WANTED

Writers, Photographers and Graphic Artists
Stop by the 3rd floor of Russell House or call 777-3888 today!

Daily Horoscopes

- Aries (March 21-April 19)** The work is intense today, and complicated. Minimize distractions so you don't make mistakes. It's Veteran's Day, one of your most emotional holidays. You'll want to pay your respects, of course, and do it in a way that shows the depth of your appreciation. Don't let this one slip by. It's important to you as well as to them.
- Libra (Sept. 23-Oct. 23)** You're up against the deadline. There's a lot you wanted to have done by now, and it hasn't all been handled yet. If you focus on the details, you'll do fine, but you have to keep the overview in mind, too. Don't get bogged down in the little stuff.
- Scorpio (Oct. 24-Nov. 21)** Get together with friends this morning and figure out what your next project is going to be. You've noticed areas in your neighborhood that need tidying up, and now is the time to take action. Don't wait for somebody else to do it. Just handle it yourself. You're probably the perfect person for the job.
- Sagittarius (Nov. 22-Dec. 21)** Something you've been trying to learn will finally start to make sense. Keep after it, even if it seems impossible. Learning is not a passive task. It requires your participation. You have to keep asking the tough questions, even if you keep getting negative answers. Keep that in mind as you ask again for something you didn't get before.
- Capricorn (Dec. 22-Jan. 19)** You've been studious long enough. Now it's time to have fun. Pry yourself free from your routine and try something new. Take a different route to work or venture a little further on your lunch hour. There are all sorts of interesting things out there. Today, plan on finding at least three of them. This is only the beginning.
- Aquarius (Jan. 20-Feb. 18)** Money is the problem right now -- how to get it, how to spend it, all that stuff. There are regulations to be followed and probably paperwork to fill out. Once you know what you're after, the rest is going to be easy, so make that your first priority.
- Pisces (Feb. 19-March 20)** Put the finishing touches to the job you've been doing all week. It doesn't quite look like you wanted it to, but that's OK. You can change your ideas to fit reality, and you can also change reality to fit your ideas. By doing both, you can reach a compromise you can live with. That's your assignment.
- Virgo (Aug. 23-Sept. 22)** You're coming into your own a little more today. The moon's in your sign, as is Mars. That means you're strong, aggressive and careful. You want everything to be perfect, and for the next few days you can make that happen. Go ahead and be outrageous about it, as you request perfection from others, too.
- Cancer (June 22-July 22)** You'll find it easy to learn today, and your attention to detail will be awesome. You have an excellent memory, but right now you're going to surprise even yourself. If you have a difficult job to do, go ahead and study it now. You'll be amazed at how much easier it becomes once you have the instructions down by heart.
- Leo (July 23-Aug. 22)** You'll have the opportunity to make money today. It'll require service on your part again. That's not easy for a Leo, but if you can master this trick, you could wind up quite wealthy. You won't care about having the wealth for yourself, either. You'll want to use it
