HOROSCOPES

Aries (March 21-April 19) You are full of questions, but you're not getting all the right answers. You shouldn't give up. You may not have completely dominated your competition yet, but you are wearing them down. Persistence is a marvelous skill to acquire. Practice.

Taurus (April 20-May 20) Other people are in the mood to talk. So, ask leading questions of the people who know, and then take notes. You are naturally good at saving money, but you could be better. Don't learn more because you have to; do it because it's so much fun!

Gemini (May 21-June 21) You are amazingly intelligent right now. Not only are you curious and quick, but you also have patience and persistence. All of this is important if you're going to master a complicated subject. Get a friend to help, too, just for the fun of it.

Cancer (June 22-July 22) Dig through the papers and find all the good deals. The early bird gets the worm, right? Well, that goes for crustaceans, too. Think how miserable you'd be if you found a double coupon for your favorite item after it had already expired!

Leo (July 23-Aug. 22) You could stumble into an interesting discussion. A friend of yours is an expert in something you'd like to know more about. Hang out around that person as much as possible now. You could pick up more valuable information than you would in a master class!

Virgo (Aug. 23-Sept. 22) A person who's pushing you hard could be right. There's plenty of work to be done, and you can learn to do it their way. Don't do it all for the same money, however. You're being trained, and the more well-trained you are, the more you're worth.

Libra (Sept. 23-Oct. 23) You are the lucky one, three out of three! You have a grand trine in air signs, and that's all good! Use your magnificent talent with words to talk your sweetheart into doing what you want. It'll be easy!

Scorpio (Oct. 24-Nov. 21) You should be able to find a good deal or two. If you try to buy something from a private party, you're sure to hear a long story about its history. If you tell them what you think it's worth, however, that's probably all you'll have to pay for it.

Sagittarius (Nov. 22-Dec. 21) You could run into a few conflicts today — and possibly even an argument or two. That's partially because you're doing things differently than before. You're not content with the status quo. You're growing, but sometimes that's awkward. Relax.

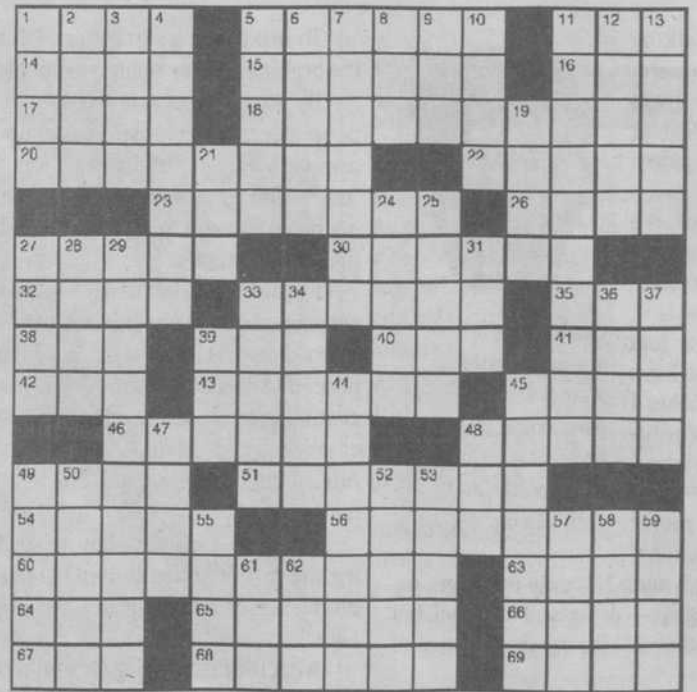

Capricorn (Dec. 22-Jan. 19) Go through your correspondence carefully. There's a way of making or saving money that you haven't stumbled onto yet. It's practically underfoot, so it could happen at any moment. If you go through a nearby stack of paperwork, you may find it.

Aquarius (Jan. 20-Feb. 18) You may run into a bit of a problem. Something you'd like to purchase for a loved one is simply too much money. A fix you've figured out for something at home could work, however. That doesn't cost you much at all. So, it all evens out in the long run.

Pisces (Feb. 19-March 20) You may discover things you didn't know about your home or family. If you're in escrow, this is good. Better you should find out now, than later. If you're not in escrow, you might be by the time the next few days are over. After that, you'll be in the mood to make big changes.
