HOROSCOPES

Aries (March 21-April 19) This looks like an excellent day for you, financially. A partner could be one source of income. Somebody from far away could play a part, too. Don't share your winnings with a friend, however. You could blow it in less time than it took to make it.

Taurus (April 20-May 20) You can make a positive impression on a lot of people. You're the star of the show, and no telling where that reputation might lead you. You generally like to keep a low profile, but your cover's slipped. Don't worry; you'll survive.

Gemini (May 21-June 21) You're in a lucky phase with romance, games and children. You're also under a bit of pressure. Interestingly, the very thing you were afraid of doing could turn out to be easy. A person who's intimidated you could turn into a friend.

Cancer (June 22-July 22) You might be drawn to a beneficial group soon. This could be somebody who you meet through work or by surfing the net. Either way, you'll be a good influence, and vice versa. Give people who are out to serve their own self interests a lot of room.

Leo (July 23-Aug. 22) You're in the mood to catch up on your reading, most likely. You may not get to travel as a result, but don't despair. The extra time doing research could make the journey more enjoyable, anyway, later.

Virgo (Aug. 23-Sept. 22) The work you're doing is bringing in plenty of money. If it's not, that's the first thing you ought to do. The right job is out there with your name on it. All you have to do is find it. Travel or an overseas business venture could work well, too, eventually.

Libra (Sept. 23-Oct. 23) You should think about investments and your future. You may have a tendency to rely on other people for what you need. Today, figure it out on your own. Don't force your partner to make all the decisions; make a few choices yourself. You can do it!

Scorpio (Oct. 24-Nov. 21) You may be concerned about something at work. Are you too busy to see straight? Is a co-worker driving you crazy? This is a good day to talk things over and to reach a compromise. Do it even if it means letting go a little.

Sagittarius (Nov. 22-Dec. 21) You're always interested in your friends. You have a lot of them, too. You could possibly come up with a new business idea together. Write it down and start studying. It could work once you learn how to do it. That's the tricky part!

Capricorn (Dec. 22-Jan. 19) You may have to juggle between your domestic and career demands. Your house may be full of little kids or other company, too. The evening's good for playing games, but don't bet more than you can afford to lose. The oldest member of the group's most likely to win.

Aquarius (Jan. 20-Feb. 18) A friend may have something you can use. Let people know what you want and what you have in trade. Another person's trash could be your treasure, and vice versa. That's especially true, right now, regarding household items.

Pisces (Feb. 19-March 20) If you've thought of going back to school, it's quite possible somebody else might fund it. Student loans are one way, but grants and scholarships are out there, too. Don't be shy; start asking around. You'll either get a 'yes' or a 'no,' that's all.
