Daily Horoscope For entertainment purposes only

Aries (March 21-April 19) You'll he meeting new people, some of them very, interesting, since Uranus in Aquarius indicates surprises. Actually, Uranus is retrograde in Aquarius, so you might meet someone you've known before. Venus is going into Libra, meaning love is especially likely to happen. This could get really interesting.

Taurus (April 20-May 20) The sun's in Libra, and Venus goes there today. The bad news is that Venus is leaving Virgo, where it was bringing you luck in love. The good news is that, in Libra, it will bring you luck in your work. Well, by now your romantic life should be thriving. You can afford to go ahead and get more involved with your work.

Gemini (May 21-June 21) Con-**XX** ditions are emphasizing the areas of love, romance, children and games. You'll have plenty of all that for the next several weeks. Even better, you're looking marvelous. You're intelligent, witty and gorgeous, and you're attracting a lot of attention. When you've got it, flaunt it! Today, you've definitely got what it takes.

Cancer (June 22-July 22) You may have been a little worried about money lately. There are just so many things you want to do with it. Something about your place is getting uncomfortable, and you want to change it. You'll get what you want. It's just a question of how long it's going to take. So, relax.

Leo (July 23-Aug. 22) The sun is in Libra and Venus is going into Libra today. Venus represents love, and Libra represents learning. So, guess what? You love learning, or at least will for the next several weeks. Tackle a difficult subject during this phase and it'll almost seem like fun.

& Virgo (Aug. 23-Sept. 22) It's time to get back to work. There's a difficult assignment coming up, but you'll be able to master it. And it could pay very well. If you don't already have something like that on your plate, look around, perhaps even in the want ads. There's somebody who needs something done and it requires skills you have.

Libra (Sept. 23-Oct. 23) This looks bod like a fun couple of days. Venus, your ruling planet, is going into your sign this evening, so you'll be even more loving, compassionate and warm-hearted than usual. You'll start doing it without even thinking about it. It looks like the lesson you've been studying is just about learned, so congratulations!

Scorpio (Oct. 24-Nov. 21) You've got your agenda in mind, and for the next several weeks others will be interested in hearing your pitch. The problem right now is at home. While opportunities are opening up, you're experiencing conflicting demands on your time. Make domestic issues a top priority. The other conditions will be in effect for several weeks.

Sagittarius (Nov. 22-Dec. 21) Ficovered. Everything's aligned for your success, but a little work is required on your part. You will have to let people know what you want, so they can provide whatever you're lacking. They'd be delighted to do so. The same thing goes for your private life, too, by the way.

Capricorn (Dec. 22-Jan. 19) You could be in the money right now, and you already know how to spend it. There's something you've wanted for quite a long time, and odds are good you'll find it on sale if you look. More career opportunities will be coming up in the weeks ahead, so go ahead - buy that treat you've been wanting.

Aquarius (Jan. 20-Feb. 18) You Aquarius (Jan. 20-10). 10. look marvelous, and you're feeling stronger. You're settling down and not worrying so much. You've already checked a lot off your list, right? You were supposed to do that yesterday. If you didn't get all the way through, finish up first thing, because stuff is starting to move. When it gets going, there's no stopping it.

Pisces (Feb. 19-March 20) It'll be easier during this phase to get a loan, or pay off bills, possibly both. You'll also be in the mood to buy gifts. You enjoy that, but sometimes you go over budget. Well, you're in luck. There may be another way to make money. Dig through those papers on your desk and see if there's another opportunity in there.
