HOROSCOPES

Aries (March 21-April 19) You've recently gone through an intense introspection. This is good, and now you're about to get creative again. You'll take off like a rocket soon. Heed the advice of a friend who tells you to be cautious about money. That could be me, actually.

Taurus (April 20-May 20) You'll have a lot to think about for the next couple of days. Do your planning now so you're ready to take action at the end of the month. Figure out what you want, what it looks like and how you're going to get it.

Gemini (May 21-June 21) You and your teammates should have a great time now. Meet with as many people as possible, especially to advance your career. Don't hesitate to accept an offer or a good deal. You're right; you don't see ones like that every day!

Cancer (June 22-July 22) You may get to take on more responsibility. Do you see something that needs to be done? How difficult can it be? Others can do it, so you can learn. Rely on the counsel of your friends, too.

Leo (July 23-Aug. 22) For you, this is a day to travel. You might make some good contacts with people who are far away, too. Research the deals you can get through catalogs and the Internet. You may be pleasantly surprised.

Virgo (Aug. 23-Sept. 22) This is an intense day. Money you share with others is the focus of your attention. It's required because you can't get what you want by yourself. Don't rush into anything but move quickly. Once you know what you want, all you have to do is get it.

Libra (Sept. 23-Oct. 23) Somebody who's enthusiastic could have you spellbound. You have strong opinions, too, but you might have a hard time remembering what they are. This other person has charmed you. If he or she is headed in the right direction, relax. Let this person do the driving.

Scorpio (Oct. 24-Nov. 21) The workload is intense, almost at emergency level. Tempers could be short, too. Try not to think about something that's going on at home, or will be as soon as you get there. Don't botch the job, or you'll have to stay longer!

Sagittarius (Nov. 22-Dec. 21) Romance, games and children are you foci today. A little work must be done, too, but that's OK. Your energy level's high, so it shouldn't take long. Get it whipped into shape, so you can get out of there and play with the kids.

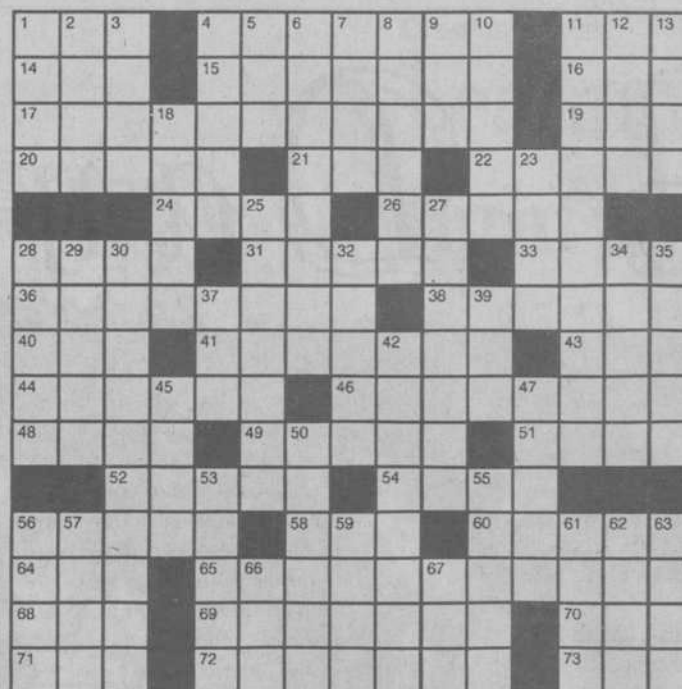

Capricorn (Dec. 22-Jan. 19) You're most likely in the mood to change things at home. Have you been dying to throw something out? Having nothing might be better than having stuff you don't like. Also, you could sell it to help pay for the new stuff.

Aquarius (Jan. 20-Feb. 18) This looks like a busy day. You're learning quickly, too. You can find most of what you need, but not everything. This makes for a fascinating game. And, it's the kind of game you love best!

Pisces (Feb. 19-March 20) You may want to buy out the store, but don't. Only buy things that will increase your earning capabilities. Speak up, and maybe you can get a raise or a better job, too. Don't worry; rich people can get into heaven. Just think of all the good you could do!
