HOROSCOPES

Aries (March 21-April 19) Something you've been worried about will get easier, but keep studying. New skills you learn in the next few days can increase your income. You'll also get a boost from the increased admiration you get from your friends.

Taurus (April 20-May 20) Contemplate an important purchase carefully but quickly. If you can do the homework and shopping today, you might find the perfect deal tomorrow. Don't just sit there; figure out exactly what you want. The price can be the variable.

Gemini (May 21-June 21) Continue to keep your head down. Let others argue and defend your position. Continue to do the research, but without asking questions. Don't reveal how much you already know. Meet with your trusted accomplice tonight to plan your next move.

Cancer (June 22-July 22) You and your buddies can accomplish great things. You inspire each other. That's why a minor setback will be so easy to ignore. It's just a little bump in the road. Don't hit it too fast, though.

Leo (July 23-Aug. 22) Your friends come through for you again, when you really need them. They provide comic relief. You've had just about enough of being serious. You're only able to hold that pose for about 24 hours, and it's been at least that long. Escape into frivolity!

Virgo (Aug. 23-Sept. 22) You may have a day of reckoning fast approaching. Do you have pictures to prove what you were doing? Graphs, charts, a fully computerized presentation? That's the ticket! E-mail it to them! Make sure the job gets done, and they may not care how.

Libra (Sept. 23-Oct 22) The tough part is just about over. You'll soon be leaving your dull routine for fascinating new horizons — maybe as early as tonight. But don't forget one very important thing you must do first. It has to do with money.

Scorpio (Oct. 23-Nov. 21) You're a good strategist. It's one of your natural skills. You're also good at math, especially the kind that involves dollar signs. Dig in. There's a new kind of work to be done.

Sagittarius (Nov. 22-Dec. 21) You may feel too weak to continue the way you have. This is good, because there's no need to do so. You can still keep your promise, but you don't have to do everything yourself. Think about it.

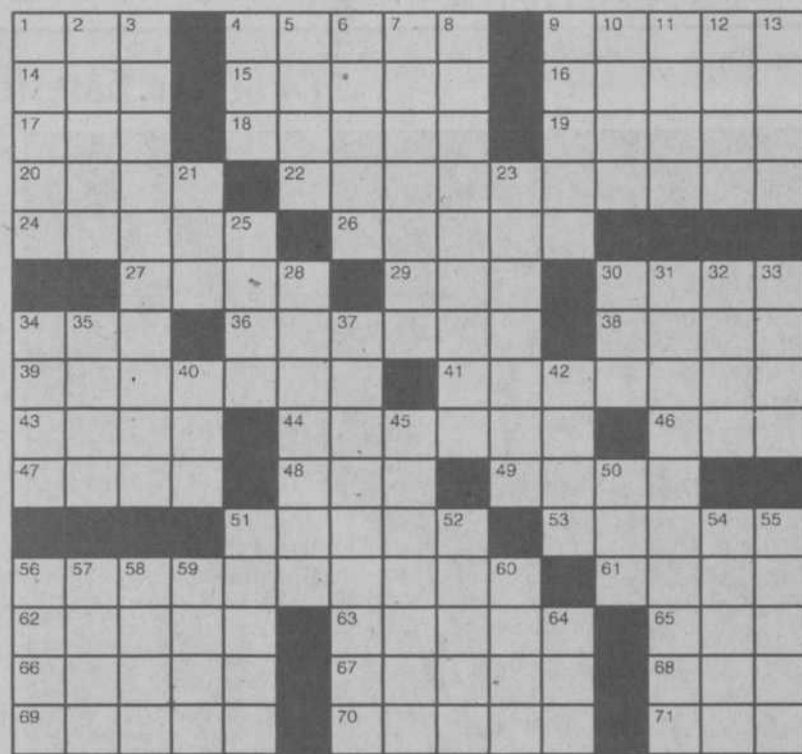

Capricorn (Dec. 22-Jan. 19) A call to somebody you care about could be the most valuable part of your day. Strange, because you may also get the chance to close an important deal. Do that too, of course. Just know which is most valuable.

Aquarius (Jan. 20-Feb. 18) You may think that one of your favorite dreams will have to be abandoned, but you're in for a pleasant surprise. A seemingly impenetrable barrier may dissolve. You may think you had nothing to do with that, but you did.

Pisces (Feb. 19-March 20) Once you get everything figured out, you'll know exactly what to do, and you won't make any mistakes. But you don't have that much time. You have to act before you have it all figured out. That's where faith comes in.
