

RUSSIAN TRIVIA
QUESTION OF THE WEEK:

To what period in Russian History does the term 'thaw' refer?
ANSWER: The term 'thaw' was first introduced by Ilya Ehrenburg whose famous novel 'The Fall of Berlin' defined the period of Khrushchev's cultural liberalization of the late 1950s and early 1960s. In 1956 Khrushchev delivered the famous 'secret speech' at the 20th congress of the communist party where he denounced Stalin's crimes.

**Should Creation
Be Considered
Scientific?
Should
Evolution?**

Is there really any way to connect science with creation? Is evolution a trustworthy fact or an unproved theory in which we have too much faith? Is there scientific evidence for either creation or evolution? Are we meaningless products of chance or the planned creation of an intelligent designer--God?

There is evidence you should hear. There are answers you should know about. Hear a credible authority speak on this issue. Mike Riddle is member of the adjunct faculty of the Institute for Creation Research, in El Cajon, California. He will be speaking at a seminar Saturday night, October 30 at 6:00-7:15, and again at 7:30-8:45, at Victory Bible Church in Irmo. The church is located at 10245 Broad River Road, 1 mile past the Bi-Lo at Friarsgate Plaza when heading towards Ballentine.

Mike's first topic will be: *Creation or Evolution: Does It Matter What I Believe?* His second topic will be: *Origin of Life.* There is no admission fee, but seating is limited. You may call the church at 781-6970 for more information. Rev. Chris Shepler is the pastor.
