HOROSCOPES

Aries (March 21-April 19) Start off with an important meeting. Make promises to your team and get their promises in return. After that's done, you'll be free to take off on an adventure. Don't go too fast or too far, however. And, pay attention.

Taurus (April 20-May 20) Interesting conversations are going on behind locked doors. Overhearing what they're saying shouldn't be hard. Some of the people may be hollering at each other. You're not snooping, really, you're just gathering information.

Gemini (May 21-June 21) A group outing could be fascinating. Looks like they're moving quickly, though. You want to stop and read all the signs. They're just interested in the hike. Don't worry. You can get a book on the topic at the library later.

Cancer (June 22-July 22) The people at the top of the food chain will be even more aggressive than usual. You find that rather annoying. Why should you be put out because somebody else didn't manage their time properly? Probably because that's your job.

Leo (July 23-Aug. 22) Everybody wants to order you around. Your partner has figured everything out and has no room for your input. A friend is also being bossy. Unfortunately, this will go on at least another day. Keep your lip zipped.

Virgo (Aug. 23-Sept. 22) The work is fast, furious and technically demanding. Luckily, you have an excellent memory. Financial wheeling and dealing is going on. You may not see much more in your pocket now, but keep playing hardball.

Libra (Sept. 23-Oct 22) Are you thinking about getting married? Others

may think you recently came up with the idea. Truth is, you and your sweetheart have been talking about this for ages. If you don't have a sweetheart, it's a good day for new beginnings, too.

Scorpio (Oct. 23-Nov. 21) If you don't speak up about something that's bothering you, it'll just get worse. It's not your nature to complain. Well, at least not until things have built to an intolerable level. Don't let that happen this time.

Sagittarius (Nov. 22-Dec. 21) A lively discussion with a passionate person could lead you to a whole new understanding. What you may not have put into words is the reason for all this trouble. What are you trying to accomplish? Make something up. Knowing will make your life easier.

Capricorn (Dec. 22-Jan. 19) You've been doing the work, but the money's slipping through your fingers. Do you need a better accounting system? Don't hire somebody to help; figure it out yourself. That will be time well spent.

Aquarius (Jan. 20-Feb. 18) You like to stay in control. You do that by having all the answers, doing the extra research and squeezing time out of your busy schedule to study. That's what you should do now. You need to know about something before tomorrow.

Pisces (Feb. 19-March 20) A controversy is raging, and you're right in the middle. You might not be keeping track of all the facts very well, but you can figure out one thing. You know what's best for you. So, do that. Stop worrying about them. They'll think of something.
