HOROSCOPES

Aries (March 21-April 19) You may be outnumbered and outvoted, but never outclassed. Show you're one in a million by going along with your mate or partner's suggestion. He or she probably cares more about this than you do.

Taurus (April 20-May 20) You may be facing a mountain of paperwork, but don't despair. You should be in good shape to handle it, now. Besides, several valuable treasures may be buried in there. Pretend you're mining for gold.

Gemini (May 21-June 21) You just got a whole lot luckier, especially in love! The person you're after may be playing a little hard to get, but don't give up. He or she just wants a lifetime commitment. But, hey, in case you didn't know it, that's the best kind!

Cancer (June 22-July 22) Does your home need a major renovation? Is it time to paint the kitchen? Get new furniture? Move? Don't panic; it doesn't all have to be done in the same moment. Set priorities and break the job into bite-sized bits.

Leo (July 23-Aug. 22) You'll be surprised at how much you can learn, in a relatively short period of time. Pick a topic you've always wanted to do well and give it a try. The conditions in effect now will be especially beneficial with creative endeavors. So, build something.

Virgo (Aug. 23-Sept. 22) You might do well financially, but it won't be easy. You'll have to use all your skills. Provide a service that others don't like to do. That's one of your best talents. Keep costs low and charge top dollar. This could be your winning formula.

Libra (Sept. 23-Oct. 22) You can have just about anything you want. The exception might be a gift you'd like to buy a loved one that you can't afford. But, you know what? Even that might be a lucky break. If you turn it into a goal, you could be inspired to greater heights.

Scorpio (Oct. 23-Nov. 21) Your lucky break should come about Friday or Saturday. In the meantime, continue to plan. Find out as much as you can so you'll be ready when the right time comes. Ask questions. Somebody's liable to tell you more than they should.

Sagittarius (Nov. 22-Dec. 21) Your friends are great to be around, and you've got a lot of them. You've had a couple of tough days lately, so make time for yourself. Going out a week night is usually not a good idea, but you might get away with it. The heat at work is off for a while.

Capricorn (Dec. 22-Jan. 19) Whoa! You'd better cool it for a while. Don't get cocky, especially around the person who signs your paycheck. Don't be too bold with traffic cops, either. Be respectful, even if you feel you know more than the other person. You might not.

Aquarius (Jan. 20-Feb. 18) Go along with a sweetheart's request and sail past the only potential problem. Give up something you don't have yet to get something better. A commitment is required. A bird in the hand is worth more than two in the bush.

Pisces (Feb. 19-March 20) Money's still a potential problem area. You and your partner may have to count it all again and figure another way to get more. You can do it. That's the good news. Don't let your tension cause a fight. That's not necessary.
