Daily Horoscope

For entertainment purposes only.

Aries (March 21-April 19): Today you need to be gentle. The changes that are going on are good for you, but they're a little scary for somebody else. You need to explain what's happening so this other person doesn't worry any more. Don't make fun of somebody who's not keeping up. Instead, go back to lend a hand.

Taurus (April 20-May 20): There's a problem this morning. Somebody wants to spend too much money. Isn't that typical? They're always asking you for advice and they never seem to take it. If the situation comes up again, the best way to handle it is to try to find the checkbook and hold on to it.

Gemini (May 21-June 21): The moon is in Libra. This was going on yesterday, too, except there's a bit of a complication. That moon will be Squaring Mars and Venus in Cancer. That means you could easily spend more money than you have on fun and games. Be careful. This is not a good idea.

Cancer (June 22-July 22): If anybody owes you money, call them up and ask for it. They won't mind. In fact, they've probably been thinking about sending it to you. All they need is a little reminder. It may be possible for you to buy the thing you want after all. Where there's a will, there's a way, and you certainly have the will.

Leo (July 23-Aug. 22): You've got a Grand Trine going on and it looks like you're pretty darn lucky right now. You could have an amazing breakthrough in the area of romance, too. Are you in love yet? If not, watch out. If you are in love, this whole thing could kick into high gear.

Virgo (Aug. 23-Sept. 22): Right now, you're more likely than usual to be extravagant. You're not really comfortable with being extravagant and tend to be more careful with your money than that. Today, however, you might find yourself blowing it, almost by accident. If you really want something, buy it. But do it with your eyes open and read the fine print.

Libra (Sept. 23-Oct. 23): You could rub an authority figure the wrong way without saying anything. You're very successful and cute. This older person is cranky and not nearly as popular. Be respectful, nice and kind. If you make this person into a friend, you could get a promotion and it's certainly no skin off your back.

Scorpio (Oct. 24-Nov. 21): Several people have figured out what you're supposed to be doing and they've sent their emissary to tell you. The trick is to convert the emissary over to your way of thinking. This is possible. This other person respects and admires you, so you have an advantage. Use it to get ahead.

Sagittarius (Nov. 22-Dec. 21): Group activities are again favored, but take care. It looks like this one could cost you quite a bit of money. Don't get into it without taking that into consideration. Of course you do want to go along with the gang and do whatever they're doing. Just make sure you know what they have in mind.

Capricorn (Dec. 22-Jan. 19): The moon is in Libra and Libra is in your Solar Tenth House of success and career. You're the boss type and Libra is more often the ditz type. They never can seem to make a decision which is why they need you; you're very good at that. Tell them what to do and you'll become indispensable.

Aquarius (Jan. 20-Feb. 18): A distant contact could bring you the information you need. He or she can

also help you handle a stressful situation better. You can do the same thing back. Both of you are under some pressure now, but all in all, things are going well. Don't blow a little upset out of proportion. Count your blessings instead.

Pisces (Feb. 19-March 20): It looks like a dream seems unachievable. It's something you and your sweetheart both want but you can't figure out how you're going to afford it. Actually, the answer to that puzzle came yesterday. You're going to have to work for it. If you don't know how quite yet, don't worry, that will become obvious later.
