility. This may be because not everyone is as invested as you are. You may have to change your expectations of others if you wish to work with them.
- Gemini (May 21-June 21):** Motivational speakers and surrealists alike can expect a wonderful day. Plans and visions fill your head, and some of them strange, all of them possible. You are allowed to take back what you said yesterday.
- Libra (Sept. 23-Oct. 23):** You know what you want as soon as you see it. If you are smart and brave and go you will go forward and claim what you discover. Romance and treasure hunting are favored activities today.
- Aquarius (Jan. 20-Feb. 18):** Whether or not you started it, you are all the center of all the action today. If you want attention, that's just what you will get. Your exploits take on a mythical quality at this time.
- Cancer (June 22-July 22):** You can only hide for so long before you have to come out and face the music. Something you have been dreading may not be so bad after all. Ignore your feelings and lead with your thoughts.
- Scorpio (Oct. 24-Nov. 21):** The environment around you is a single living organism that does not appreciate your interference. Try not to make any ripples today; much less waves. This is a bad day to engage in personal combat.
- Pisces (Feb. 19-March 20):** You seek tranquility in a world that is anything but tranquil. Unplug yourself from the system and find a place to meditate. Doing nothing for a while is just what the doctor ordered.
