**Daily Horoscope** 

Aries (March 21-April 19) It's time to take account of your money, how much is left and how much you've spent in the last couple of days. It might be considerable since you've been moving quickly. Count your profits and losses, but don't tell everyone about it. Keep most of that information secret for a while.

Taurus (April 20-May 20) Good news about a family member should brighten your day. Although you can't be together right now, just knowing everything is working out fine is comforting to both of you. Your judgment should be good today, so use it, especially if there's a disagreement between powerful people. You might be the only one who's being objective.

Gemini (May 21-June 21) This is a good day for doing homework although it'll be a little different than usual. You're taking this class on

your own, figuring it out as you go along. You've got people around you who are experts at this game. You may not feel like you're in their league yet, but you will be if you watch and listen.

Cancer (June 22-July 22) The buzz you've had going over the last few days is prob-ably starting to fade, and you might be worn out by now anyway. Looks like a good day to get together with friends and discuss what you've recently accomplished. There are still a couple of problems, and your friends can help you solve them.

Leo (July 23-Aug. 22) Getting ahead, especially in a big corporation, is going to be really difficult right now, unless you conform. At least make a pretense of doing that, and you'll stop catching so much flack. Then, after you get into a position of leadership, you can be the one who

calls the shots and sets the routine.

Virgo (Aug. 23-Sept. 22) We were talking about saving money earlier this week, for your future security. The condition in effect now concerns putting money away for fun, a vacation or some other treat you could promise yourself. That's more fun to think about, isn't it? Make it your goal, and you'll get into the habit of saving. The rest will come easily.

D<sup>4</sup>D Libra (Sept. 23-Oct. 23) If you're like most Libras, the perfect world for you is one where you don't have to worry about money. It would just appear whenever you needed it. Well, today, that could happen. It's a good day to ask for a loan, or to see your invest-ments prosper. If you don't have any investments, it's also a good day to start some.

Scorpio (Oct. 24-Nov. 21) Early in the day, you'll notice that you're racing around, trying to get a lot done in less time than is possible. Later on, you won't care so much about meeting the deadlines. You work well with a cool, calm and collected type of person, so see if you can make that happen.

Sagittarius (Nov. 22-Dec. 21) Although you may not want to admit it, most Sagittarians are party animals. You like the fun part, but you'd just as soon delegate the drudgery to somebody else. And if you can figure out a way to do that now, you might even be ahead money.

Capricorn (Dec. 22-Jan. 19) Lately, you've been pushed to complete a big project, and if you did, congratulations. If not, you get to think about it a little longer. Conditions now encourage you to settle into whatever you've accomplished

so far. Ruts are no fun when you're trying to get out of them, but when you're tired, a rut can be a nice place to rest.

Aquarius (Jan. 20-Feb. 18) If you're going to take a day off work this week, this should be it. You need to stay home and rest and get your energy level built back up. Let your boss know you'll be using the time to good advantage - if you can get it. Then, proceed to do that in the comfort of your own home.

Pisces (Feb. 19-March 20) Sometimes you are such a good actor or actress, you can convince other people that you know a lot more than you really do. You might have done that recently. Now, you have to catch up. If you hurry, you should have the skills to handle a difficult task by the time you're actually asked to do it.
