Daily Horoscopes

- Aries (March 21-April 19)**
Your ideas are starting to emerge triumphant. It's almost like judgment day is coming. As an Aries, of course you take a firm stand for liberty and justice, and you're about to be vindicated in ways that you could never have done all by yourself. The universe is on your side, and it's about to become obvious.
- Taurus (April 20-May 20)**
There are rumors going around. They're all the truth from somebody's perspective, but which one really is true? You get to help sort that out, and, of course, you have your own agenda, too. It doesn't look good for any kind of surreptitious activity. If you had planned any sort of covert maneuver, forget it.
- Gemini (May 21-June 21)**
You might be gathering more information now than you know what to do with. Some of it might not seem to make any sense. That's because the truth isn't always the same as the facts. Keep looking for the facts by gathering up as many people's truths as you can, and you'll see. Eventually it will sort itself out.
- Cancer (June 22-July 22)**
The sun is almost into Sagittarius. Venus, Pluto, the moon and Mercury are there too, in your solar sixth house, indicating health and service to others. Since Cancer's the sign of the chef, maybe you'll be cooking during the upcoming holidays. Why not take advantage of conditions and plan a menu that's health oriented?
- Leo (July 23-Aug. 22)**
There's a lot of talking going on. People want to clear the air. Perhaps you can put work on hold for a while and take care of these other, more personal, matters. You're in a good position to deal with some of the emerging problems, so make time to do it now. It'll be more difficult, the longer you wait.
- Virgo (Aug. 23-Sept. 22)**
Mercury, your ruling planet, is in Sagittarius, inspiring you to mess around with things at home. It's going retrograde tomorrow. That tends to push us back to something we've done before, or to complete old business. Right now, however, Mercury's direct. You can still start something new today. But hurry.
- Libra (Sept. 23-Oct. 23)**
The emphasis is on education again. You're either teaching, learning or - knowing you - both. You assimilate information, then turn around and dispense it almost as quickly as you got it. You're like a conduit for information, and that's certainly going to be the case today. Pay attention, though, so you don't make mistakes.
- Scorpio (Oct. 24-Nov. 21)**
Money looks good today. If you can find it, you can have it. It's almost like searching for buried treasure. In fact, it may literally be that. Do the digging, and you could be richly rewarded. The biggest barrier to your success is the possibility of getting distracted by love. That doesn't sound too bad either, does it?
- Sagittarius (Nov. 22-Dec. 21)**
Mercury is going retrograde in your sign tomorrow. If you want to start new projects, you'd better get going now, especially concerning your career. A request for a promotion or raise is much more likely to go through today than tomorrow. Don't wait. Make your case; the odds are good you'll get what you want.
- Capricorn (Dec. 22-Jan. 19)**
It'll be hard to keep a secret today. Everybody else is buzzing with the latest news. Don't get involved. The cards are not all on the table yet. Somebody's holding something back. You can help them spill the beans by asking leading questions. That's your best plan for the day.
- Aquarius (Jan. 20-Feb. 18)**
You're just about to get sprung free, and you really are looking forward to this weekend. Looks like what you've been doing has been working. Even if it hasn't turned out exactly as planned, at least you're getting through it and on to what's coming next. And that's a party, starting tomorrow.
- Pisces (Feb. 19-March 20)**
An older person simply doesn't understand what you're talking about. You have to say it over and over again, as clearly as you can, until all of a sudden, ta da! Learning takes place! That's the moment every teacher waits for. Be persistent. This is going to be a tough nut to crack, especially if the person outranks you.
