HOROSCOPES

Aries (March 21-April 19) You might feel stuck, but it's a temporary condition. Use the time for planning. You're in an analytical frame of mind, most likely. One of your friends definitely is. Kick around a few ideas with that person so you're ready. Things could start moving quickly soon.

Taurus (April 20-May 20) The person who's been giving you such a rough time is about to give up. That's how you so often win, just by outwaiting the other guy. Besides, you learn from their mistakes. Pretty smart. Go ahead and do it again.

Gemini (May 21-June 21) All sorts of exciting new things are in the works, but first, you need to finish up old projects. If nothing else, you'll make room on your workbench or in your office. There's a bunch of old stuff you can throw away, too. You hereby have permission.

Cancer (June 22-July 22) If you've been saving up for a trip, it's almost time to go. If you haven't been, well, maybe you should be, starting now. Pick a destination that lights you up. Having an exciting goal makes even the boring jobs more fun.

Leo (July 23-Aug. 22) People talk about opportunity knocking, but this time, you're knocking on opportunity's door. It helps to know what you're doing and how much your service is worth. You've got that down, so get out there and sell it!

Virgo (Aug. 23-Sept. 22) Money has never been a major focus of yours. You're always more interested in service. That's a good way to be, especially today when service and money are linked in your favor. And, that's the way it is for you right now.

Libra (Sept. 23-Oct. 23) A new project is coming up soon, at least one. Better finish up whatever you're working on now as quickly as possible. A new way of doing things can help you be complete, so be open to suggestion.

Scorpio (Oct. 24-Nov. 21) Today, the lesson pertains to delegation. The more you can delegate to someone else, the more time you'll have for fun and games. Definitely do that because by tomorrow, you'll be in the mood to play.

Sagittarius (Nov. 22-Dec. 21) Everything changes today, some things for the better, some for the worse. The better part is that the obsession with details is about to end. For you, that'll be an enormous relief. The worse part is that something at home needs to be fixed.

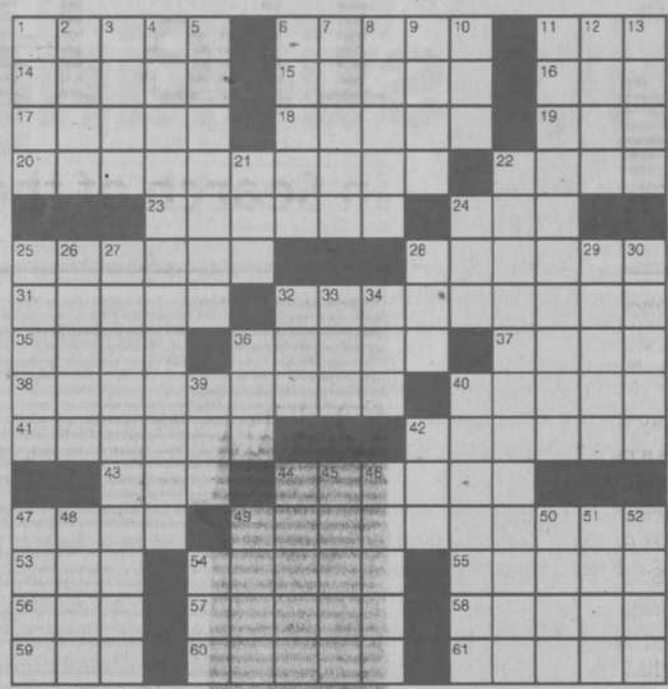

Capricorn (Dec. 22-Jan. 19) You should be in a creative frame of mind right now, creative and somewhat larcenous. It's OK to charge what you're worth and get it, and right now your talents could bring a pretty penny. Let people know what you can provide for them and cinch the deal.

Aquarius (Jan. 20-Feb. 18) As you wend through life today, you'll notice a strange juxtaposition of fantasy and reality. You have some great ideas about what you'd like to do, but can you really afford that? Maybe you can. Get real, and maybe you'll make a fantasy come true.

Pisces (Feb. 19-March 20) You're getting stronger, and you might attract more attention, which could be rather annoying. People might ask you to do things. In the relative peace and quiet of obscurity, you have time to think. Nice guys only finish last if they don't plan ahead.
