HOROSCOPES

Aries (March 21-April 19) You should focus on partnerships today. You're usually the captain, but it never hurts to have a mate. People want to follow you because of your charming attitude. You shouldn't have much trouble finding somebody who'd like to play on your team. From those, select "the one."

Taurus (April 20-May 20) This is a good day to ponder, strategize and figure out what you're going to do next. Focus on your work. That's important now. Advancement is possible, and you can make a good impression without much trouble. Love will be best in a private setting.

Gemini (May 21-June 21) You're mind is active today. You will make a lot of points, just by being you. You have an admirer from far away. Might as well put on a show, as long as you have an appreciative audience. By the way, pay attention to what you say and when you say it.

Cancer (June 22-July 22) You've just about figured out how to get what you want for your home. It may be tomorrow before you really come to a conclusion. That's OK. If you wait a little longer, you may save even more money. And, that's one of your primary objectives, right?

Leo (July 23-Aug. 22) Just about everything is lined up in your favor. There is one authority figure who's still watching to see if you really can do what you say. No problem. You can meet and exceed this person's expectations with half your talent tied behind your back.

Virgo (Aug. 23-Sept. 22) You are figuring out how to make more money so you can pay off old debts. Travel may beckon, too. That's a nice carrot you can dangle in front of yourself. There's lots of work to be done, and the pay looks good. Cover for a friend and make a nice nest egg.

Libra (Sept. 23-Oct. 23) You're lookin' good today. Friends and group activities are all favored. It might be hard to find private time because you have so many people to see. Focus your attention on more practical matters. You may wish you had more money soon.

Scorpio (Oct. 24-Nov. 21) You may be having fits. Somebody wants to boss you around, and you never have liked that. You'll have a huge advantage soon, so take it easy. Don't get yourself too riled up. Besides, you may not have enough information yet. Cool it and see what develops next.

Sagittarius (Nov. 22-Dec. 21) You're going to be willing to try something a little bit outrageous. It's a stretch, but that's OK. Before you jump off the edge, however, check to make sure you have a safety net in place. Wouldn't hurt to have a good support system, too.

Capricorn (Dec. 22-Jan. 19) During this phase, you're getting some attention that you may not really want. You may wish you could hide out. You might also wish you had a little more money. Amazingly enough, you want the money to play! It's hard to find enough private time, but you can.

Aquarius (Jan. 20-Feb. 18) You're faced with some sort of adventure. Are you being tempted to go back to school, to teach a class or to publish a book? Any of those venues would work well for you right now. It wouldn't hurt to have a partner, either. You'll reach more people that way.

Pisces (Feb. 19-March 20) The good news is that there's plenty of work to be done. You're also making a fabulous impression on an older person. Stop worrying. Keep going to school, learning new skill and getting prepared. That's your assignment for right now. This could turn out to be kinda fun.
