HOROSCOPES

**Aries** (March 21-April 19) Your nerves could be a bit on edge. Instead of worrying about that, use it to your advantage. Your antennae are more sensitive than usual. You could pick up a vibe or an innuendo that will clue you in to potential danger. Listen.

**Taurus** (April 20-May 20) You're learning quickly and with enthusiasm. If you get out, you might also meet some interesting new friends. Get involved with a group who can inspire you to unleash your own creativity. Don't just sit there; go DO something!

**Gemini** (May 21-June 21) More education could lead to an increase in your income. That's a theme you'll hear over and over again. That's because for you, it's always true. And now, it's even more true than ever before. Don't get stuck in a dead-end job. Take a class. Read a book.

**Cancer** (June 22-July 22) A few things need to be cleaned up around your place. You still need to buy things at the store, too. The sooner you get all those little things out of the way, the sooner you can get creative again.

**Leo** (July 23-Aug. 22) People will have a tendency to be wimpy today. Take care. A person you yell at, all in good fun, could take offense. You could find yourself on the ugly side of harassment litigation if you're not careful. Be nice, as if it really mattered, which it does!

**Virgo** (Aug. 23-Sept. 22) Do you have the next few days planned out? Discuss your schedule with your friends and family and make a few improvements. You've got everything down on your list except for one thing, and it's the most important. Do you have time slotted for fun?

**Libra** (Sept. 23-Oct. 23) You are expected to act a certain way. There's no point in arguing; the other person outranks you. This is not going to be easy, but it could be quite lucrative. In other words, look sharp. You can relax later.

**Scorpio** (Oct. 24-Nov. 21) You have a grand trine in water signs today. That means your intuition should be excellent. You may have a technical problem to deal with at home, however. Well, it'll get handled. You may not know how, but somebody does. Get them to help.

**Sagittarius** (Nov. 22-Dec. 21) You are cautious about allocating your resources. You may not have thought of yourself of a penny-pincher, but that's what seems to be happening now. You would like to splurge on educational materials, and that's OK. Do without food; buy books.

**Capricorn** (Dec. 22-Jan. 19) You should think about partnerships, legal matters and money. If you're having any problems with finances, loans, investments or taxes, get expert help. You may know a lot, but you can't be expected to know everything!

**Aquarius** (Jan. 20-Feb. 18) The sun's in your sign, and the moon's in Cancer. This means you're strong, but you also must be gentle. If you're so smart, you should be able to figure out what's going on. You'll never get there by talking or explaining. Listen, instead.

**Pisces** (Feb. 19-March 20) The phase is about to change in your favor. Better get ready. Clear the cobwebs out of your workbench and dust off your hopes and dreams. You don't have to worry; your fears are only in your mind. As you exercise your creativity, they'll dissolve.
