HOROSCOPES

**Aries** (March 21-April 19) You're busy, and you've got a good support system. Don't undermine that by making life difficult for somebody you love. An older person's request might clash with something your partner wants. Money's important, but it's not as important as love.

**Taurus** (April 20-May 20) Complications are abundant. It's not a good day for travel, so keep that to a minimum. Let your fingers do the walking. Search out the best deal before you buy. You'll save a lot of money with a small but brilliant investment of time.

**Gemini** (May 21-June 21) You look good today. You're smart and imaginative. Your curiosity could get piqued, too. Be careful, however. The information you gather may not be completely accurate. Sort out the fact from fiction before you act.

**Cancer** (June 22-July 22) Entertaining at home could work for you over the weekend. Planning is required, however. This may get in the way of a work-related project. The complications are not all your fault. Let people know if it's going to be late and don't feel guilty about it.

**Leo** (July 23-Aug. 22) You can fix something around your house and save a lot of money. Of course, if you mess it up, the whole thing will cost you more. If you haven't inspired much confidence yet, maybe it's because you're unsure of yourself. Study more before you act.

**Virgo** (Aug. 23-Sept. 22) Money and learning are tied together for you right now. It's been said that the more you know, the more valuable you become. You're worried about others' problems, so how will you have time for your own? That could be the key to your success, actually.

**Libra** (Sept. 23-Oct. 23) You're cute today. The minor difficulties that crop up will be overcome easily. If you or somebody you love needs cash, don't worry about it. Talk it over with a partner and discover hidden funds.

**Scorpio** (Oct. 24-Nov. 21) Your hopes, dreams and fears are activated today. You've dreamt of making certain things happen, but you're not sure how. You hate being indecisive — and you don't have to be. It's a natural part of the creative process. Investigate today and decide later.

**Sagittarius** (Nov. 22-Dec. 21) There are so many interesting people out there, and there is so little time. You'll have to make some tough choices. You can't be everywhere although you'd love to do that. Batch as many of them together as you can.

**Capricorn** (Dec. 22-Jan. 19) You're trying to please somebody, but it's not easy. Don't expect the other person to make up your mind for you. It's more likely to be the other way around. Just tell them what to do, and the whole project will go more smoothly.

**Aquarius** (Jan. 20-Feb. 18) You may try to get out of a difficult situation. Somebody else is leaning on you, and a little of that goes a long way. Your mind's not on your work. Pay attention to avoid making messes.

**Pisces** (Feb. 19-March 20) You're most likely thoughtful, creative and decisive now. This will help you get from the vision to the reality more quickly than usual. Start by sorting through your visions and picking the one that could actually work. That will help a lot.
