## HOROSCOPES

**Aries (March 21-April 19)** In a way,  
things are getting better. Somebody's coming  
to your rescue this time. Can you lean back in  
the passenger seat and let somebody else do  
the driving? Even together, you won't get far.  
On your own, you're going nowhere.  
Graciously accept the offer of assistance.

**Taurus (April 20-May 20)** Concerns  
about finances fade as more work becomes  
available. Why so glum? You'd rather be play-  
ing, that's why. Schedule something extra-spe-  
cial for Friday night and Saturday. Let yourself  
get creative. Devise an inspirational prize.

**Gemini (May 21-June 21)** You should  
soon see the light at the end of the tunnel. Only  
a couple more major frustrations, and you'll be  
there. Here are some clues: Measure three  
times and cut once, and pretend there's not  
enough to go around.

**Cancer (June 22-July 22)** You may be  
slowing down just a little. Don't plan anything  
huge for tonight or tomorrow. Quiet evenings  
at home will be much appreciated by you and  
the whole family. Nix on the 9-year-old's  
slumber party.

**Leo (July 23-Aug. 22)** You could get a  
chance to increase your income. It could mean  
learning to play a new role, which doesn't  
sound bad. The tough part is that it's something  
you don't think you can do. Get past that, and  
you've got it made.

**Virgo (Aug. 23-Sept. 22)** You can figure  
out how to make the operation profitable. Now,  
if you can only get the others to listen to your  
advice. Start by talking them into giving you a  
raise. They'll also give you more respect.

**Libra (Sept. 23-Oct 22)** Check your work  
two or three times this morning before sending  
anything out. That's when you're most apt to  
make, and discover, mistakes. They could hap-  
pen at any time, though. You might also think  
the boss is irritating, especially if he or she  
finds one of your errors first.

**Scorpio (Oct. 23-Nov. 21)** Negotiations  
that began earlier in the week should start to  
bear fruit. Don't get anxious; it won't hurt to  
wait. Meanwhile, ask more questions. People  
will be in the mood to share their secrets over  
the next few days.

**Sagittarius (Nov. 22-Dec. 21)** Your  
chances for success improve as the day goes  
on. Tomorrow will be a lot better. Remember  
that if you feel yourself getting tense.  
Whatever setbacks you suffer, real or imagi-  
nary, are only temporary. Don't make a joke at  
your mate's expense. Hurt feelings will last  
longer than this somewhat stressful condition.

**Capricorn (Dec. 22-Jan. 19)** The tricky part  
is coming next. This is when you convince an  
older person, possibly a parent or a boss, that  
you deserve more money. Don't be impatient.  
Wait until the time is right. The other person  
will let you know when the moment arrives. It  
may be tomorrow. Be ready.

**Aquarius (Jan. 20-Feb. 18)** Once  
you've crunched the numbers, you can relax.  
Schedule a date with friends, for motivation as  
well as amusement. You've been out of the  
loop for the past few days. You need to find out  
what's been happening.

**Pisces (Feb. 19-March 20)** It's time to  
pay the bills. Don't freak; all will be well. You  
will survive. You hate the paperwork part, but  
it's all just part of the process. You'll feel so  
much better once it's done. Partial payments  
will work on some things, by the way.
