HOROSCOPES

**Aries** (March 21-April 19) Make practical preparations for your weekend excursion. Make sure you have your tickets and reservations. You might not have to fit the bill for everything, either. Let your playmate pitch in when appropriate.

**Taurus** (April 20-May 20) You're about to be proven right again. You always knew you were right, but others may have doubted you. One particularly annoying older person did. He's right about one thing, and you're right about another, but yours trumps his. Be gracious.

**Gemini** (May 21-June 21) A suspicion is about to be confirmed. Someone you thought was pretty shiny may have feet of clay. Forgive this person and remain friends. Your sense of awe may have been unrealistic from the start.

**Cancer** (June 22-July 22) A friend's advice is right on target now. You may be doing a job the hard way. You can't figure this out by yourself because you don't know any better. Talk about your frustration with a person who has more experience.

**Leo** (July 23-Aug. 22) You'd like to be the one to call the shots, but that may not happen. You'd be wise to follow orders instead. Your opinion will be more warmly received tomorrow. Today, keep it to yourself.

**Virgo** (Aug. 23-Sept. 22) The answer you're seeking is harder to find than you thought. You might have to travel or take a class in order to find it. Don't despair, because this could turn out to be great. How long has it been since you've had a vacation?

**Libra** (Sept. 23-Oct 22) A serious discussion with a loved one about money may be required. Somebody may not have been paying their fair share. Or even worse, they may have been spending too much. Take time to design a budget you can both live with.

**Scorpio** (Oct. 23-Nov. 21) The job is demanding, but the money is good. Unfortunately, expenses may be high. Try not to spend more than you make on this deal. Enlist the aid of an expert penny-pincher. Then, just do what you're told.

**Sagittarius** (Nov. 22-Dec. 21) You may not usually love your work. You'd rather be out playing. But today, working with a fun person could change everything. Hopefully you can work with this person, because it's the only way you'll get to spend much time together.

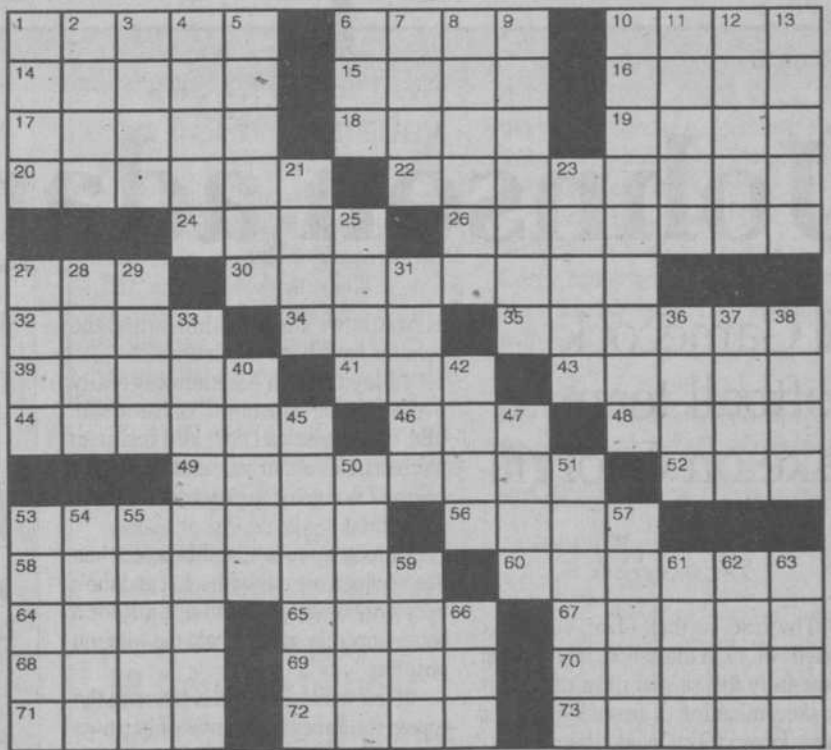

**Capricorn** (Dec. 22-Jan. 19) Home is where your heart is, and the rest of you ought to be there, too. You and a loved one need to spend more time together. You might share secret hopes and dreams.

**Aquarius** (Jan. 20-Feb. 18) You may be sick of the same old routine, but you can't break away quite yet. You can make arrangements, though, like a date for tomorrow night. Don't wait until the weekend.

**Pisces** (Feb. 19-March 20) You're getting smarter, and probably richer, too. Your new skills aren't used entirely to provide more services; you may also be learning how to negotiate a better deal. That really is a better use of your brainpower.
